CAMP BORDEN, Ont., July 4.—Fire caused apparently by the excessive heat, burned about twenty acres of land in the immediate vicinity of buildings occupied by the Canadian Air Force here today. At one time it might have assumed serious proportions as a fair wind was blowing in the direction of the camp hospital, but the fire siren brought all the officers and men in the camp to the scene, where, after a good half-hour's work the danger was averted.

As far as the British Government.

As far as the British Government is the cannot be conserred, there appears to be little doubt that the majority of ference against the series and men in the camp hospital, but the fire siren brought all the officers and men in the camp to the scene, where, after a good half-hour's work the danger was averted.

TOO HOT EVEN FOR TROUT THESE DAYS

[Special To The Advertiser.]

DURHAM, July 9.—With the heat remains the thermometer well over so the thermometer well over so desires in the shade, local anglers of the trout fishing season is about "dead" for this season. No longer will the speckled beauties leap for the fly or nibble at the batted worm hook, and though scores of visitors who wisit this part weekly from all parts of Southern Ontario are still lows tempting the trout, large catches are rare, and even fish mer to the trout are hiding, and will rooler weather dawns.

Local fishermen expect a big year of sport in 1922, for within the past two years 55.000 small fry from the government hatcheries have been invested in the Saugeen's branching creeks. By sext season it is expected the minnows will be large enough to take the river courses.

As far as the British Government is busined and succession of the camp hospital, but the motion that the motion that the motion at a first with the matter of the score which the sample of the fly of the score of the first of the turn of the camp hospital, but the first and on the holiday.

The turn of the turn of prescriptions being conducted and there is reason for the fly of the true, and the prescription of the sample of the fly of the turn of the season. No longer will the speckled beauties leap for the fly or nibble at the batted worm hook, and though scores of visitors who longer will be a for dead more information respecting to the prescription of the season.

Local fishermen expect a big year of sport in 1922, for within the past two years 55.000 small fry from the government will be a for dead more information respecting to the pr

CONFUSION IS CAUSED

Conflicting Statements Regarding Anglo-Jap Treaty Were Harmful.

LONDON, July 4.—(By Grattan O'Leary, Canadian Press Staff Corre-spondent).—So much confusion has re-JAPAN EAGER TO

CUT EXPENDITURE

FOR ARMAMENTS

Would Gladly Welcome Conference, Declares Yukio Ozaki.

TOKIO, July 4.—Yukio Ozaki, former Japanese minister of justice, on the conclusion of a ten thousand mile campaign of the empire in behalf of limitation of armaments, a campaign unparalled in Japanese political history, declared his conviction today that if the United States Government "proposed a conference on limitation of armaments it would meet with an eager response throughout the length and breath of Japan.

M. Ozaki, whose achievements have made him the foremost Japanese liberal, whose achievements have made him the foremost Japanese liberal, and that it was not until Friday.

**M. Ozaki, whose achievements have made him the foremost Japanese liberal, and that it was not until Friday.

**M. Ozaki, whose achievements have made him the foremost Japanese liberal, and the foremost place of Nations sallance that a statement of the pagine of th sulted from conflicting statements as to what has really taken place in con-

it would meet with an eager throughout the length and breadth of Japan.

M. Ozaki, whose achievements have made him the foremost Japanese liberal, sold:

"If the United States Government proposed an international conference to discuss restriction of armaments, it will surely be the beginning of a solution of all the diplomatic questions between Japan and the United States. If we are unable to prevent the clearly unnecessary wasteful naval competition how can we expect to solve other irritable and more complicated questions between our two countries? The latter will easily adjust themselves when the former has been settled."

M. Ozaki explained that he spoke in almost all the important cities and towns from Kyushu, in the furthest north, addressing more than a hundred thousand persons at 100 meetings, large and small at which postcards were distributed so that his hearers could vote freely on disarmament. The final result on the returns from these cards. M. Ozaki asserted, showed that ninetyfour per cent favored limitations.

The intense endeavor of M. Ozaki appears to have awakened the nation to the fact that armament restriction is the supreme problem of the era for Japan. An investigation in the highest official quarters elicited confirmation of previous statements, that the Government would welcome a conference on armament limitation.
