's Day has been-celeprincipal towns of ies with much spirit

We have already ount of the festive enof St. John ; that in was a revival, not only ty, but of those ardent of attachment to old d of every desire for ance of British conth recent events have call forth. The sons ingland" in Miramichi our to the day, and in their festivity, the hon. and entered the room somed by the compad giving three hearty

eman had just return. cland, and t e public ons of respect shewn to he estimation in which Chasham. A meetechanics, to whom it has been an emiacut was held; an address ad; and a procession resent it. The topics anard's character of Lake nd enterprising hiercouragement and se-

ference given to domestic manufacture; his effonts to promote the prosperity of Miramichi; and the judgement with which he sustained the place through the late crisis which convulsed the manutacturing and commercial interests.

The proceedings of the Supreme Gourt here terminated on Fluraday has, having ast since the 23t ut. One case Walker Vernan, occupied the attention of the Court during five days. These protracted sittings require the attendagoe of Juro's for a long, expensive, and inconvenient period at this season of the year; and when we observe the full list of those present, we must suppose these hardships were severely felt at this time, and are an additional reason for Juro's receiving adequate renumeration for their services. The Jury who sat the above mentioned five days received a shalling each for their whole time, and the Jury who followed and sat a couple or hours received the same amount. This glaring de-

Jury who followed and sat a couple of hours received the same amount. This glaring defect should certainly be readed.

We are sure it is required of as (and will be gratifying not only to this community but to all wine attend the court from any part of the country, including the Gentienen of the first from distant parts of the Province) that we should notice in an especial manner, the dignified upright, mad and courteous conduct of the presiding Judge, the Hun Justice Parker. His patience of investigation has clear elemention of truths, his careful and cautious decisions and his clarges to the Juries evidently dictated by a desire that perfect just ce should be done have all conspired to raise him most highly in the certination and respect of this County, and the general expression is that when the law is the general expression is that when the law is so fairly administered even those who lose their case go away satisfied.

We observe that on the conclusion of Dr. GESNER's lectures on Geology in St. John, an address was presented to him expressive of the instruction and gratification derived by the gentlemen composing his day class, from his clear and interesting information on this opening branch of science. Dr. approbation and thinks of such a President. number of intelligent and influential individuals as these of St. John, who have signed the address -The Doctor's researches into the Geology of the Pr vincewill be shortly resumed and continued every day through the summer.

We observe that it has been thought adviseable for the Reverend and venerable Dr. Somerville of Fredericion to return to his native land, and that his brother the Rev Rector at Bathurst is to cecompany him. An address was presented to the latter by his congregation in Gloucester, regretting his departure and tendering him their kindest sentiments of regard.

At Whalley Church, has ween, Mr. Wm. What lay, a sh semsker was americal to Miss Jane Dew kinst. The landagoon is air feet in beight, and the seide out. there mens. The inter a thirty the write out therey metes. It years of age, and weighe 2d the.
