BADLY VENTILATED SCHOOLS AND CONTACT WITH DISEASE.

Paine's Celery Compound Cleanses the Blood and Keeps up Strength and Vitality.

## It Banishes Languor, Despondency and Irritability.

The majority of our public school teachers, male and female, have many dangers to face in a profession that is never overpaid.

At this moment hundreds of school teachers are invalids, or go about the performance of their duties in a half-dead way. Nervous troubles are prevalent amongst teachers; headache, dyspepsia, languor, irritability and despondency are common troubles, and make life are common troubles, and make life truly miserable.

The school teachers' friend and life-giver, Paine's Celery Compound, has done a wordrous work in the ranks of the afflicted ones. During the year 1894 scores of cases have come before our notice, of sick and suffering ones having been restored to new life, energy and activity through the use of nature's wonderful medicine.

Paine's Celery Compound has been a true blessing to every teacher who used it. The great medicine has done its work promptly and efficaciously. It always begins its operations at the great nerve centres; it cleanses and purifies the blood, and takes all impurities from the system; it strengthens every digestive organ, and builds up the entire system. Every school teacher in the land, male and female, should use Paine's Celery Compound if sound health and perfect bodily strength is desired.

Our Meat, Fish, Oysters, Saratoga Chips, Eggs, Doughnuts, Vegetables, etc.

Like most other people, our folks formerly used lard for all such purposes. When it disagreed with any of the family (which it often did) we said it was "too rich." We finally tried
