

LONDON TROOPS WORK TO SAVE GREAT MINE Fifteen-Year-Old Girl Drowns in Swimming Pool

TROOPS TAKE CONTROL TO SAVE BIG COLLIERY IN SYDNEY STRIKE AREA

Largest Coal Mine in World Threatened With Destruction as Miners Refuse To Allow Company Officials To Pump Water From Shafts.

ARREST OF LEADERS FIRES STRIKERS

Sydney, N. S., July 10.—About 500 troops and provincial police occupied No. 2 mine and Stirling mine at Glace Bay this morning. There were no disorders. The R. C. R. went from Sydney on nine flat cars of the Sydney and Louisburg Railway, and the mounted troops and provincial police went by road. The London company is included in the Sydney detachment.

The first troops to leave the city were cavalry, the Royal Canadian Dragoons. The steel company announced this morning that an additional 22 men had been employed today at the steel plant.

Hon. D. Cameron, provincial secretary, when asked to comment on the report, said it was his understanding the troops were already in control at No. 2. He expressed the opinion that the occupation arose because an endeavor yesterday on the part of the company to relieve the officials operating the pumps and fans by officials from other collieries is said to have met with some opposition from the men.

SOLIDIFY RANKS.
Special to The Advertiser.
Sydney, N. S., July 10.—The arrest of Molochian and Livingstone has to use an old saying, "Set the heather on fire" here. Last week-end there were a number of wavering spirits who questioned the legitimacy of the coal miners' sympathetic strike, but the apprehension of the red leaders of District 26 has cemented the ranks of the colliers, and this evening the walkout is conceded one hundred per cent north and south.

Whatever chance there was of the men going back before the arrest of Molochian and Livingstone were arrested, and that was small, it has gone a-glimmering," said a member of the miners' official board to your correspondent. "The attorney-general

ASKS HELP TO COMBAT WHITE SLAVE TRAFFIC

League of Nations Seeks Co-operation of World's Police Departments.
Associated Press Despatch.
Geneva, July 10.—The police departments of the world centers are being asked to co-operate systematically with the League of Nations, which has decided to form a committee of experts to inquire into the scope and methods of the international white slave traffic.

The league has set itself the task of stopping organized trafficking in girls and women. Recently a man was arrested in Holland on the charge of sending twelve young women to South America. The league is determined to lay bare the ramifications of the system, and the committee of experts will make a thorough investigation of the whole subject.

