Tuesday Evening, June 27.
Trading in the mining stocks quieted down to a moderate extent to-day, the markets showing the usual effect of a protracted upward movement, and mices displaying a tendency to day. An Active Market prices displaying a tendency to drag put in an appearance.

There was undobutedly considerable tive Poroupine market in a few days," said a Montreal broker, who had been up north, in New York, and in Toprofit-taking under way in to-day's market, speculators who had got in beronto, looking the situation over. fore the advance taking advantage of

the higher prices to realize on their holdings.
The underlying strength of the sit nation was amply shown in the man-ner in which the market held up the realizing which was extant. The result of the transactions for the ses-sion was a number of losses in the aceive issues, but it was noteworthy that in no instances were the low points of the day maintained for any

Such stocks as Swastika and Vipond suffered most in the liquidation. The former issue sold off five points at one period, the shares retreating to 63. A recovery of three points followed the break, however, supporting orders putting in an appearance. Vipond was off to 61, a drop of five points, but nearly half of the loss was regained before

the close.

The other cheaper Porcupines held nerally around yesterday's levels, th prices moving in a narrow range, and no distinct trend observable and no distinct trend observable. Eldorado, the new gold stock listed to-day, was given a flattering reception, the shares selling up to 18, and closing strong at that quotation bid. The stock was put out at 10 cents per ghare, and sold yesterday on the street at 13 1-2 and 15, so that to-day's advance amounted to three points.

The big Porcupines were under pressure, with Hollinger showing the greatest effect of the selling. These shares were back to \$15.03, the lowest price reached in some days.

Cobalts continued to display an extremely apathetic tendency, and there was nothing doing in this section of the list which could be taken as in-Eldorado, the new gold stock listed to-day, was given a flattering reception,

to sag. The movement, however, was Arex taken as only a natural one after the Car Cru taken as only a natural one after recent advance; and will not come Beaver

Shot drills are being installed by the American Goldfields for proving all three of their properties.

And by the end of this week it is expected that shipments will have practically ceased from the fruit belt. Nigara shippers view with dismay the smallness of the net returns from the berry crop, and Oakville fruit growers can count their loss by the hundreds of dollars.

The fall of rain in every part of the province was disappointing. minent engineer from Buffalo, for proving all three of their properties

over the world as a big mining field."

remarked Prof. Hardings to The World Mr. Hardinge has just returned from Cobalt and a few weeks ago spent some

time in Porcupine. Asked as to Porcupine the professor said: "There will be a Nipissing, a La disappointments. Porcupine is not going to be the only gold camp. I expect to see several, and in fact others are already in sight."

Says This Montrealer GOLDEN CITY TO HAVE

New Porcupine Exchange to Be Opened on July 15-Extensive Preparations Made.

PORCUPINE CITY, June 24.—(From Our Man Up North.)—The Porcupine Stock Exchange, promoted by Messrs. Ames and others, it is announced, will open up in the King Amusement Building in Golden City on July 15.

One hundred scats have been provided and every seat, it is announced, has been sold.

For the present, until the new undertaking has been well out, the T. & N. O. wires will be used at this end of the line. Later on, if the management so decide, private wires may be put PORCUPINE, Ont., June 27.—(Special.)
—Heavy rain, followed by cold north wind; postoffice inspector is in here investigating all discrepancies in the mail service; Foley-O'Brien find proves more important as work proceeds; Hollinger is running compressor plant; Pearl Lake road building to be taken charge of by government; find in Price Township has caused rush to that district.

Chas. Fox.

so decide, private wires may be put in independent of the T. & N. O.

Playfair, Martens' cable quotes Porcupines in London at the closing of the market as follows: line:

Extensive preparations are being made for the opening and Manager Ames is now on the ground directing all operations. Stenographers are busy sending out letters to brokers and others on the outside who may nave business with the exchange, announcing the plans and the date of opening.

The letters advise the public that on and after July 10 railway accommodations will be very good in from Kelso, and that those intending to make a trip into the district should plan to start on or about that time.

The Forcupine camp has plenty of good hotel accommodations for those who expect to pay the district a visit.

Traveling accommodations in from Kelso are fairly good now, but within two weeks more should be very comfortable indeed.

Chas. Fox.

Something of the Situation of

Labor and Living Up in

Labor and Living Up in

the Porcupine.

PORCUPINE CITY. June 23.—(From Our Man Up North.)—One could drop a thousand people into the Porcupine to the working district and so great is the working district and so great is the area that attracts.

For these reasons principally the towns to a visitor present a deserted appearance, something quite foreign to a mining camp. At first glance, unless it is known that there are several townsites where business is done, 1,500

Labor and Living Up in and clear roads for the accommodation of those who travel to the reaccommodation of those who travel to the river from the Campell veteran route.

"We figure," said ME. Way to The World, that the big excitement in this country now wild be to the west out near the Mattagami River, where drainage is first-class and water for home use is plentiful. We shall not low out a townsite for the present as merely what we believe to be a good business deal."

We shall not low out a townsite for the present as merely what we believe to be a good business deal."

Shall the campell veteran route.

"We figure, said ME. Way to The World and Excitement in this country now wild be to the west out near the Mattaga

eral townsites where business is done, there would appear to be but few persons in the camp.

