

CHOLERA.

Horsford's Acid Phosphate.

BY the researches of Koch and others, it is found that the cholera bacilli require for their growth, a milk alkaline nutrient medium, and that acids are most useful to kill them.

Horsford's Acid Phosphate has been successfully employed by the Physicians in Europe and America, and possesses special advantages over other acids, because of its beneficial action upon the nerves and process of digestion, and its tonic and general strengthening effect upon the whole system.

Half a teaspoonful in half a tumbler of water, with sugar if desired, will make a palatable drink.

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Prepared under the direction of Prof. E. N. HORSFORD, by the

Rumford Chemical Works, Providence, R. I.

BEWARE OF SUBSTITUTES AND IMITATIONS.

New York Post-Graduate Medical School and Hospital.

ELEVENTH YEAR-SESSIONS OF 1892-93.

THE POST GRADUATE MEDICAL SCHOOL AND HOSPITAL is entering upon the eleventh year of its existence under more favorable conditions than ever before. Its classes have been larger than in any institution of its kind, and the Faculty has been enlarged in various directions. Instructors have been added in different departments, so that the size of the classes does not interfere with the personal examination of cases. The institution is in fact, a system of organized private instruction, a system which is now thoroughly appreciated by the profession of this country, as is shown by the fact that all the States, Territories, the neighbouring Dominion and the West India Islands are represented in the list of matriculates.

In calling the attention of the profession to the institution, the Faculty beg to say that there are more major operations performed in the Hospital connected with the school, than in any other institution of the kind in this country. Not a day passes but that an important operation in surgery and gynecology and ophthalmology is witnessed by the members of the class. In addition to the clinics at the school published on the schedule, matriculates in surgery and gynecology, can witness two or three operations every day in those branches in our own Hospital. An out-door midwifery department has been established, which will afford ample opportunity to those desiring special instruction in bedside obstetrics.

Every important Hospital and Dispensary in the city is open to the matriculates, through the Instructors and Professors of our schools that are attached to these Institutions.

FACULTY.

Diseases of the Eye and Ear.—D. B. St. John Roosa, M. D., LL.D., President of the Faculty: W. Oliver

Moore, M. D., Peter A. Callan, M. D., J. B. Emerson, M. D.

Diseases of the Nose and Throat.—Clarence C. Rice, M. D., O. B. Douglas, M. D., Charles H. Knight, M. D.

Veneral and Genito-Urinary Diseases.—L. Bolton Bangs, M. D.

Diseases of the Skin and Syphilis.—L. Duncan Bulkley, M. D.

Diseases of the Mind and Nervous System.—Professor Charles L. Dana, M. D., Graeme M. Hammond, M. D.

Pathology, Physical Diagnosis, Clinical Medicine, Therapeutics, and Medical Chemistry.—Andrew H. Smith, M. D.,

Wm. H. Porter, M. D., Stephen S. Burt, M. D., George B. Fowler, M. D., Farquhar Ferguson, M. D.,

Reynold W. Wiley, M. D., LL.D., J. West Roosevelt, M. D.

Surgery.—Lewis S. Pilcher, M. D., Seneca D. Powell, M. D., A. M. Phillips, M. D., Robert Abbe, M. D., Charles

B. Kelsey, M. D., J. E. Kelly, F.R.C.S., Daniel Lewis, M. D., Willy Meyer, M. D.

Diseases of Women.—Professors McEvers Emmet, M. D., Horace T. Hanks, M. D., Charles Carroll Lee, M. D.,

Lf. D., J. R. Nilsen, M. D., H. J. Boldt, M. D.

Obstetrics.—C. A. von Ramdohr, M. D., Henry J. Garrigues, M. D.

Diseases of Children.—Henry D. Chapin, M. D., J. H. Ripley, M. D., August Caillé, M. D.

Hygiene.—Edward Kershner, M. D., U. S. N.

Pharmacology.—Frederick Bagoe, Ph. B.

Electro-Therapeutics and Diseases of the Mind and Nervous System.—Wm. J. Morton, M. D.
