

## INDEX OF INVENTIONS.

Alarms, fog, N. S. Woodward.....	8499	Pumps, G. W. Low et al .....	\$558																																																																																												
Anchors, C. E. Marshall.....	8507	“ windmill, J. Hugill, Jr.....	\$484																																																																																												
“ cutheads, J. W. Dearman.....	8520	“ wooden, W. R. May.....	\$516																																																																																												
Bags, catches for, R. Hensley et al .....	8491	Rack, towel, R. & A. Soper.....	\$481																																																																																												
Bark rossing, S. R. Thompson.....	8483	Rakes, horse, A. Howell.....	\$587																																																																																												
Bath and tub, J. H. Jones.....	8565	“ “ A. H. DeLaney .....	\$583																																																																																												
Bearing, shaft, T. H. King.....	8512	“ “ T. Galloway et al.....	\$605																																																																																												
Beds, spring, P. Mudge.....	8540	Reaping machines, J. Pattison .....	\$573																																																																																												
Bells, stringing sleigh, F. Armstrong.....	8577	Refrigerators, J. A. Kunkel .....	\$504																																																																																												
Belting manufacture, A. Spadone.....	8551	Registers, ticket, B. C. Polo .....	\$519																																																																																												
Blind fixtures, T. H. Stanton.....	8569	Road scrapers, H. C. Robb.....	\$556																																																																																												
Boiler furnaces, M. A. Hunter et al.....	8584	Sash fasteners, S. Rush .....	\$554																																																																																												
“ steam, W. H. Wilson et al.....	8570	“ regulators, W. Thomson .....	\$544																																																																																												
Bolts, making king, W. Harris.....	8602	Saw handles, E. M. Boynton .....	\$571																																																																																												
Boots and shoes, C. W. Glidden .....	8518	“ mill carriages, H. Hiscock .....	\$566																																																																																												
Bread raising, H. Martin.....	8180	“ W. Firstbrook .....	\$513																																																																																												
Brushes, bridle, C. Boeckhi.....	8581	“ cross cut, S. Toles .....	\$606																																																																																												
Bug gatherer, potato, A. Gibson .....	8505	Sewing machines, L. Coté .....	\$506																																																																																												
Buggies, gear of, W. H. Morrison.....	8557	Shafts and poles, W. T. Cleveland .....	\$514																																																																																												
Burners, gas, F. D. Bliss.....	8545	Shovel handles, B. A. Higgins .....	\$525																																																																																												
“ “ G. P. Sheffield et al.....	8513	“ and tongs, G. W. Whelan .....	\$528																																																																																												
“ lamp, F. Holt et al.....	8547	Shutters, A. Bijur .....	\$502																																																																																												
Carriage holding, W. Potter .....	8541	Skates, roller, A. J. Peerless .....	\$561																																																																																												
Chair folding, E. S. Pratt.....	8503	Soda, chromates of, C. S. Gorman .....	\$488																																																																																												
Chromates of potash, C. S. Gorman .....	8488	Splints, felted, D. Ahl .....	\$510																																																																																												
Comb case, R. & A. Soper .....	8481	Springs, waggon, W. H. Haylock et al .....	\$539																																																																																												
Cultivators, M. Johnson et al .....	8383	Steam apparatus, J. H. Needles .....	\$548																																																																																												
Curtain fixtures, J. Nesbitt et al.....	8487	“ exhausts, G. S. Brainerd .....	8552																																																																																												
Die and swage, W. Harris .....	8602	Stone dressing, H. Shearer et al .....	\$586																																																																																												
Digging machines, T. C. Darby.....	8530	“ preserving, A. McLean et al .....	\$500																																																																																												
Door fastenings, J. G. Phillips .....	8542	Stove ovens, W. C. Davis .....	\$598																																																																																												
“ and gates, C. T. Sweet et al .....	8596	“ pipes, rivetting, T. Braiden .....	\$591																																																																																												
Dresses, cutting, E. A. Godkin .....	8521	Stoves E. & C. Gurney .....	8490																																																																																												
Ear mufflers, C. Greenwood .....	8533	“ J. W. Elliott .....	8504																																																																																												
Engine lubricators, W. Stafford.....	8524	“ coal oil, J. Baillif .....	8496																																																																																												
Files, paper, W. H. Waller .....	8592	“ cook, W. J. Copp .....	8562																																																																																												
“ saw, E. M. Boynton .....	8549	“ self-feeding, G. R. Prowse .....	\$462																																																																																												
Fifo escapes, C. & F. Fugazzi .....	8516	Stump elevators, A. Dunnabache et al .....	\$597																																																																																												
Fluids, decanting, A. Bernstein .....	8550	Sweepers, carpet, H. A. Gore et al .....	\$534																																																																																												
Furnaces, boiler, M. A. Hunter et al.....	8584	Tanks, oil, E. A. Smead .....	\$603																																																																																												
