

The Weekly Monitor.

WEDNESDAY, FEBRUARY 21st, 1883.

Latest reports from the inundated districts in the Ohio Valley, indicate a slight improvement. But the condition of affairs is something appalling. In New Albany, Ind., the city's relief committee say 10,000 people are homeless, thousands of houses submerged and the suffering indescribable. The full extent of the losses by the flood it is impossible yet to estimate, but will reach into the millions. Fortunately the loss of life has been very slight in comparison with the magnitude of the flood and the danger that must necessarily have attended it. Relief contributions are rapidly and freely coming in from other portions of the Union, and are doing much to temporarily alleviate the distress. These floods parallel those that lately inundated portions of the low lying country of Europe along the line of the great rivers - Nova Scotia, even if it deserved the label of the Yankee neighbor who wrote to a Boston paper that our climate was nine months winter and three months blasted cold weather from Europe, and that the weather and the tremendous weather disturbances of the sweltering hot States of our Yankee neighbor.

A bill respecting the allowance for traveling expenses of Executive Councilors, passed the Local House on Friday last. The bill provides that members give an exact report of expenses incurred during travel on legislative business, and that they be allowed payment accordingly. The bill excited considerable discussion. The subject of the traveling fees of Executive Councilors has long been a handle for politicians, and with good cause it appears, judging by the returns which show the amounts paid to Councilors, although perfectly lawful, to be far in excess of the actual sum required. The late government made a slight reduction, but the present bill will make a very material difference. We think, however, the present pay of \$4 per day for attendance is too small a sum, and should be increased. A Councilor should at least be indemnified for loss sustained while transacting his public duties, and we think the members of the present Executive Council could fairly claim their time to be worth more than four dollars per day.

The correspondence and other papers in connection with the much-talked-of Syndicate, have been laid before Parliament. We have not been able to give them a thorough perusal, but from the evidence they afford there was evidently a disposition on the part of the Nova Scotia Railway Company not to fulfill the requirements of the contract. Negotiations are at present at a standstill, and as matters now stand there appears to be little chance of the Syndicate's collapse. While we sincerely regret that this scheme has resulted in the way it has, we cannot conscientiously blame the members of the Government. The correspondence shows, notwithstanding their known disavowal to the act, their desire to place no obstacles in the way of completing the work begun by their predecessors in power. The correspondence also, published in pamphlet form, but it is too voluminous a nature to reproduce in our column.

Imperial Parliament opened on the 15th inst. Her Majesty's speech spoke of affairs in Egypt, expressing gratitude for the return of tranquillity brought about by the sea and land forces, the clemency shown to conquered rulers, the withdrawal of troops and the reconstruction of the Government; of the Conference assembled in London to consider matters in reference to free navigation of the Danube; and concluded by reflecting on the condition of Zealand, and of Ireland, stating that papers and measures would be submitted to endeavor to maintain peace and order in both countries.

Black damp oozed the death of three miners in a coal mine in Macon, Cumberland, on Saturday last. One of the deceased lost his life in attempting to rescue others. Eight men went down the mine to work, and had not been for some time. The mine was filled with their number, the death of all would have resulted. All were prostrated with the deadly gas; but this one man, Dore, managed by a strong effort to crawl to the mouth of the shaft and give the alarm. When all were brought to the surface, two were found to be beyond resuscitation. One of the rescuing party became overpowered by the gas and his absence was not noticed until too late to save his life.

The Hon. Jas. S. Macdonald, member of the late Banking firm of Jas. S. Macdonald & Co., of Halifax, who, it will be remembered, fled the Province on the failure of his firm, returned and took his seat on the opening of the legislature. The Council have been debating whether he can by law hold his seat or not. He is exempted from arrest by his creditors under a Law which secures members of Parliament from arrest while Parliament is in session. The general opinion of press and people seems to be that the Hon. (?) involves should not be allowed to sit.

Blenkhorn Brothers, Canning, whose axe factory was destroyed by fire last November, are rapidly rebuilding. The new factory will be much larger than the old, and will be more thoroughly fitted up. The firm have hitherto been unable to supply the demand for their goods, but they hope next season with their increased facilities to double the last year's product.

Many of the valuable drawings intended for Picturesque Canada were destroyed by fire in New York a few days ago. This will interfere very much with the publication of this valuable work.

Shooting Accidents.

