**ON THE LABRADOR**

INTERESTING DESCRIPTION OF A SUMMER IN A LITTLE KNOWN LAND—SOME OF THE DOCTOR'S CASES—THE FISHERMEN AND SUNDAY

Dr. Alfreda Wainwright, of Pittsfield, Mass., who spent last summer on the Labrador as a volunteer worker, soon found that the season held full promise of employment. One morning early a day or two after my arrival, she writes, a knock came at my door just as light was breaking at 2.30. A telegram was handed me it was a startling event, for I hadn't realized that there was a telegraph line from Quebec, as far as the straits (completed later in the summer by wireless down as far as Indian Harbor). It read: "Crib-boy ill with meningitis, come tonight if possible." Signed, Nurse MacMahon. How was I to get down the Straits? I went right off in the Dart, the steam launch, for not yet being in commission for fish she could be used. The next day a man brought word that I was needed at Geesey Island; the origin was the usual signal for the doctor, but the fog had almost closed in a day or so that day. The Dart was again commissioned. Skipper Sam guided our little launch past icebergs, schooners, and shoals into port where a group of men on the landing stood wondering looking in the little house of Skipper Joe I held a clinic and found on my list, a broken rib, scurvy, indigestion, grippe, etc. The mumps became epidemic, scarlet fever, and whooping cough had swept down the coast in the winter and left their traces behind them and when a man came with "a hiving" at the heart beriberi was to be suspected.

I usually went here and there in a trap-skill manned with six or seven men; dropped on some island several miles off and going down to some other appointed place where the men after hauling their traps would pick me up, awaiting many a night on the rocks until the long twilight had disappeared, returning under a sky as flame with stars and once with the northern lights flashing, but more often in a fog so dense and black that one wondered how the men, with their constant "Halloo!" to keep off colliders could themselves avoid locking up against an iceberg or shoal, but they never did.

At Blanc Sablon there were a few spare blanks and there I put my patients whom I found needed more care than could be given them on the islands or schooners. One patient, the old man, as we called him, I took from a schooner which he and his boy Tommie had come up from Newfoundland. Each man was fishing for himself, with the father disabled the sustenance of the family devolved upon light-headed little Tommie. The day came when the old man's gangrenous finger needed amputation. The old man was terrified at the thought of ether, but was willing to do anything that seemed best. In the midst of our work we heard sobbing and there was Tommie sitting on a rock crying his heart out. The next day when he came ashore and saw his father apparently as well as ever, he was all sunshine but the shadow lay heavy again when the time came for the schooner to go north, for Tommie, the latest winner, must go with it, leaving his father with us.

The people were a really religious people. The law of Newfoundland forbids fishing on Sunday. By our recent treaty the Gloucester fishermen can fish within the three mile limit, but not even patriotism could lessen my indignation when one Sunday a Gloucester schooner came in a few miles below us and cast their nets. The coast people were aroused, and it was not until one man, who was dissuaded from firing upon them, said, "Christ died for me, why should I do anything to hurt a fellow creature?" I felt for him in protecting "His day."

"Parsons," as all clergymen are called, dropped in upon us occasionally. When no person was at hand on Sunday some one would read the service.

**NEAREST OVEN OF "FRUIT-A-TIVES" SAVED HIS LIFE**

Mr. Dingwall was Superintendent of St. Andrews Sunday School in Williams town for two years and License Commissioner for Clengary—and Tax Collector for Charlottetown—for fourteen years continuously. Read how strongly Mr. Dingwall comes out in favor of "Fruit-a-tives."

Williamstown, Ont., April 5th, 1907.

I have much pleasure in testifying to the almost marvellous benefit I have derived from taking "Fruit-a-tives." I was a life long sufferer from Chronic Constipation and the only medicine I ever secured to do me any real good was "Fruit-a-tives." This medicine cured me when everything else failed. Also, last spring, I had a severe attack of bladder trouble with kidney trouble, and "Fruit-a-tives" cured these complaints for me, when the physician attending me had practically given me up. I am now over eighty years of age and I can strongly recommend "Fruit-a-tives" for Chronic Constipation and Bladder and Kidney trouble. This medicine is mild like fruit, is easy to take, but most effective in action.

"Fruit-a-tives" — or "Fruit Liver Tablets" are sold by dealers at 50c a box — for \$2.00 — or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

and portions from Phillips Brooks' sermons. The fishermen and fishermen from the schooners would assemble in the loft of the store house where seats were improvised from planks and logs, and a little harmonium drawn up. Our organist was the proprietor of the sole remaining "Isle of Jersey" Room and music hall. What music he drew out of that little harmonium, and how well he played, his fine tones were appreciated more than by the people of the coast. With him as leader those assembled would sing hymns and after service he would sit until the long twilight set in and then sing while the others listened in absolute silence.

TEN GOOD REASONS.

