

SUPPLY—TIMBER LIMITS—DISPOSAL OF
IN THE NORTHWEST—*Con.*

Sifton, Hon. Clifford—Con.

ment contrasted with Liberal administration—2596-97. Duty of government in disposition of timber lands—2598. Regulations of 1889 for disposal of timber—2599. No complaints about system of opening tenders—2600. Practice in conducting sales as established by late government was continued—2600-01. Sales of timber limits, 1891 to 1896—2602. Time given for putting in tenders—2603. Changes in regulations—2604-06. Misleading statements of opposition speakers as to values of limits—2607-08. Limits in Northwest have no speculative value—2608-09. Lumber business requires heavy investment of capital for plant—2610. Operators must have limits to supply their mills—2610. Increasing demand for lumber—2610. Comparison of pine obtained in the Northwest and Quebec—2610-11. Comparatively small area of limits disposed of—2611. Estimate of timber in the west—2612. Limits sold and unsold—2613. Forestry in the west—2613. System of fire guarding to protect forests—2614.

Staples, W. D. (Macdonald)—2691.

Big fellows getting all the timber—2691. The 'Big Four'—2691-92. Limits owned by member for Dauphin—2692. People of west want an investigation into Interior Department—2693.

Taylor, George (Leeds)—2664.

Responsibility of Prime Minister—2664. Appointment of Mr. Sifton as Minister of the Interior—2664-65. Documents re tenders for berth 1108—2666-2670. Fishy from start to finish—2670.

Turriff, J. G. (East Assiniboia)—2290.

All returns asked for brought down—2290. Ready to grant an investigation—2290. Report on value of limits—2292. Advertising sales of limits—2293. No profit in lumbering in Northwest—2293. Sales under Mackenzie administration 2294-95. Limits given away under Conservative administration—2296-97. Who got them—2291-2302. Orders in council passed—2303.

Ward, H. A. (Durham)—2652.

States his connection with a timber limit granted in 1883—2652-54. Was not a member of the House of Commons at the time—2653-54. Liberals were associated with him in that transaction—2654. Compares Conservative and Liberal administration of timber limits—2655.

SUPPLY—TIMBER LIMITS—DREDGING.

Remarks upon questions of timber limits and dredging—Mr. G. Taylor—7100.

SUPPLY — TIMBER LIMITS — DREDGING
—*Con.*

Taylor, Geo. (Leeds)—7100.

Refers to charges made against himself in connection with application for timber limits; never made an application for himself or anyone else—7101-02. Application for timber berth by John Gentles, of Kincardine; letters from John Tolmie—7102-4. Contracts for dredging in connection with Quebec harbour improvements extended—7104. Contract for drift bolts—7105. Work at Petit Rocher—7107.

SUPPLY—TRANSPORTATION.

Observations on transportation, on the motion to go into Supply—Hon. Geo. P. Graham—4420.

Graham, Hon. Geo. P. (Minister of Railways and Canals)—4420.

Staff of the department exceptionally efficient; enters on the subject of the canals—4420. Expenditure on Canals; figures giving an idea of the traffic through the canal—4421. The question of deepening the canals; reasons for keeping elevators under government control—4422. The deepening of the canals would give the Canadian route an advantage over the American—4423. To secure cheaper transportation must send grain through Welland Canal without transshipment—4424. Transportation the first object of a canal, but development of power desirable; a few details of the progress of the G. T. P.—4425-6. Gives details of the Yellowhead Pass—4427. Reads a statement on the Moncton-Winnipeg section—4428. The only lamentable incident the appalling calamity of the Quebec bridge—4429. The Railway Commission; statistics of work—4430. Reduction in rates consequent upon order of the commission—4431. Large portion of the population dependent on the great transportation companies; P.E.I. Railway—4432. The I.C.R. as a national undertaking or a national asset—4433. Tons per loaded car, passenger mileage, average receipts per passenger mile—4434. Gross earnings and expenditure; expenditure on capital account—4435. Effect of the financial stringency and heavy storms on the surplus; the character of the employees—4436. Number of employees; 63 per cent members of unions; cannot be meddled with by any political party—4437. The Provident Fund; good effect it has brought about—4458. The division of the employees into five classes—4439. The question of the definition of capital, as distinct from revenue or current expenditure—4440. Difference in the equipment of a road to-day to what it was ten years ago—4441. Comparison of cost per mile, the I.C.R. and other roads—4442. If we were to appoint a commission it would be a commission of one man—4443. The I.C.R. to-day as well
