The Regulations made under the authority of the Act came into force on September 1st, and provide that when dairy butter is put up in blocks, squares or prints and wrapped in parchment paper the paper shall he printed or branded with the words "Dairy Butter," in letters at least one-quarter inch square, in addition to any other wording that the buttermaker may desire to use. There is nothing in the Act or Reglations to prevent the use of the Department of Agriculture word "Separator" in addition to the words "Dairy Butter," but no such grade of butter as "Separator" is recognized by the law. The Butter Act of 1903 defined only two namely, "Dairy" and 'Creamery." The Dairy Industry Act of 1914 defines a third grade as 'Whey" butter.
