

SIMPSON'S STAFF OUT FOR RECORD

Has Entered Into Victory
Loan Campaign in
Dead Earnest.

A FEATURE EVERY DAY
Objective Reached and Passed
and a New One
Set Up.

No staff of employees in Canada has entered into the great national effort to make this Victory Loan campaign a tremendous success more heartily than the 5,500 Toronto employees of The Robert Simpson Company, Limited. From the president to the youngest junior, since the opening whistles blew, every member has worked and subscribed to the limit, with the result that the original objective, set high at the start, of \$250,000 was reached at the close of the second day. This was not enough then for such an organization that was just commencing to enjoy the pleasure of participating in such a stupendous undertaking, and on Wednesday, at the wish of all, the objective was raised to \$439,000, or \$1,000 for every employee who has joined the expeditionary force.

Last night when the store closed there was no thought of dinner in the minds of the majority of the employees, who gathered on the main floor, as usual, to hear the results of the day's work. And the wonderful total of \$439,000 was read off.

"I never saw such a marvelous enthusiasm and such wonderful spirit of co-operation and good fellowship as permeates the whole organization," said John A. Torg, who spoke to the employees last night. Rev. Capt. Cameron told them a bit of his experience among the men at the front.

Starting with the president, H. H. Fudger, as honorary captain the store teams have been captained by C. L. Burton, merchandise manager, with ten lieutenants: "The Beaver" team: S. H. Ochs, "The Princess" team: W. R. Currie, "The Blue Devils": C. E. Linstrum, "The British Lions": W. D. Robertson, "The Highlanders": R. W. O'Neill, "The Victors": J. T. Ross, "The Butchers": A. E. Anderson, "The Black Watch": Miss W. Coe, "Over the Top": Miss M. L. Bollett, "The Witches."

The mail order and service building together with the factories was captained by H. E. Burnett, general manager of the mail order department, with six lieutenants: S. W. Hart, "The Eagles": W. A. Wise, "The Maple Leaf": H. S. Bond, "The Allies": A. R. Mackie, "The Bull Dogs": P. Hornbeck, "The Despatchers": J. W. Keene, "The Factories."

Each day has been opened with some novel and attractive feature designed to focus attention on the Victory Loan, the advantage of subscribing early and as large an amount as possible. Monday night, "The Despatchers" carried off the prize, several hundred strong, paraded from floor to floor thru the store. Tuesday the "Highlanders" true to name, held a morning and afternoon parade in costume preceded by the bagpipes with Highland music. Wednesday the "Princesses" held an inspiring song service in which every employee joined into the store sang with the patriotic songs. Thursday the "Over the Top" marched in the costumes of the various allies, preceded by special music. At the mail order building were not behind and gave over a whole evening from closing time to a special concert and dress parade. One of the direct results of this was the subscription of over \$15,000 during the course of the program.

The Robert Simpson Company employees are now the possessors of the honor flag as they have subscribed 11.2 per cent. of the payroll and 85 per cent. of their employees have taken out bonds. This is the highest general record for any firm in Toronto.

NEW STREET CAR LINE FOR NORTH ROSEDALE

Domion Government, in Return
for City's War Efforts,
Will Pay Cost.

Rather than delay matters, and partly as a return for Toronto's war effort, the Dominion Government will itself undertake to assume the cost of constructing a bridge at an estimated cost of about \$200,000, also a driveway 211 street car line from Yonge street to North Rosedale, thus furnishing the necessary transportation for a military population of about 5,000 people who will occupy the new Rosedale hospital, formerly St. Andrew's College, and the demobilization station now rapidly being built on the heights overlooking Rosedale.

It was represented to the government by Mayor Church that the city's finance commissioner and the council had gone on record as being opposed, as a matter of policy, to making any more expenditure on capital account until after the war, and in view of this, together with the big grants voluntarily made for war work by the city, the government has prepared its own plan for the new entrance to Rosedale and will pay the cost. The land damages in connection with the undertaking will be comparatively nothing, as most of the property which the new thoroughfare will run is already owned by the government.

Hon. Frank Carroll, minister of public works, will be for the plan, the part of the week, and Mayor Church said last night that the details of the plan would then be considered.

With the hospital receiving patients on Monday or Tuesday, and the demobilization centre completed by the first of the year, a street car service is imperative for the city, and the government realizes, and to this end the work will be rushed.

Manager Fleming of the Toronto Railway Company has promised his co-operation in expediting the work and to supply a service immediately upon its completion.

