Let go or die. That's the alternative of the shipwrecked man with the money of the shipwrecked man with the money bags. If there was only some one to throw him a life preserver, he might save both life and money. Without help it is let go or die. A great many people have a like alternative before them. Business men come to a point where the doctor tells them that they must "let go or die." Probably he advised a sea voyage or mountain air. There's an obstinate cough that won't be shaken off. The lungs are weak and pershaken off. The lungs are weak and per-haps bleeding. There is emaciation and other symptoms of disease, which if un-skillfully or improperly treated terminate in consumption.

Thousands of men and women in a like condition have found complete healing by the use of Dr. Pierce's Golden Medical Discovery. It purifies the blood. It carries off from the system all refuse and poisonous matter. It gives the infected poisonous matter. It gives the infected organs the strength to throw off disease. "I was taken sick and felt so stupid I could hardly go about." writes Miss Mary Eskew, of Given, Jackson Co., W. Va. "I had smothering spells. I went to our best physicians and they doctored me all one summer. I kept growing worse and got so weak I could hardly go about. The two doctors I had said I had lung trouble. I had an awful cough, and one day my aunt told me of Dr. Pierce's Golden Medical Discovery. I sent and got a bottle of both kinds—the 'Golden Medical Discovery' and 'Favorite Prescription.' When I had taken that it helped me so much I sent and got more. I have taken of both medicines altogether, ten bottles. Now my lungs do not hurt me, and I don't have any cough. I am stout now and as well as ever in my life."

#### IN THE NICK OF TIME.

To the Editor of the Northwest \*REVIEW.

Sir,-Last Saturday, the 30th ult., the Indian School situate about two miles from Rat Portage had a narrow escape from destruction by fire.

The wind was very high when suddenly there rang through the house the cry of "Fire!" Rev. Father Lacasse, O.M.I., who happened to be here on a visit, immediately inquired where or five feet high rose from the the dry, snowless roof would have been ablaze. Father Lacasse promptly ordered the furnace doors closed to cut off the draft, seized one of the Dominion Fire Victorian Government, is the Extinguishers with which the school is supplied, and, running upstairs with the agility of a boy. he got up on a chair in the garret and, pulling out the stopper of a stovepipe hole in the chimney, directed the chemical into that opening. In a few seconds the blaze died down. It was not even necessary to use a second extinguisher, though several had been brought up and were ready for use. The shingles on the roof where the flames had licked them were then examined and were found blackened and scorched but not vet burning. Had the alarm not been given so soon, or had there been no one to act promptly and wisely as Father Lacasse did, the whole establishment would have been destroyed, as the high wind would soon have made the flames ungovernable
