### What the Press Does.

The printing press has made presidents, killed poets, furnished bustles for beauties and supplied genius with sandpaper criticism. It has made the world get up at the roll call every morning, gives the pupil lungs of iron, and a voice of steam. It has set the price of a bushel of wheat, and made the country post office the glimmering goal of the rural scribe. It has curtailed the power of kings and broken trusts, it has converted bankers into paupers, it has educated the homeless, helped the sorrowful and robbed the philosopher of his reason. It smiles and kicks, cries and dies, but it cannot be run to suit everybody, and the editor is a fool if he tries to do it.

### Offer Prizes.

Many farmers and farm lovers are wealthy enough to encourage the growing of good, clean grain by offering individual prizes for good fields to be awarded at the fall fairs. The closing with the conditions laid down by the department of agriculture for these prizes on the part of so many societies shows the need for such work. Many agricultural fairs will be unable to get a grant for the purpose, and here is a chance for big-hearted and progressive men to encourage farmers in the work. A prize offered for this and inserted in the county or township fair prize lists will be a move in the right direction. Toronto World.

### Spray the Orchards.

The inestimable loss that accrues yearly to the farmers of our province through the low quality of fruit and poor arrangement for distribution, cries loud for redress. To all appearance Ontario is going to have a bumper crop of apples and smaller fruits. Nature has cut off many a promising crop, but the carelessness of man has lost more to the economic world than ever came about by wind and rain. There is plenty for all if the yield is well cared for. "Unless a man will work, neither shall he eat."

This is a law of nature. Constant attention brings success. Just now it is all important to spray well. The hundred and one enemies of the orchard are thus held in check and the quality of the fruit enhanced greatly. The next spraying should be done as soon as the blossoms fall. Use the Bordeaux mixture. In case of apple trees some insecticide as paris green or arsenite of lead should be used with

## Buy Hair at Auction?

At any rate, you seem to be getting rid of it on auction-sale principles: "going, going, gone!" Stop the auction with Ayer's Hair Vigor. It certainly checks falling hair; no mistake about this. It acts as a regular medicine; makes the scalp healthy. Then you must have healthy hair, for it's nature's way.

the Bordeaux, Four ounces of paris green or five ounces of arsenite of lead, to every 50 gallons of water is about right.—World.

### The Rural Telephone.

That the rural telephone is bound to come seems reasonably certain. Across the line the farm telephone is being looked upon almost as a necessity, and in many places business men are offering the inducements of installing a phone free, to the persons dealing with them for a stated amount. These things show what way the wind is blowing and, like all innovations in the march of progress, they are met with opposition in the very quarters that help would be expected. Men destroyed machinery upon its introduction in England. Mobs broke the printing press and the spinning jenny. Yet wages were never higher and labor more in demand than today. It is a strange fact of human frailty that progressive movements appear to many men at first sight to be monsters of wrong. But progress cannot be stayed. It is as irresistible as the sea. Slowly but surely, despite the petty jealousies of man, the farm telephone will be developed to a wider area of this country. In a few years, cheap useful phones will be found everywhere. Some day, not far distant, extortionate rates will cease and the farm home will be the pleasantest four walls to be found in the world.

### Chances Good as Ever.

You can have anything you like in this life if you are ready to pay the price. There are a lot of whiners who go about complaining of luck being against them and with the other fellow. These white livered loafers have not pluck enough to take hold of a proposition, and if they do they give it only one or two tugs and quit. If you want to make your business a success you must take time from other pursuits, you must put brains into it, and above all you must with brains and hands do with your might what both find to do. There are people who expect heaven to rain down opportunities and then help them to gather them into their basket. When you find a man bemoaning his fate or pointing to a successful man as a "lucky dog" put it down that he is no good. There are many chances today in this world for the man who is willing to pay the price, whether it be in art, literature, politics, religion or business, as ever there were.—Star.

### BLOOD POISON THROUGH STOCKING DYE.

#### Curious Case at Kingston.

While attending to her household duties Mrs. A. Harrison, Place-de-Armes, Kingston, (Ont.), struck her ankle against a projection which inflicted a cut. She paid little attention to the wound at the time, but in a few days it became swollen and very painful. A medical man was consulted, and it was then found that the dye from her stocking had got into the wound and set up blood poisoning. Then began a trying period of pain, which, had it not been for Zam-Buk, might not even yet have been ended. Mrs. Harrison says: "The doctor ordered certain treatment, which I followed out; but the wound got no better, and refused to heal. It was most painful, and sometimes I could hardly bear to walk. I was almost in despair when a friend advised me to try Zam-Buk. It soon reduced the swelling and inflammation, and the pain—so acute before—got less and less until the ankle was quite easy. Then the wound began to heal, and a little more perseverance resulted in a complete cure."

Zam-Buk draws the pain and the poison from a wound at the same time. It heals ulcers, chafing sores, sore feet, bad legs, and varicose ulcers. It cures insect stings, sun-burn, summer rashes, and heat spots; while as a cure for chronic wounds, eczema, prairie itch, ringworm, scalp sores, and sores due to blood poison, it is absolutely without equal. All stores and druggists sell at fifty cents, or post-free from the Zam-Buk Co., Toronto, tor price.