931 College St.

Broadview Branch
275 Broadview Ave.

YORK COUNTY AND SUBURBS

TRACKS ARE CONNECTED
AT HEAD OF BROADVIEW

The Broadview street car tracks were connected yesterday with the new intersection at the head of that street on Danforth avenue, and the Broadview cars y-ed over it for the first time and will regularly go so hereafter. It will take a couple of days to bed in and pave the three curves that connect the two lines. The intersection is already completed in its parts that show of the new line across the Bloor viaduct to also "y" at this point. So cars across the new bridge and along Bloor street could start at this end tomorrow, or a Broadview car could turn into Danforth street and go west to the head of Parliament street.

West of Parliament street the tracks have yet to be laid and the girders carried across Glen road and the tracks put down over to Sherbourne street.

The Sherbourne street intersection is all joined up and partly bedded in. But it will take a week to dry it out and cement in the granite sets before the new Broadview intersection. But everything now points to a street car service in a fortnight.

INFLUENZA ABATING
THRUOUT THE COUNTY

Reports from many points in the county indicate that the influenza epidemic is rapidly abating, few districts recording any new cases. At Newmarket there have been no deaths in two days, and the same is said to be true of Aurora.

In Markham there have been no deaths recently and Unionville is practically free of the disease, while at Agincourt last night it was said the outlook was brighter than at any previous time, practically no new cases. In Newmarket since the beginning of the epidemic there were 12 deaths, while some of the schools in the county have been closed, others have kept open all the time.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back Hurts or Bladder
Bothers You, Drink Lots
of Water.

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacy the potent four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will get into the habit of filtering the blood from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys, to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

MISS KATHLEEN HERBERT

Miss Kathleen Herbert who collected \$50,000 for the Liberty Loan in New York, is working on the Victory Loan in Toronto. This young woman who is but sixteen years of age, has already collected \$22,000 by going thru the factories and in other ways, and has set \$250,000 as her objective.

MOTOR CAR THIEVES RESCUED BY FRIENDS

Freed From Custody of Air
Mechanics at the Point of
a Revolver.

Shortly after eleven o'clock last night a military motor car was stolen from the Long Branch Aviation Camp by two young men about 24 or 25 years old. The authorities at the camp immediately despatched two motor mechanics, in another car, to chase the thieves and recover the stolen machine. After racing along the Lake Shore road and thru the city streets the stolen car was overtaken at the corner of Esplanade and Argyle streets. The motor mechanics jumped into the stolen car and grabbed the two youths in it. Then they called to a citizen walking along the street to phone for the police. In the meantime a gang of young fellows, friends evidently of the two who had stolen the car, surrounded the mechanics and their prisoners. One pulled a revolver and pointing it at the air mechanics, compelled them to release the two prisoners. By this time the police had arrived and the gang had disappeared.

The two cars stolen on Thursday night, from one of which Constable May was shot at Sunday, were recovered by the police last night in a lane off Grace street, badly damaged. Eight motor cars were stolen in Toronto yesterday.

CONTRACTORS AHEAD OF THEIR SCHEDULE

New Rosedale Hospital Will Be
Completed Sooner Than
Was Expected.

If any doubts existed as to the completion of the new St. Andrew's Military Hospital, Rosedale, they must have been dissipated within the last two weeks by the splendid progress made by the contractors engaged in the work. When a reporter for The World visited the grounds last night just before quitting time the place was a hive of industry. On Oct. 1 the contract for the erection of the new barracks was let to the Messrs. Ross Contracting Co. of Ottawa, with a time limit of 90 days, and in less than half that time the barracks will, it is said, all finished and ready for occupation. In all there are 24 buildings, comprising eight barracks, 2000 men, 41 by 232 feet in length, two-story, and capable of accommodating 2500 men.

In addition there are three kitchens, 261 by 46 feet, and next Monday the extension, extending over all kinds of finished material. From daylight till dark, the whole district resounds with the buzz of the sawmill.

Yesterday 275 men were at work, and the payroll amounts to over \$40,000 a month. A feature of the big convalescent camp is the spacious veranda, which runs along the entire front of all the barracks buildings and commanding a splendid view of the city and lake. Every sanitation device known to modern science will be employed in the new camp.

The big contract is under the direct supervision of Mr. Meagher and Mr. Ross, the members of the firm, and that they should be weeks ahead of the time stipulated in the contract is gratifying.