Beaumont in the Morning Chronicle recommends the following to Mr. George Wright as worth a place in his scrap book:

1. Because it is such an elegant way of expressing one's thoughts.
2. Because it is such a conclusive proof of taste and good breeding.
3. Because it is such a sure way of making one's self agreeable to his friends.
4. Because it is a positive evidence of acquaintance with good literature.
5. Because it furnishes such a good example and training for boys, those of the mother enjoying her son do.
6. Because it is just what a man's mother enjoys having her son do.
7. Because it is such a help to mankind.
8. Because it is such a good way of increasing one's self respect.
9. Because it is such a help to virtue in many ways.
10. Because it is such an infallible way of improving one's chances in the hereafter.

OPEN!

Open the door of your heart, my friend! Heedless of class or creed, When you hear the cry of a brother's voice, The sob of a child in need, To the shining heaven that o'er you bends, You need no map or chart, But only the love the Master gave— Open the door of your heart.

He is a very small boy, but he has a very much smaller sister, a new baby, who arrived only a few weeks ago. The small boy was delighted. No one had been anything so interesting.

Could the baby see, could she hear, could she eat, did she have teeth, and why didn't she talk and walk? Those were a few of the questions asked. Answers not being altogether satisfactory, he began a personal investigation. He opened the baby's eyes when she was asleep to see where her eyes had gone to; he opened her mouth in search of teeth, and it was here that the family came to the rescue and the small boy was told that he could never visit his baby sister without clasping his hands closely behind him.

"He loves the baby so that he stands by the half hour just looking at her," said the proud mother of both youngsters to a visitor. "And he is so honorable that he never thinks of taking his hands from behind his back just come and see him now!" But as the two entered the nursery mamma gave a wild scream as she rushed for her baby.

There was the small boy, his hands clasped tightly behind his back to be sure, but the baby not having responded to his challenge to play he had taken her silence for consent and was bumping her head with her.

WHAT A COMMA DID.

Jim Warbler had no money. However he managed to reach Vancouver, and walking into the headquarters of the Canadian Pacific, said to the manager in charge.

"I am Jim Warbler, and I am an old friend of the general superintendent. Will you wire him and tell him I am here broke, and want transportation to Montreal?"

But came the reply: "Don't let Jim walk." He got the transportation, and arriving at Montreal, called at once to thank his friend.

"Well, well, Jim, is this really you?" Then, with a twinkle of the eye: "How under the heavens did you get here so soon if you were broke?"

"Why, thanks to your telegram, 'Don't let Jim walk,' of course I was at once furnished transportation, and here I am!"

"Confound those operators! It is strange they cannot get my messages through correctly."

"Didn't you telegraph 'Don't let Jim walk,' interrupted Warbler.

"Certainly not. My answer was: 'Don't let Jim walk.'"

PROF. H. A. HOWELL, OF HAVANA, CUBA, RECOMMENDS CHAMBERLAIN'S COUGH REMEDY.

"As long as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Howell's American School, Cuba. "On the night of Feb. 3rd our baby was taken sick with a very severe cold, the next day was worse and the following night was desperate. He could not lie down and it was necessary to have him in my arms every moment. Even then his breathing was difficult. I did not think he could live until morning. At last I thought of mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief, and now, three days later, he has fully recovered. Under the circumstances I could not hesitate a moment in recommending Chamberlain's Cough Remedy, and this only, saved the life of our dear little boy." For sale by W. W. WARREN, BRIDGETOWN, N. S. W. PREDICTIONS FOR MARCH.

The following is taken from Old Moore's Almanac for 1908:

"The aspect of the heavenly bodies in this month is not cheering, some of the great nations are plotting and planning for the overthrow of each other, and ere long the most terrible conflict on record will take place both on land and sea. Russia at this time will be in a very unsettled state, and the 'Czar' will have to be upon his guard for bloodthirsty and warlike attacks. A great many disasters at sea in this month, and a death will take place that will give much matter for the Press."

Not a Miracle But Medical Science

Dr. T. A. Sloan, Limited, Toronto, Ont.

"Some time ago I began to lose flesh and failed every day until I had to quit work. My physicians and all my friends said I had contracted consumption. I failed from 160 pounds down to 119. I was advised to go to the Rockies or to the coast. I went to both places under heavy expense. I continued to fail, and was advised by the doctors to come home as nothing more could be done for me. Hope seemed to have left me.

"I tried Psychine and since starting its use I have gained from 119 to 141 pounds. I have used \$10.00 worth of the medicine. I am a well man and I cannot say too much in praise of Psychine. The strongest recommendation would be weak in view of the fact that I believe it has saved my life. It is without doubt the best remedy for run-down conditions and weak lungs."

"I sincerely hope and trust that you will continue your good work of saving run-down people and consumptive from the grave. Wishing you and Psychine continued success, I remain, one of Psychine's best friends."