TAKE RAP AT DRURY FOR TAKING LETTERS

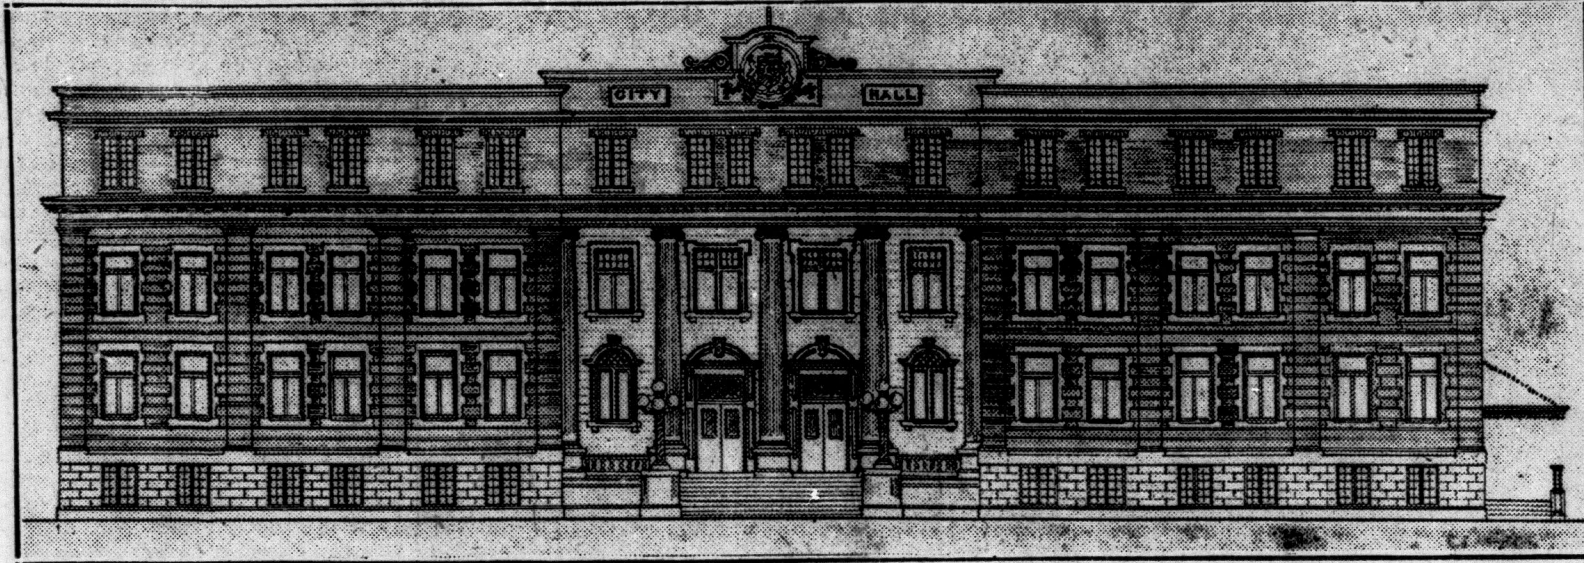

Politicians Criticize Premier for Removing Private Papers From Office.

Special to The Advertiser.
Toronto, July 10.—An attempt is being made to make political capital of the fact that several boxes of Premier Drury's private files are being removed from his office, and attention is being drawn to the criticism of Mr. Ferguson at the time of the timber inquiry in connection with the removal of letters from his department before the new government came in in 1919.

Spoken to this morning, Premier Drury remarked: "I am taking letters that are of a private nature, and they will be preserved and will be available any time they are needed. That is a very different thing to destroying them."

Mr. Drury stated that whenever a public matter was part of a private letter he had given instructions to have the public part copied out and kept.

It may be pointed out it is customary for outgoing ministers to take away their private correspondence, and Premier Drury's answer that letters of this character will be preserved and available any time they are needed leaves hostile politicians with no room to make capital.

HOW LONDON'S NEW CITY HALL WILL LOOK.

Here is the front elevation of London's proposed new city hall, just completed by Building Inspector A. M. Piper. The cost of the new offices is roughly estimated at not more than \$600,000, and will provide for a modern, serviceable administration building, with a frontage of 173 feet on Dundas street, extending 132 feet back along Wellington street. The new structure will comprise three stories and a basement, practically four stories. In the basement will be installed a modern heating and ventilation plant, leaving plenty of room for the janitor's quarters and three or four offices. On the first floor will be the city treasurer's, tax collector's, city clerk's and assessment departments, and the mayor's office. On the second floor is allotted the city engineer's department, the board of health, the plumbing and building inspectors' offices, the chamber of commerce, and a real city council chamber, befitting a city of this size. On the top floor will be found the Children's Aid Society, the juvenile court, the board of education if the trustees agree, and other offices that may have to be added from time to time.

NURSE CAPTURES ESCAPED PATIENT OF WESTMINSTER

Sister Garfat Pluckily Aids the Return of Man to Institution.

DRIVING IN AUTO

Patient Makes Several Get-aways Before Being Finally Secured.

Through the clever work and determination of Nursing Sister Elsie Garfat, of Westminster Hospital, the escaped patient of that institution, Patient Lasere, was discovered yesterday afternoon on the Thorndale road between Wyton and Thorndale, and induced to return to the hospital.

While driving along the Thorndale road, Miss Garfat recognized the familiar blue uniform of the hospital's patients, and upon overtaking the man wearing it, immediately recognized Lasere. At the time the escaped man was wearing a heavy winter overcoat and a horse blanket.

