

TOWNSHIP OF CHATHAM, April 29, 1872.

MESSRS. MACPHERSON, GLASGOW & Co., Fingal.

GENTLEMEN,—We, the undersigned, having had our threshing done last fall by L. H. Arnold, with one of your "Climax" Threshing Machines, have the satisfaction to state that he did the work more expeditiously and with less waste than any one we ever before employed, though the grain was not in the best condition, owing to the continued rains during the harvest season. We are satisfied that your machines are all you claim for them.

JOHN A. HARDY.
JOSEPH FRENCH.

COOKSTOWN, Jan 19, 1872.

MESSRS. MACPHERSON, GLASGOW & Co., Fingal.

GENTLEMEN,—This is to certify that I have used the Double Cylinder Threshing Machine last season and part of this, and I am highly pleased with its work. It is a strong, substantial and well-finished machine. It threshes fast, cleans well, and separates the grain from the straw better than any other machine I ever saw work. Farmers would actually gain in getting their threshing done by your machine at the usual charge, than by other machines if they did it for nothing. I heartily accord the merits you claim for it, and recommend it to all intending purchasers.

Yours truly,
JAMES KIDD.

COOKSTOWN, Co. SIMCOE, JAN. 24, 1872.

TO WHOM IT MAY CONCERN.

We hereby certify that we had our threshing done last season with the justly celebrated Climax Double Cylinder Threshing Machine. We were well pleased with its work. It threshes fast, and wastes no grain. We hesitate not in saying that it is superior to any machine we ever saw. We would say to threshers buy no other, and to farmers, if you wish to save your grain from being put on the straw-stack, employ no other.

WILLIAM WATSON.
JOHN SUTHERLAND.
DANIEL R. ROSS.

TO THE EDITOR OF THE NEW ERA, Clinton :

SIR,—There has been a great deal of talk about different kinds of machines this last fall. So it will not be a crime if I give my opinion also. I noticed a letter in the *Globe*, written by an "Old Countryman," who appeared to be disgusted with our Canadian threshing machines, on account of the belt flying off, and other delays too numerous to mention. But I think if the Old Countryman could get one of the Clinton machines to thresh for him, he would soon forget about the short runs of "twenty minutes," etc. I have run one of them for five years in
