WEEKLY REVIEW.

Today's session closes a quiet week, and were
it not for the consistency of the provision

On 'Change.

[Special to C. E. Turner, broker, Masonic Temple, from Kennett, Hopkins Company. CHICAGO, April 23.—The market opened about Chicago, April 23.—The market opened about 1c lower for no apparent cause except that the crowd took home with them last night because Armour has bought a little, and they found a poor market for it this morning. It was dull for an hour or two, but the tide was turned by a squeeze of the May shorts in St. Louis. That option opened in that market at 60½c and sold up to 63c. There is about 2,000,000 bu wheat there owned by two or three parties, and they took advantage of the excited state of the market to force shorts to settle. A cash demand that had been conspicuously absent for some days suddenly sprang up, millers taking small lots at the July price free on board, which would make it a little under the May price in store. Should the cash demand disappear there is nothing in sight to prevent a bad break. The statistical situation is again assuming a discouraging outlook for holders. Stocks abroad and afloat are increasing. Export demand has fallen off in consequence of the advance. Domestic receipts are increasing, and there is little demand except from a few belated millers, who were afraid to buy around 55c, and are now buying more on speculation than on a demand for flour. As the latter the northwestern millers are making all sorts of claims, but it is a fact that they were trying to

than on a demand for flour. As the latter the northwestern millers are making all sorts of claims, but it is a fact that they were trying to sell in Chicago yesterday at 10c over bottom prices for past month, and found scarcely any demand. They ought either to quit talking so much or muzzle their Chicago agents.

Corn and oats flattened out, there being no more shorts to run in, and longs who had sold out holding off for a decline. It was nothing but a soda water bulge.

Provisions dull, with no outside business of consequence, and local traders trying to scalp \$3 and a shilling off each other.

There were over 400 butchers' cattle, some of which were in excellent condition. There were 450 calves, but the market appears to be glutted; consequently prices ruled low. Sheep and lambs were in demand, but there were only 20 sheep and 60 spring lambs. The butchers' cattle sold at prices varying from 3 1-2c to 5c per lb, and some which were not in good order were offered at even lower prices. Calves sold as low as \$1 each, and the highest price paid was \$6. Sheep brought from \$4 to \$6 each and spring lambs \$2.75 to \$4.75. Fat hogs are in demand and ruling higher, 5c to 5.1-2c being asked. Drovers are searching the country far and near for beef cattle and sheep for shipping purposes. It is reported that shippers have been offered lower rates in New York than in this city, and Mr. Robert Bickerdike has engaged five steamers to load with

American cattle at 3s 6d per head, TORONTO. TORONTO, April 23.-In butchers cattle the feeling today was a little easier at the Western cattle yards. Buying for export was not active for the want of the proper kind of cattle. In hogs there was a good trade, but the feeling was only steady. Offerings of all stuff were 36 carloads, including 900 hogs, 97 sheep and lambs,

over 100 calves, and a dozen milch cows. Butchers' Cattle—Everything sold before the close of the day, but the feeling was slightly easier. Not many really good butchers' cattle offered. Top price about 4c per pound for choice cattle, one or two picked heads going a fraction higher. Common cattle, 3c to 3 1-2c, with rather slow inquiry. Export cattle slow. One bunch of 10 cattle, 1,200 pounds average, sold at 5c, and a few more lots at about the same figure for good steers, and 4c per pound for bulls. Hogs—Prices no higher, although trade was active. Good long, lean hogs, 5c to 5 1-4c, weighed off cars, mostly about 5c per pound. Fat hogs, \$4 90 to \$5 per cwt. and store about the same. Not many sheep and lambs came in,

and the market was steady at Friday's quotations. Good grain-fed yearlings, 5c to 5 1-2c. Spring lambs scarce and wanted; sales at about \$3 50 to \$4 75 each. No inquiry for shipping sheep. Calves—Too many offered; feeling decidedly weak; 4 head sold for \$2 50 for the lot; top prices, \$4 50 to \$5.

MARK IT WELL.

A Development Peculiar to the Present Generation Dangerous and Often Fatal.

As each generation comes and goes it is marked by changes, developments and discoveries unknown to its predecessors. From a physical standpoint one of the most to be dreaded conditions, and peculiar for its rapid increase during the present generation, is when the mind labors under the delusion of persecution, continual restlessness, pain in the back and head, twitching of the muscles of the face and hands, furred tongue, breath foul and heavy, nausea and further indications of stomach trouble. There may be delirium, convulsions, or sinking spells. Medical authorities apply different names to the conditions that are unintelligible to the average reader. The actual facts are the demoralized and dangerous state of the system is due to the accumulation of "Body Poison" in the blood that should and would be thrown off by the Kidneys if in a healthy condition. In order to restore health, strike at the root of the disease with Chase's Kidney-Liver Pills, the only medicine known bled with the control of the changes going on that will control the changes going on the changes

It is well patronized. -Thomas Russell, the 15-year-old, this morning admitted having placed a tie on the Port Stanley track near Westminster station on Thursday evening last. Mr. Love appeared in Russell's behalf, and claimed that no evil was intended; that the youth had merely wandered into the country, and being footsore and hungry wanted to get a ride home. Judge William Elliot re-

manded Russell until Saturday. -At a very largely attended meeting of the members of the Adelaide Street Baptist Church, held last night for the purpose of considering the resignation of the pastor, Rev. D. M. Mihell, Deacon Robertson occupied the chair, and after the matter had been thoroughly discussed, it was decided by an overwhelming majority to ask Mr. Mihell to reconsider his decision. The pastor's answer is expected to be made known after the weekly prayer meeting tomorrow night.

host.

Mrs. Barney gave many touching incidents in her own work, and also gave a brief sketch of the call received by Lady Somerset to the temperance work and of the wonderful results of her efforts. A question as to what the "white ribbon" means brought the following reply: It should mean: 1. Personal purity. This includes purity of thought, word and deed. 2. Consecration, not to temperance work merely, but to Christ and his service. 3. Helpfulness to everyone who needs our help, high or low, rich or poor. 4. Loyalty to Christ, to our great, grand organization in its work, local, Provincial, Dominion, and to each other.

When Mrs. Barney's meetings in this city are closed many will have reason to thank God for the privilege they have had in listening to her words, and for the spiritual help and encourant for the spiritual help and encourant for the spiritual help and those agement they have received; and those who fail to hear her will have missed a grand opportunity that may never again be theirs.

A Tramp Discovers a Broken Rail at Strat-

R. west of making his way westward when he noticed the broken rail, and the evening express from London came into view about the same time. The man grasped the situation at once, and, rushing up the track, signalled the train, which was stopped. At the point where the broken rail was discovered the embankment is very high, and had a wreck ensued considerable loss of life would scarcely have been avoided.