Miss Garfat jumped from the car and took hold of Lasere's arm and asked him to return. The man replied that he had secured a job, and was unwilling to go back. The nursing sister finally coaxed him to go with her to the farm of John Murphy, and this he consented to do. While Miss Garfat was telephoning to the attendant, at the hospital for assistance, Lasere made away and headed up the railway tracks, but the nurse, borrowing the farmer's car started in pursuit, and heading Lasere off at the crossing she managed to catch the man again, but not for long. The patient, now bent upon escape, thrust the nurse aside and took to the bush. Miss Garfat pursued, and again managed to catch up with the fugitive, and at this time the attendant of the hospital arrived.

The men from the hospital arrived in twenty minutes from the time Miss Garfat called for assistance, and if it had not been for the prompt work of these officials their man would undoubtedly have escaped again.

Miss Garfat resides at 16 Arthur street, and has been a nurse at the Westminster Hospital for several years. She also served several years overseas.

FORMER LONDON PASTOR SUCCUMBS DURING SERVICE

Rev. William H. Wilson, aged 77, formerly of this city, while assisting in conducting religious services in the Moose Temple, Youngstown, Ohio, on Sunday, suddenly dropped over, and expired before medical assistance could be summoned.

The Rev. Mr. Wilson, it is reported, had been in excellent health, and his sudden death, caused by an acute heart attack, came as a distinct shock to his many friends who were present at the time.

KU KLUX KLAN TO KEEP FAMOUS HOOD AND MASK

Tulsa, Okla., July 10.—William Joseph Simmons, founder and emperor of the present Ku Klux Klan, in an address at convention last night denied reports of disaffection in the ranks of the order and declared, "It is nobody's business what kind of a costume is worn by the Ku Klux Klan."

"I have no apologies to make for that mask," he declared. "It's going to stay right where it is."

Know Islands Near Florida As 'Bootleggers' Paradise'

Poverty-Stricken Residents Become Rich Overnight as Result of Rum-Running Activities to the United States.

Associated Press Despatch.
Chicago, July 10.—Rum running along the south Atlantic seaboard has assumed such tremendous proportions that the inhabitants of poverty-stricken little islands have become rich almost overnight and the section has become known as "Bootleggers' Paradise." The Chicago Daily News said today in a copyrighted article describing conditions along the Florida coast.

In the Bahamas, from the city of Nassau alone, the article said, official clearings of liquor bound for the United States increased from 37,821 gallons in 1917 to 1,340,443 gallons in 1922. The writer, accompanied by a bootlegger named "Terry" as guide, told of visiting the rum fleets, talking with the rum-runners, helping transport the liquor, and of distributing it in the United States.

MAY LEAVE THIS WEEK TO BRING SID MURRELL

Inspectors Greer and Stringer, Toronto, Receive Warrant From Ottawa.

Special to The Advertiser.
Toronto, July 10.—A federal warrant having been received from Ottawa for the arrest of Sydney Murrell, San Francisco, wanted in London, Ont., on charges of being a bootlegger, Chief Inspector Greer and Inspector Stringer, of the provincial police, will go to San Francisco at the end of the week. They are waiting orders pending the receipt by the United States police authorities of a federal warrant authorizing them to give up Murrell.

"I expect Murrell will be back in London within three weeks," said Crown Attorney J. C. Elliott to the Advertiser this morning. "There are no new developments in the case, and it is just a matter of pursuing the ordinary legal course in the way of bringing him back. There is a good deal of red tape in all this matter of bringing a prisoner back; you know, and these things are never done quickly, but there is no hitch in any way, and in good time he will be back in London."

WALL STREET EXPELS MEMBER FOR FRAUD

Committee of Stock Exchange Finds Harvey A. Willis Is Guilty.

Associated Press Despatch.
New York, July 10.—Harvey A. Willis, head of a brokerage firm bearing his name, was expelled today from the consolidated stock exchange for "nullifying the effect of a client's order by taking the transaction to his own account."

Willis had been a member of the exchange since December 12, 1917. The committee on ways and means which investigated the charges against him, found that he was guilty of "obvious fraud or false pretense" in having on many occasions, as shown by evidence under cover of two opposite transactions, indulged in the practices complained of.

BOARD SHIP, FIGHT CREW AND STEAL LIQUOR CARGO

Associated Press Despatch.
Los Angeles, Cal., July 10.—Hi Jackers boarded a vessel, believed to be the Gunner, carrying 500 cases of bonded liquor from Vancouver, B. C., yesterday and after a battle with the crew, stole nearly all the liquor and escaped.