Gas apparatus, J. H. Needles .....	8518	Threshing machines, F. W. Glen .....	\$507																																																																																												
“ “ W. Smith .....	8572	Time counting wheels, J. I. Bogue .....	\$522																																																																																												
Gates and doors, C. T. Sweet et al .....	8596	Tombs, J. Chittock .....	\$539																																																																																												
Glass, looking, R. & A. Soper .....	8491	Tongs and shovels, G. W. Whelan .....	\$528																																																																																												
“ vessels, D. W. Norris .....	8580	Tub and bath, J. H. Jones .....	\$565																																																																																												
Grain reducing, S. Miles .....	8538	Valves, hydrant, F. B. Stephens et al .....	\$517																																																																																												
“ separators, J. Donnelly .....	8575	Vehicles, S. Gilzinger et al .....	\$576																																																																																												
“ “ T. C. Histed et al.....	8564	Vessels, glass, D. W. Norris .....	\$580																																																																																												
Handles for saws, E. M. Boynton .....	8571	Waggon, child's, F. X. Reno .....	\$574																																																																																												
“ shovel, B. A. Higgins .....	8525	Wash-boards, D. J. George .....	\$483																																																																																												
Harrows, rotary, W. T. Nicols .....	8531	Washing machine, E. S. Redfern et al .....	\$501																																																																																												
Harvesters, J. J. Dewey .....	8555	“ “ G. Buchanan .....	8526																																																																																												
Harvesting machines, W. Russell .....	8590	“ “ J. O. Beauverland .....	8493																																																																																												
Heel nailing, C. W. Glidden .....	8518	“ “ P. H. Cooney .....	\$604																																																																																												
Hinges, spring, J. Spruce .....	8553	“ “ T. Austin .....	8489																																																																																												
Holsts, J. Beatty .....	8529	Weather strips, D. O. Hink .....	\$568																																																																																												
Horse collar pins, L. & A. Dion .....	8515	Wells, liming, C. James .....	8527																																																																																												
“ “ shoes, H. B. Cornish et al .....	8563	Wheels, car, W. Wilmington .....	\$495																																																																																												
“ “ I. N. Lilly .....	8511	“ casting, “ .....	\$588																																																																																												
Ice scrapers, T. F. Goulette .....	8539	“ for counting time, J. I. Bogue .....	\$522																																																																																												
Jacks, carriage, T. Hazard .....	8589	“ Vehicle, T. H. King .....	\$486																																																																																												
King-bolts, making, W. Harris .....	8602	<hr/>				Lamp burners, E. H. Jenkins .....	8479	INDEX TO PATENTEES.		Lanterns, A. L. Baron, et al .....	8582	<hr/>				Lathes, tools for, J. DuBols et al .....	8491	Ahl, David, felted splints .....	\$510	Lubricators, J. T. Cody .....	8532	Almon, L. J., et al., boiler furnaces .....	\$581	“ engine, W. Stafford .....	8524	Anderson, A., et al., curtain fixtures .....	\$187	Meters and motors, H. B. Hayes .....	8537	“ D., et al., catches for bags .....	\$494	Millstone, conducting grain to, J. G. Kirby .....	8333	Armstrong, F., stringing sleigh bells .....	\$576	“ dressing, S. E. Griscom .....	8578	Arnold, C. R., door fastening .....	\$542	“ driving, A. Cunningham .....	8579	Austin, T., washing machines .....	\$489	Mining machines, F. M. Lechner et al .....	8492	Baillif, J., coal oil stoves .....	8496	Motors, steam, E. Baines .....	8509	Baines, E., steam motors .....	\$509	Musical instruments, A. R. Koerber .....	8595	Baron, A. L., et al., lanterns .....	\$582	Oil tanks, E. A. Smead .....	8603	Bawtinheimer, P. M., potato-diggers .....	\$498	Ores, treatment of, F. M. Lyte .....	8559	Beatty, J., hoists .....	\$529	Pen-holders, J. Reckendorf .....	8600	Beauverland, J. O., washing machines .....	\$493	Plaiting machines, J. G. Brown et al .....	8523	Benedict, A., et al., wagon springs .....	\$559	Planers, tools for, J. DuBols et al .....	8491	Bernstein, A., decanting fluids .....	\$550	Poles and shafts, W. T. Cleveland .....	8514	Beugler, E. F., et al., lathes and planers .....	\$191	“ sled, J. P. Lawson .....	8508	Bijur, A., shutters .....	\$502	Potash, chromates of, C. S. Gorman .....	8488	<hr/>				Potato diggers, P. M. Bawtinheimer .....	8498	<hr/>			
<hr/>																																																																																															
Lamp burners, E. H. Jenkins .....	8479	INDEX TO PATENTEES.																																																																																													
Lanterns, A. L. Baron, et al .....	8582	<hr/>				Lathes, tools for, J. DuBols et al .....	8491	Ahl, David, felted splints .....	\$510	Lubricators, J. T. Cody .....	8532	Almon, L. J., et al., boiler furnaces .....	\$581	“ engine, W. Stafford .....	8524	Anderson, A., et al., curtain fixtures .....	\$187	Meters and motors, H. B. Hayes .....	8537	“ D., et al., catches for bags .....	\$494	Millstone, conducting grain to, J. G. Kirby .....	8333	Armstrong, F., stringing sleigh bells .....	\$576	“ dressing, S. E. Griscom .....	8578	Arnold, C. R., door fastening .....	\$542	“ driving, A. Cunningham .....	8579	Austin, T., washing machines .....	\$489	Mining machines, F. M. Lechner et al .....	8492	Baillif, J., coal oil stoves .....	8496	Motors, steam, E. Baines .....	8509	Baines, E., steam motors .....	\$509	Musical instruments, A. R. Koerber .....	8595	Baron, A. L., et al., lanterns .....	\$582	Oil tanks, E. A. Smead .....	8603	Bawtinheimer, P. M., potato-diggers .....	\$498	Ores, treatment of, F. M. Lyte .....	8559	Beatty, J., hoists .....	\$529	Pen-holders, J. Reckendorf .....	8600	Beauverland, J. O., washing machines .....	\$493	Plaiting machines, J. G. Brown et al .....	8523	Benedict, A., et al., wagon springs .....	\$559	Planers, tools for, J. DuBols et al .....	8491	Bernstein, A., decanting fluids .....	\$550	Poles and shafts, W. T.
