Company/Product Information

Barber Glass Limited is a manufacturer of bevelled and edged glass and mirror for both the furniture and retail industries. With its computerized cutting tables, Barber can cut efficiently and exactly according to a customer's needs. The company carries glass in thickness from 2.0 mm to 19 mm and will work on pieces as small as 3" x 3".

Barber Glass is striving to become the leading supplier of glass and related products in Canada. Future growth of the company will be ensured by total customer satisfaction, the continued provision of premium quality products, high standards in service, and an innovative product line at fair market prices. Barber Glass believes in C.A.R.E.-Customers Are Really Everything.

CURRENT GEOGRAPHIC MARKETING ACTIVITIES

Barber currently exports to both the U.S.A. and the U.K. and hopes to expand to other European markets.
