## VOMITING IN GESTATION AND DYSPEPSIA

I have used Messrs. Warner Co.'s Ingluvin with great success in several cases of Dyspepsia and Vomiting in Pregnancy. In one case of the latter which I was attending a few weeks back, Ingluvin speedily put a stop to the vomiting, which was of a very distressing nature, when other remedies had failed.

ROBERT ELLITHERON, M.R.C.S., Lancaster House, Peckham Rye, S.E.

Dr. F. W. Campbell, of Montreal, Canada, says that with INGLUVIN he cleared three out of four cases of VOMITING in PREGNANCY.

Dr. C. F. Clark, Brooklyn, N.Y., has used INGLUVIN very extensively in his daily practice for more than a year, and has fully tested it in many cases of VOMITING in PREGNANCY, DYSPEPSIA and SICK STOMACH, and with the best results.

Dr. Edward P. Abbe, New Bedford, Mass., mentions a case of vomiting caused by too free use of intoxicating liquors; INGLUVIN was administered in the usual way—the effect was wonderful, the patient had immediate relief.

A gentleman living in Toronto, Canada, gives his experience. He says: "I was suffering terribly from indigestion. I could eat nothing. Life was almost a burden to me. INGLUVIN was prescribed in five to ten-grain doses; the medicine was taken for about eight weeks. Result, a permanent cure.

In fact, were we to note all remarks of the profession and our experience in relation to this remedy, and report to you the cases in detail, we could fill a volume with expressions as to its great efficacy in the troubles for which it is recommended.

Yours respectfully,

Dispensed by all Druggists.

## CHOLERA INFANTUM.

TREATED WITH INGLUVIN.

The prevalence of Cholera Infantum, Cholera Morbus, and Diarrhoea, to a greater extent in the summer period, induces us to call the attention of the medical fraternity to the lately introduced remedy "INGLUVIN." It has been used in practice with very happy results for a considerable time. We find indigestion generally at the bottom of the bowel complaints, which INGLUVIN has almost instantly corrected alone or in combinations. It is given in the following formulas with great advantage:

### INFANT FORMULA.

R Ingluvin - - - gr. xii.

Sacch. Lac. - - - gr. x.

Misce et ft. cht. No. x.

Sig.—One every 4 hours.

R Aqua Calcis - - - f ʒ ij.

Spts. Lavand. Comp.

Syr. Rhei. Arom. - aa f ʒ

Tr. Opii. . - - - gtt. x.

Misce—Sig.—A teaspoonful every 2 to 4 hrs.

In inflammatory affections INGLUVIN is combined with Subnitrate of Bismuth, equal parts, and oleaginous mixtures with Oi. Terebinth, instead of Aqua Calcis. Should the evacuation be suddenly arrested, and Tympanitis supervene, follow with a dose of oil or magnesia, or injections. In many cases of sick headache and indigestion the most happy results follow from the combining of INGLUVIN with Pv. Nuc. Vomica, the one-twentieth to one-tenth grain.

DEAR SIR:—I duly received the sample of INGLUVIN you kindly forwarded me at my request. I am very much pleased to inform you that the results achieved by it are most satisfactory. I prescribed one powder, 15 grains, twice a day, in case of obstinate vomiting during pregnancy; after taking six powders the vomiting and nausea had quite ceased, and the patient can now take her ordinary food with relish. I thank you for the sample, and beg to state that you can make what use of this letter you please.

HOLLOWAY, ENGLAND, Dec. 29th, 1895.

I remain, yours faithfully,  
EUSTACE DEGRUTHER, L.R.C.P., L.R.C.S., etc.