Prohibition agents, who made an unsuccessful attempt to trap and capture the liquor pirates, are the authority for the announcement.

BRITAIN DECIDES ON LONE COURSE IN GERMAN DEAL

Action of Cabinet May Mean Breaking of Ties With France.

PREMIER TO SPEAK

France and Belgium Are Still Determined To Collect Reparations by Coercive Measures.

Special Cable to The Advertiser.
London, July 10.—Independence of action in settling the reparations question has been decided upon by the British cabinet and Premier Baldwin will announce this in the House of Commons Thursday. It was learned authoritatively today.

This means that the present dubious ties binding Britain to joint action with France and Belgium in collecting Germany's war obligations are to be definitely severed. Disapproving of the allies' determination to push on in the occupied areas, this country will adopt means of its own for negotiating with the Cuno government if France and Belgium persist in pursuing coercive measures.

President Millerand of France, who has come to the fore recently as a break with Britain over reparations, speaking at a luncheon at Clermont Ferrand today, again made reference to France's determination not to give way to British wishes and to those of Germany.

U.S. PROHIBITS SENDING HONEY BEES BY MAIL

Canada Is Excepted in Embargo Occasioned by the Prevalence of Disease.

Associated Press Despatch.
Washington, July 10.—An embargo on honey bees sent through the mails by parcel post from any foreign country with the exception of Canada, was announced in an order issued today by Postmaster-General New.

Importation of honey bees has been prohibited as the result of prevalence of a disease known as "foul brood" among honey bees in certain foreign countries. Canada has been excepted in the order because it is found that Canada is taking suitable precautions to guard against the spread of the disease into Dominion territory. Honey bees are one of the few forms of insect or animal life which may be sent through the mails.

TORONTO HOUSES SET AFIRE DURING LIGHTNING STORM

Special to The Advertiser.
Toronto, July 10.—Three houses on Alberta avenue were struck by lightning and set on fire during the storm last night. The houses were those of J. Keeler, 26 Alberta avenue; Charles Shuter, 28 Alberta avenue; and Mrs. C. Keeler, at 30 Alberta avenue. The firemen were called to extinguish the fire, and the damage is reported as slight.

Considerable water damage was done by sprinklers, when a fire broke out in a warehouse at 6 Clifford street, the firms suffering damage are: Fisk Chocolate Company, Andrew Grey, and Choc Ice Company.

SEIZED BY CRAMP, CITY GIRL DROWNS IN BATHING POOL

Isabel Storey, Richmond Street, 15 Years Old, Meets Death While Swimming.

SEARCH FOR BODY

Supervisor Hastens to Rescue, But Fails To Arrive in Time.

Isabel Storey, Richmond street, 15 years old, drowned in the swimming pool at the foot of Grosvenor street, about 1:15 p.m. this afternoon, when she appeared to be seized with cramps while in bathing.

According to eye-witnesses, the girl who, was in the habit of going to the swimming pool, was enjoying herself immensely with no thought of danger when she suddenly called for help. Bystanders looked to see where the cry came from and just saw her disappearing under the water.

At 2:15 o'clock the body had not been recovered although a search was immediately instituted. Fire Chief Aikens arrived on the scene shortly after the accident, with the pulmotor equipment and took charge of the search.

The girl who was a good swimmer, had gone outside the safety zone with her friend, Jean Adams. It was here that she was evidently seized with cramps. She went under a first time and Mr. Dent, in charge of the pool, swam to the spot immediately. She came up six feet distant from him and sank before he could grab her.

When Ald. Douglass left the city on a week's vacation it was evident by his statements that there would be no session of the board of works until his return. It was his intention he had done so, and the board was about to disband.

Three items of particular interest to the citizens at large are slated for consideration, "all other things being equal."

FAIL TO ACCEPT CHALLENGE OF CITY HALL BALL TEAM

Another city hall move of importance is suspected. It was rumored this afternoon that the municipal baseball team is about to disband. "Jimmy" Bell reports that their challenge has not been accepted, and he concludes that everyone is afraid to take them on.