(From our Middleton correspondent.) A serious accident, which may yet result fatal, occurred at the residence of Mr. George Armstrong, Victoria, Va., on Friday, 9th inst. A little girl about ten years of age, daughter of Mr. William Neily of Wilmet Springs, was sent to Mr. Armstrong's on an errand, and while there Mr. Armstrong's six year old boy took from the cloak shelf a seven shooter, the chambers of which were supposed to be empty, and playfully snapped it at their dog but there was no discharge. He then cocked the weapon again and aiming it at the little girl snapped it a second time—the hammer falling upon the only loaded chamber in the revolver. The carriage exploded and the bullet entered the end of the nose, taking a downward course, and lodged, it is supposed, in the back part of the throat. The muzzle of the revolver was so close that the girl's face was severely burned and blackened by the powder. The bullet has not as yet been removed nor even exactly located, and the girl's condition is serious, though hopes of her recovery are entertained.

The accident took place during the company absence of Mr. and Mrs. Armstrong from the house, and it should be added that neither of them were aware that the revolver was loaded. It seems that a boy who formerly worked with them had procured cartridges and primed with it and carelessly left one chamber loaded and put the weapon back in its place.

Later—the little girl now seems to be quite well; and strange to say, she suffered no pain at the time of the accident, and scarcely any since from the effects of the wound. She was sitting when shot in a very low rocking chair and consequently the bullet had a downward tendency. If she had a downward tendency, it is possible she would have gone upwards into the brain.

The Methodist brethren of this place held a social in the basement of their meeting house on Wednesday, 14th inst. Quite a large number were present, and the affair was a success both socially and financially, about \$35 being realized.

The Baptist social at Belleisle on St. Valentine's evening, was very largely attended, and proved to be a grand success. A favorable evening and a most commodious house, kindly placed at the disposal of the people by Mr. Abner Neily, did much to bring about satisfactory results. The supper was a sumptuous one, and the fancy articles reflected much credit on the deft fingers which manufactured them. The proceeds amounted to \$73, which is to be appropriated in the way of making necessary repairs on the Wadeville Baptist chapel.

We learn that the pound social recently held at the residence of J. B. Reed, Esq., was also well patronized. The receipts of the evening, amounting to \$18, are devoted to the objects of the Ladies' Sewing Circle.

A similar entertainment was held on the evening of the 13th inst., and we understand that a very enjoyable time was spent in disposing of the good things prepared for the occasion. The proceeds of the evening, amounting to about \$17, were used in paying a small debt due on the new organ belonging to the Baptist church in that community.

We would call attention to the adv. of the Acadia S. S. Company's first India Branch. The well-known Commodore S. S. Delta has been placed on the line. She left London for Barbadoes and Demerara on the 17th inst., and will be at Annapolis about the 10th or 15th of March. From thence she will proceed to the West Indies, calling at Martinique, Barbadoes and Demerara, including Trinidad, if sufficient freight is offered for latter port. The rate of freight for potatoes in barrels to any of the above named ports from Annapolis, is only 50c per barrel and \$7 per ton measurement (40 cubic ft.) on hay. We are informed the Company expect to make arrangements with the W. & A. R. R. Company for through rates from all stations to the ports of call of their West India steamers. It is expected the passage from Annapolis to the West Indies will not exceed five days, so that our producers and dealers will have an opportunity of shipping potatoes to the islands with certainty of their arriving in good condition and making a good market. The Delta can accommodate eight or ten passengers and offers a good opportunity for invalids or any persons wishing to visit the islands. The passage will be \$5.00 out and \$5.00 home.

The Passage at Paradise on two evenings recently, was visited by the people of Clarence, who came with pleasant faces and kind words to dispense good cheer to their pastor and his wife, and left them happier and richer in many pounds of epico and useful articles.

A Trotting Match.

Thursday last opened beautifully fine and clear. Long before the expected contest was to take place teams from all parts of the country commenced to arrive, and by noon the town was filled with strangers. Only on rare occasions in this County will as large a crowd be seen as that which gathered on the banks and wharves of our river town last Thursday afternoon. The entries for the race were as follows:—Bonny Belle, br. m., owned by G. Blanchard, of Kentville, driven by L. Neary; Sammy, ch. g., owned by J. Cox, of Kentville, driven by—Rookwell; Bridgetown Charley, b. g., owned and driven by T. A. Foster, of this town; Nellie, b. m., owned and driven by John Hall, of Lawrencetown; Trotting Dick, br. g., owned by Aard More, of Bridgetown, driven two heats by owner, remaining three by F. Fitz Randolph, E. Ruggles' ch. g. Dan, and J. Bockler's ch. h. Fearnaught were entered but failed to start. The race was for three purses of \$40, \$25 and \$10 respectively; mile heats, beat three in five, and was won after a spirited contest by Foster's Bridgetown Charley, who took the three last heats, showing a marked gain at the close of every heat, Cox's Sammy and Hall's Nellie taking second and third money respectively. The first heat was won brilliantly by Cox's Sammy, who showed some distance in front of Bridgetown Charley and Bonny Belle following in close order, and crossing the line as named; Trotting Dick not going well this heat and came in last.