### London Branch of Canada Congregational Women's Mission Board.

At 2 p. m., Thursday, May 23rd, the London Branch of Congregational Women's Board of Missions met at the Congregational church in Stratford city. About twenty-five delegates were present from the different unions of the branch. After the delegates had become acquainted with one another, a devotional service was led by the President, Miss F. B. Rawlings, Forest.  
At 2.30 reports were read by the representatives of the year's work.  
Then Miss Jennie Smith, of Forest, gave a very interesting address on Mission Work in the Northwest. Following this Miss Grintop, of Embro, spoke on "A Model Auxiliary," discussing pledged work as compared to special work.  
The evening session opened at 8 o'clock. Rev. J. P. Gerrie presiding. Miss Cannon, of London, gave a most interesting address on the Young People's Forward Movement. Rev. W. D. Spence, of Embro, and D. S. Hamilton, of London, gave animated addresses on the Northwest pointing out the opportunities that

### Canadian Millionaires.

Canadian writes: Have we in Canada any well-known extremely wealthy men, such as they have in the United States, and if so, will you please state their names and how they obtained their wealth; also place of residence?  
Ans.—In Canada there are no men as wealthy as those that are frequently spoken of in the United States, as Messrs. Rockefeller, Carnegie, etc. A few of Canada's wealthier men may be given, but the list is not intended in any way to be complete, as most Canadian fortunes are still in the making. Such a list might include Lord Strathcona, Montreal, railways and commerce; Lord Mountstephen, Montreal, from the same sources; Sir Wm. McDonald, Montreal, tobacco manufacturing; James Ross, Montreal, street railways, coal and steel; John R. Booth, Ottawa, lumbering; the Allans, Montreal, shipping; William Mackenzie, Toronto, railways; Hon. G. A. Cox, Toronto, banking and insurance; Mr. Cawthra Mulock, Toronto, inherited. There are many other wealthy men in different parts of Canada who are actively engaged in large enterprises, manufacturing, mining, lumbering, banking and commerce.

### The Chosen Friends.

Toronto, June 6.—The Canadian Order of Chosen Friends wound up its annual convention today by the election of the following officers: Grand councillor, E. T. Essery, London, re-elected; grand vice-councillor, Alexander Morris, Hamilton; grand registrar, W. F. Montague, Hamilton; grand treasurer, S. Broadfoot, Guelph; first grand representative, W. Le Mesque, Montreal; second grand representative, A. W. Adam, and third grand representative, F. J. Fitzgerald, London. The order will take steps towards having a government investigation of all fraternal societies carrying insurance will be asked to join in the movement.

THE Canadian Order of Chosen Friends decided that the insurance of any member who commits suicide within one year after joining the order will be forfeited.

"I tell you, Sir, I know 'Bu-Ju' will cure you."

"I have seen hundreds of cases treated by 'Bu-Ju' and CURED—after all other treatment had been a complete failure.

I know of acute attacks of Bright's Disease, successfully overcome by 'Bu-Ju'—and the diseased kidneys completely cured.

I am acquainted with men, who were all crippled up with Rheumatism and suffered agony with the pain. To-day, they are well and happy—thanks to 'Bu-Ju.'

I know of women—whose kidneys were weakened by childbirth—who regained their former robust health with no other medicine than 'Bu-Ju.'

I know that 'Bu-Ju' will do you good—will make you feel better—and will cure you of Kidney and Bladder Trouble—and Rheumatism.

If your hands and feet are swollen—if there is a constant desire to urinate—if there is pain in the back and through the hips—if the bowels are constipated—stomach upset—I tell you right now to take 'Bu-Ju.'

They are guaranteed to cure you. If they don't, you can get your money back."

### An Exaggerated Report.

(Douglas, Kan., Tribune.)

Some time ago The Tribune published a story of the death of Charley Strawn. We are slow to admit that The Tribune is ever wrong, but it is hard to reconcile that statement with the fact that Charley got off the train at Douglas Monday evening last, never looking better. If he is dead it certainly agrees with him.

### Two Feet of Ice.

Fred A. Robertson of the S.P.S., a son of Charles Robertson of 492 Euclid avenue, writing from Nipigon, New Ontario, last Saturday, says that they cannot go ahead with their ranging on the lakes out account of the ice. Two feet of ice covers the lake at that point, but Chief Ranger P. H. Leitch anticipates an early clearance, so that they will be able to make their rounds on the 10th of the month.

### Thrilling Experience of Two Algoma Land Inspectors.

Worthington, Algoma, June 7.—Two land inspectors for the Turner Lumber Company, Donald McDonald and August Nitz, were attacked by waves while carrying their camping outfit and canoe to a small lake about a mile from this camp. Nitz succeeded in climbing a tree. McDonald fought the animals with an axe, killing one, and his companion attracted their attention by waving a coat and gave him time to also climb. They were freed by the animals for several hours.

Instruments have been ordered for the recently organized band in Theford, which starts out with 14 players.