The fact is stressed that the city hall baseball team is not the municipal football team as suggested not long since by Ald. Gordon Drake.

LOCKERS ARE INJURED.

St. Catharines, July 10.—Navigation on the Welland canal was tied up this morning by an accident at Lock No. 2. The steamer Glen Cassie having collided with one of the head gates. The gate while partially dislodged, was not torn out. Repairs are expected to be completed early this afternoon.

ABANDON SEARCH FOR BODY OF NULL IN ERIE'S WATERS

Port Stanley Fishermen Return to Regular Work, But Will Continue Watch.

NO REWARD OFFERED

Believed Null Sacrificed Self to Further Roth's Chance of Rescue.

Special to The Advertiser.
by a Staff Reporter.
Port Stanley, July 10.—The fishing skippers of Port Stanley are of the opinion that the American authorities have abandoned the search for the body of the lake freighter, Teiford B. Null, as no naval planes or lake auxiliaries have been seen in the vicinity today. They believe that if the proper authorities expected to find his body after the lapse of five days a reward would have been offered in order to stimulate interest in the search.

The tug Onajag, whose skipper, George Wilson, recovered the body of Lieut. Roth, has returned to her fishing, the skipper feeling that unless some help is offered in the search from the U. S. naval base at Cleveland he cannot continue the search unaided and at his own expense.

The skippers of the port, while fishing as though nothing untoward had happened, will nevertheless keep a lookout for the body of Lieut. Null.

No Entry in Journal.
The fact that there was no entry in the rough journal, kept as an accessory in the compilation of their log-book, by the Lieut. Null, had been hurried from the balloon prior to the crossing of the Pelee Peninsula proves that Lieut. Null was still with Roth at the time the basket struck Lake Erie.

Lieutenant Strong, U.S.N.A.F., who came to Port Stanley to remove Roth's body, had been busy discussing the matter: "I agree with you in that the officers were together when the basket struck the lake. I don't believe either of the men wore life jackets, as these were not mentioned in the balloon's inventory, and would be unnecessary to have taken the precaution to inflate the four buoyancy envelopes, which were lashed around the upper edge of the basket."

Yes, he said, "I believe that, as Turn to Page 2, Column 2."

STRIKES IN GERMANY CAUSE HUNGER RIOTS

Mobs Storm Food Stands As Situation Grows Serious Throughout Country.

By GEORGE WITTE.
Special Wirephoto. London, Advertiser, Chicago, Daily News, Copyright.
Berlin, July 10.—As a result of the strike of more than 200,000 metal workers, there have been serious food riots in the outlying districts of Berlin.

Even women were not spared when an excited mob stormed the potato, vegetable, fish and meat stands in a suburb near Potsdam. On account of women shopkeepers, the troops were called out from Potsdam indications that there will be serious trouble throughout Germany are strengthened every day.

The government has attempted to settle the strike of the metal workers, but as a result of the latest drop in the value of the paper mark abroad, the strikers insist that the employers in the future guarantee them wages based on the gold mark. There are reports that the municipal workers in Berlin and the railroad employees will join the metal workers in a strike if their demands are not granted.

THE WEATHER

FORECASTS.
Moderate winds; partly fair; showers or thunderstorms in some localities. Wednesday—A few scattered showers, but mostly fair.
Pressure is now quite low in the Gulf of St. Lawrence, and above the normal over the Western Provinces and in the Southern States.
Showers have occurred locally from Alberta to New Brunswick, but the weather over the Dominion on the whole has been fair.

The highest and lowest temperatures during the 24 hours previous to 8 a.m. today were:

Stations.	High.	Low.	Weather.
Victoria	54	54	Clear
Calgary	72	46	Fair
Winnipeg	62	44	Fair
Port Arthur	58	60	Fair
Perry Sound	50	50	Cloudy
Toronto	62	44	Fair
Kingston	72	62	Fair
Ottawa	62	44	Fair
Montreal	50	44	Fair
Quebec	52	62	Fair
Quebec	52	62	Fair
Father Point	68	50	Cloudy
St. John	54	42	Fair
Halifax	54	40	Fair
