Location for the Building Selected in College-Avenue — Who Will Become Stockholders?—C. H. Nelson's Laudsble Efforts — Players' Raseball Magnetes Meet and After Their Schedule.

It is now nearly two weeks since The World announced that schemes were being projected for the building of a commodious, handsome and useful building for a Toronto athletic association, and described the plans for the same. The promoters of two schemes were thus brought together with the result that Mr. Langmuir has permitted his to rest in abeyance until he is satisfied that Mr. Nelson's efforts be successful but that Toronto will have an athletic club building and association second to none in the Dominion.

An informal meeting was held at the Albany Club yesterday by several gentlemen interested in the concern. Among those association second to none in the Dominion.

An informal meeting was held at the Albany Club yesterday by several gentlemen interested in the concern. Among those present were Messra. C. H. Nelson, Hon. John Beverly Robinson, T. C. Patteson, John Massey, A. D. Langmuir and Dr. J. W. F. Ross. It was reported that the refusal of the Jones lot in College-street had been secured. It would be simply impossible to locate in a more central position than here. The property is a large one with about 200 feet frontage on the north side and about 100 yards from Yonge, and will most likely be secured en blog for the building.

individuals, however, and not as members of any particular club.

Finally it was decided to hold the preliminary formal meeting at the Queen's Hotel next Tuesday at 4 p.m.

Mr. Nelson was seen about the project. He is most pleased at the result. It has surpassed his best hopes. He has received encouragement from every quarter and by many well-known financial men. Mr. J. I. Davidson, president of the Board of Trade, was unavoidably absent from the meeting but declared that he would follow the exemplary lead of Mr. Nelson. Toronto has always been a sporting centre, and when its athletic association is completely organised and the building constructed, many more men with athletic ability will float Queen Cityward, our youth will be carefully developed and then we can cope successfully with the big clubs of New York and other American cities.
