MAHER'S HORSE EXCHANGE.

The horse market was considerably off color yesterday, and while consignments were numerous and of fine quality, trade was rather dull, the bidding being very drab. Local demand covered nearly all the business of the day. Prices retained their low trend, though they must come down considerably more in the country before the market will be really normal. A few representative buyers were: Out of town—Sher, Willows, New Liskeard; J. J. Mackie, Hamilton; J. C. Cook, Marshville; A. D'Aoust, Sturgeon Falls; McMillan, Bron, Qu'Appelle, Sask.; A. E. Hogie, Brimley; City buyers—City of Toronto, W. Harris & Co., Brown & Love, Lake Simcoe Ice Co., Dr. Black, V.S.; J. N. Main, J. H. J. M., J. M. Rennie, Jas. Pierce, Jno. Wilson, W. S. Grimshaw, Theo. White, P. Walte, P. A. Jackson, J. King, J. Peeler.

DEATH OF H. L. WATT.

At his late residence, 85 Wilcocks street, the death occurred yesterday afternoon of Mr. H. L. Watt, treasurer of the Canada Life Assurance Company. Mr. Watt had been in poor health for some time, and had lately returned from Asheville, N.C., where he had gone in hope of obtaining relief. Mr. Watt, who leaves a widow and two children, was a member of St. George's Anglican Church.

Mr. Watt was a barrister by profession, and joined the investment department of the Canada Life in 1897, having previously obtained valuable experience as to investments and securities with a well known legal firm. He rose rapidly in the service of the Canada Life, and nine years ago, upon the office of treasurer becoming vacant, he was appointed to it. Mr. Watt was recognized as an able financier whose ability and sound judgment made his services invaluable to his company. He was a director of the National Trust Company and a member of leading clubs.

MORTALITY OF INFANTS

Ontario Health Officer Will Attend Conference on the Subject.

The Ontario Government is embarking upon extensive investigations in the matter of sewage disposal and the protection of the fresh water supplies of the province from contamination due to careless or unskilled methods. With the fact in mind that every provincial municipality located near lakes or rivers is facing serious problems of this nature, Dr. J. W. S. McCullough, chief officer of health, will visit in the summer months several places in Great Britain and the continent to discover assistance in solving the difficulties which come before his department.

In view of the action taken by the provincial board, acting in conjunction with the International Joint Commission, to examine the boundary waters and discover the prevalence of pollution, a report will be forthcoming in November. The knowledge will then have been acquired by Dr. McCullough as the most practicable manner of dealing with the general situation. Legislation improved and amended at the recent session places within the jurisdiction of the board power to force installation of whatever water systems they consider best, and if a purification plant or a sewage treating plant is thought necessary the municipality concerned will be obliged to install it without appeal to the people. This obviates much of the trouble which has occurred in unwilling towns in the past.

Dr. McCullough will visit London first and go thence to Germany and France. He is expected to return during the week of July 1, and the trip will consume two months.

Before returning he will represent Ontario at an infant mortality congress in London, which draws delegates from all nations. The death rate of infants in the province is too high at the present time, and he hopes to bring home approved methods of checking it. The present death rate is 112 per 100, whereas that of South Australia and New Zealand is 77 per 1000. The congress occurs during the first week in August.

BRITISH MEMBERS TO COME TO CANADA

Empire Parliamentary Association Members to Sail on July 16.

LONDON, May 15.—(C.A.P.)—The committee of the empire parliamentary association, which a fortnight ago accepted an invitation from the Australian branch to send twenty members of the association to tour the commonwealth during the forthcoming recess, has definitely decided that the trip is to be made via Canada, and that New Zealand is also to receive a visit if time permits.

The secretary of the association said: "The party, which will be thoroughly representative of the house of lords and of the house of commons, will sail for Canada on Wednesday, July 16, and spend about a fortnight there. During their stay the dominion overnment, the party will spend about a month in Australia, returning to England about the middle of November."

LABOR OPPOSED TO AMBASSADOR PAGE

The London Trades Council Passes a Resolution of Protest Against Appointment.

LONDON, May 15.—(Can. Press.)—The London Trades Council, representing 50,000 trade unionists, passed a resolution tonight expressing respect to the appointment of Walter H. Page as American ambassador to Great Britain, on the ground that he is a bitter opponent of organized labor, and asking Sir Edward Grey, the British secretary of foreign affairs, to protest against receiving him.

A copy of the resolution has been sent to the president of the United States and Sir Edward Grey, and every trade and labor council in the kingdom has been invited to pass a similar resolution.

The London Trades Council took this action on a letter from the Allied Trades Council of Greater New York.

Transfer Sanctioned of Daly House and Duke of York Hotel.

Three big license deals, involving a total of \$155,000, were sanctioned by the license commissioners at their meeting yesterday afternoon. They are: The Daly House, G. A. Dalton, to O. J. Cardy, \$75,000; Duke of York Hotel, D. Symons, to H. H. Darby, \$45,000, and the ship license, at 255 Parliament street, W. J. Donley to F. J. Newton, \$35,000.

All the new men are competent hotelmen, and the board sanctioned the transactions without comment. Mr. Symons bought his license three years ago for \$23,000, and by the present sale has cleared \$22,000.

LOVE AND LIBERTY.

Love is not enough. There must be respect for one's personality. A most unbearable tyranny is sometimes exercised under cover of the sentiment "I would not say this, my dear, if I did not love you so."

There is a good deal of the autocrat in love, and a passionate affection can easily become an intolerant martinet. To insure permanent love two people must persistently allow each other to work out the peculiar individuality of each. We must love the beloved for what he is, and not for what we want him to be.

Of course, certain things render love impossible. One cannot love another who outrages one's sacred convictions, arouses disgust and offends decency. In such cases there is nothing to do but separate.

But I speak of less serious causes of difference, such as divergence of opinion and of taste, and of other similar idiosyncrasies of character.

There can be no abiding love without liberty, toleration, and the acceptance of personal traits. Nothing is more fatal to affection than to feel a sense of restraint in the presence of the one beloved. This inevitably grows into estrangement.—Dr. Frank Crane in Woman's World.

As I feel, humanity and justice descend behind me and millennium ascends the Hills of Dawn.

SAME OLD STORY WANT MORE PAY

So Deckhands on Corona Quit Work Yesterday—Matter Will Be Adjusted.

When the Corona sailed at 7.30 yesterday morning she left without her deck hands. They demanded more pay with which to enjoy themselves ashore this summer. Upon being refused they all quit, but two, and as freight is light at present the captain will not have much trouble in handling it.

One of the steamship officials stated to The World last night that he thought that the men would soon be back to work, as the difference between what they are getting and what they ask for is very small and the company would likely come to an agreement.

COUNT PROPOSES BUT IS REJECTED

Mrs. Ava Astor Refuses to Marry Young Hungarian Nobleman.

Special Cable to The World. LONDON, May 15.—(Copyright.)—It is reported that young Count George Festetics, a chamberlain of the Austro-Hungarian embassy in London, has proposed to Mrs. Ava Astor, and has been rejected. His devotion is evident to all who know the two. Mrs. Astor declared today that she has no intention of marrying again.

Mrs. Astor has never looked more attractive than she looks this season, nor has she ever appeared in better spirits. Whenever she goes to the opera the box she occupies is the center of attraction from the audience.

Count George Festetics is the eldest son of Prince Festetics in 1832. His mother is Lady Mary Hamilton, whose marriage to the Prince of Monaco was annulled in 1889.

The Festetics family is an old and distinguished one in the Hungarian nobility.