The second heat was won by Bonny Belle, followed closely by Bridgetown Charley, Sammy, Trotting Dick and Nellie.

In the third heat Bridgetown Charley took first place, followed by Bonny Belle, Sammy, Trotting Dick, Bonny Belle ran and gained in this heat and was set back to fifth place by the judges' rule. The fourth heat was a repetition of the third, save that Nellie took second position.

The fifth heat scored another victory for Bridgetown Charley, Trotting Dick following closely, coming in with a burst of speed that fairly redeemed his former positions. Nellie and Sammy followed. Bonny Belle was withdrawn this heat. Following is a summary of the heats.

Foster's g. Bridgetown Charley, 3.2.1.1.1. Cox's ch. g. Sammy, 1.3.2.2.2. Hall's m. Nellie, 2.2.3.2.2. Trotting Dick, 4.1.5.5.4. Blanchard's br. m. Bonny Belle, 4.1.5.5.4.

All interested in the race expressed satisfaction at the fair manner in which proceedings were conducted, and their willingness to engage in future contests.

The chestnut gelding "Sammy" is a very hard puller, but on this occasion was raged up with the "Harding chestnut," which accounts for his steadiness and disinclination to leave his feet.

During the morning a race took place between F. Fitz Randolph's g. Tom, and J. Bath's b. m. Fan, mile heats, beat three in five. Only three heats were trotted, the former horse winning all three easily.

It is worthy of note that notwithstanding the large crowd present good order characterized the whole afternoon's proceedings, and a single disturbance taking place until the close of the race, when several negroes congregated at the head of Queen Street, used such offensive and threatening language as to bring about a fracas between themselves and some young men among the whites, resulting in a severe beating for the former. The negroes were to blame, but their punishment should have been delegated to the proper authorities to be enforced in the legal way. Who are our magistrates on such occasions?

The Annapolis Royal Bank Band Carnival.

(From our own Correspondent.) The Masquerade Carnival which was held on Thursday evening, 15th inst., was of more than usual interest. Judging from the exhibition on the ice, exquisite taste and keen competition must have been the predominant feature in the arrangement and selection of the costumes.

The five dollar prize for the ladies' best original costume, was won by Miss Ada Woodbury, J. B. Mills, Esq., was the successful competitor for the four dollar prize for the gentlemen's best, and Miss Howarth for the bouquet of flowers—also being considered the most graceful lady skater on the ice. The prizes were presented by J. B. Mills, Esq., and Conductor Edwards; in each case suitable remarks accompanied the presentation.

The following is a list of the skaters in costume: LADIES. Mrs. M. B. Selzer—Union Jack. S. A. Hughes—Etsa's Maiden. L. Blincoe—Mills' Maid. Alex. Shearer—White-washed Fish Wife. J. B. Fred Gourley—Middomer. Daley—Sergeant of Artillery. C. J. Daley—Crown. S. Baker—Queen of Life. Geo. Lewis—Darkey Gal. Willie Baker—Chinaman.

Carnivals at Annapolis, are becoming quite popular and are being liberally patronized. The managers do not wish to be unkind to the young, and have decided to have a Grand Fancy Costume Carnival for children only, on Thursday evening, 22nd inst. Skaters admitted free, for all others, 15c. for adults, and 10c. for children.

A slight break in the weather occurred on Saturday last, caused by a warm southerly wind setting in, accompanied by a slight rain fall, and continuing until the following evening. The snow disappeared rapidly while the heat lasted.

Concert.—The amount of \$89 was taken at the concert given by Prof. N. H. Pinney and singing class of Paradise West, at Lawrencetown on the 13th inst.

The Halifax Mayflower has ceased to exist. Its proprietor, Mr. F. H. Baker, being insolvent and having fled the Province.