An important factor is the low wages paid in general. At West Dome. where a western mine manager is in

where a western mine manager is in charge, the western scale for skilled men is paid. Machine men get \$4 a day, while helpers get \$3.50. Common labor is also paid \$2.50 a day.

At the Dome Mines, just across the border, the high scale drops, and many foreigners are engaged at a much of smaller scale.

3.500 does not mean that the average man who is working for a living in Porcupine possesses any more wealth than the ordinary laborer down the country.

1.000 Every dollar spent in Porcupine so far was brought in here without production so far being returned for it, as 13.201 the camp is yet in a prospective stage.

Not till mines are working and shipping will the conditions change.

There is one condition along the traifs here from Kelso into Porcupine that every man has a right to com-There is one condition along the 1,000 trails here from Kelso into Porcupine that every man has a right to complain of most soundly. Petty stealing seems to be above the average in Porcupine, and to those who have spent some time in foreign camps. This condition appeals to them in a new light. Prospectors who frame up a cache on which they expect to draw later find some hanger-on has helped himself to the whole blooming outfit. This week two prospectors were obliged to walk twenty miles into camp without food as a result of thievery. Summary punishment in other mining camps was the rule. Here the law forbids it.

Mine, managers have been pestered to an alarming degree with thieves along the Kelso route. No shipment of goods ever comes in intact. Some one opens the packages and helps himself. His conscience apparently, stretches very easily. Chas. Fox.

White Quartz, Carrying Native Gold, at Percupine Eastern Mine, Near Night Hawk Lake,

PORCUPINE CITY, June 23.—(From Our Man Up North.)—Workmen employed in sinking a shaft and doing surface prospecting on the Porcupine Eastern Mines, Limited, Alfred G. Minter, president, in the northwestern part of the Township of Thomas, came in to-day with the news that free gold in white quartz had been encountered at the 28-foot depth. Sprinkles of the free metal show freely in the quartz. Mr. Minter is especially well pleased with the showing for it was his opinion from the beginning that the blue, sparsely-colored quartz with depth would change to the healthy, strong color which attains at the 30-foot depth.

depth.

The Porcupine Western Mines, Limited, hold two claims in Thomas, about one mile to the east of the eastern shores of Night Hawk Lake, where the strike of the formation is from northeast to southwest in schist and granite.

granite.

Before locating in this section Mr.
Minter, who was formerly the owner
of the Old Mother Lode mine in Callfornia, studied out the rock and the
strike of the formation relative to the
lake belt. He is satisfied that the
lake belts show the line of weakness.
An extensive mineralized zone cut
thru both ways around Night Hawk
Lake.

TOWNSITES GALORE UP IN THE PORCUPINE DAILY QUOTATIONS

Another One Bought Up by Haileybury Concern - Not to Be Laid Out at Present.

PORCUPINE CITY, June 23.—(From Our Man Up North.)—A Haileybury syndicate, headed by Arthur E. Way. an early Porcupine pioneer, purchased this week the 240 acres which lie to the west of the Campbell veteran lot where the Timmins-McMartin syndicate are now cleaning and clearing with the intention of making a townsite to the west of Gillies and Miller lakes

The price paid for the surface rights by the Haileybury concern was \$6300. The mining rights belong to others who undoubtedly will later make tests for ore.

The recently acquired holdings will not be developed by the syndicate until some time later on except to cut

Encouraging news for those interested in the Beaver Consolidated Mine came from Cobalt last night in the following despatch, which President F. C. Culver received from Superintendent Hewitt:

"In blasting the last round in the 414, with heading, we ran into a nice showing of niccolite and smaltite. The yein is about two inches in width and looks very promising." labor is also paid \$2.50 a day.

At the Dome Mines, just across the border, the high scale drops, and many foreigners are engaged at a much smaller scale.

No mine in the district pays more than \$2.50 a day for ordinary work, with 75 cents a day taken off for board.

With high prices for everything in the merchandise line this means primarily hard times for the merchant. When labor earns small wages, merchants must necessarily sell less goods, if they are not in a position to reduce the price to the consumer, and that time will not come till there is a way to get cheap freights.

about two inches in width and looks very promising."

This new strike is in the No. 14 vein, on the Beaver property, and lies 250 feet east of the Grown as No. 5.

One of the Bonanza, better known as No. 5.

One of the Jona Last verifies and lies 250 feet east of the directors of the company said to The Beaver property, and lies 250 feet east of the Grown as No. 5.

One of the Jona Last verifies do not lie in one section of our property for a short time, and now that we have struck ore it shows that the last strik

way for get cheap freights.

Because gold is found here in abunance in places, and many have sold chalms at reported fabulous prices, does not mean that the average man who is working for a living in Porcu-

Brantford Puts It Up to Cataract Co. to Beat Hydro Rates.

BRANTFORD, June 27 .- (Special.)-

The London Life Insurance Co. sued Province Gets a Share.

A cheque for \$3763.33 has been received at the succession duties office, as percentage on the estate of the late E. J. B. Pense, ex-M.L.A. for Frontenac. The net estate is valued at \$123,000, devolving largely on his widow and children. Mr. Pense died on May 7, 1910.

The London Life Insurance Co. sued John K. Campbell of 224 Riverdale-avenue in the division court yesterday. They wanted \$14, the cost of doctor's and inspector's fees, and the agent's commission. The defence in turn wanted the policy canceled. Judge Morson satisfied both, canceling the policy involved and giving judgment for \$17 instead of the \$14.