THE AFTER EFFECTS OF DREADED LA GRIFFE

Worse Than the Disease Itself—
Victims Left Weak, Nervous
and Worn Out.

La Grippe, or Spanish influenza as the scientists are sweeping over all America is called, is one of the most dangerous diseases known to mankind. Anyone who has felt its pangs is not likely to forget the trouble. La Grippe, or influenza, starts with a slight cold and ends with a complication of trouble. It lays the victim on his back, it tortures him with fevers and chills, headaches and backache. It leaves him a prey to pneumonia, bronchitis, and other deadly diseases. Its after effects are often more serious than the disease itself. It is quite possible to avoid its grip by keeping the blood rich and red by the use of Dr. Williams' Pink Pills—a tonic medicine which enriches the blood and strengthens the nerves. If, however, the disease attacks you, the patient should at once go to bed, and call a doctor before complications set in. That is the only safe thing to do. But to recover your strength after the severity of the attack has passed, you will find Dr. Williams' Pink Pills an unsurpassed tonic. Through the use of this medicine all the evil after effects of this trouble will be banished. This has been proved in thousands of cases throughout Canada, where in previous seasons la grippe has attacked them. Among the many thus restored to full health is Miss Irene Boone, Portsmouth, Ont., who says: "I take much pleasure in recommending Dr. Williams' Pink Pills, because I have proved their worth in my own case. Last winter I had a severe attack of la grippe and it left me weak and all run down. I had severe pains in the chest and under the arms, palpitation of the heart and attacks of neuralgia which left me with the feeling that life was scarcely worth living. I was advised to try Dr. Williams' Pink Pills and began their use on the principle that I would try anything that might better my condition. I had only been using them a couple of weeks when my pains began to leave me. Gradually my strength returned, my appetite improved, and in a little while I was as well as I was before. I am now a healthy woman, and I am sincerely glad I was persuaded to try Dr. Williams' Pink Pills and I shall always have a good word to say for them."

Dr. Williams' Pink Pills not only cure the disastrous after effects of la grippe, but are also a specific for all troubles due to poor blood, such as anemia, rheumatism, indigestion, nervousness, and all the generally worn out feeling that affects so many people. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

CANTEN AT LEASIDE THOROLY UP-TO-DATE

The R. A. F. canteen at Leaside is a thoroughly up-to-date institution, a place where the men of the R. A. F. are supplied to the men at a very moderate cost, and light refreshments, tobacco, cigarettes, candies and other luxuries can be had at all times. The canteen, which occupies the ground floor of the barracks, is well lighted and heated and caters to upwards of 150 daily. Besides the food and drink, there are amusements of all kinds, including billiard and pool tables and games of all kinds and sing songs are given every Tuesday and Thursday evenings at a most charming feature almost every evening with an attendance of between 500 and 400 men. Moving picture entertainments are given every Tuesday and Thursday evenings at a most charming feature almost every evening with an attendance of between 500 and 400 men.

SUNDAY SALE OF GASOLINE Stopped Except to Doctors

Sale of gasoline on Sunday except to medical men and physicians is prohibited, according to a recent order-in-council. While no complaint was made in this regard by the retailers, W. C. Miller, secretary of the Retail Merchants' Association pointed out last night that exception is taken to the limit of 10 per cent. increase over the wholesale price which dealers can charge. Inasmuch as the average garage costs 18 to 20 per cent to operate, gasoline must be sold at a loss, according to the law.

NEW APARTMENT HOUSE.

Another new apartment house has been started at the south corner of Oakwood avenue and St. Clair avenue west, Earlscourt, making the fifth to be erected within the past few months.

TOWNSHIP REQUIRES A COTTAGE HOSPITAL

The need of a cottage hospital for Earlscourt has been demonstrated every day since the outbreak of Spanish influenza, and more especially so in the township, the city contending that it has enough patients on its hands to care for without township cases. The township has been asked to provide a cottage hospital, but with the lack of increasing number of families who have been stricken with this "flu," I am more than ever convinced that the township should have a cottage hospital.

La Grippe, or Spanish influenza as the scientists are sweeping over all America is called, is one of the most dangerous diseases known to mankind. Anyone who has felt its pangs is not likely to forget the trouble. La Grippe, or influenza, starts with a slight cold and ends with a complication of trouble. It lays the victim on his back, it tortures him with fevers and chills, headaches and backache. It leaves him a prey to pneumonia, bronchitis, and other deadly diseases. Its after effects are often more serious than the disease itself. It is quite possible to avoid its grip by keeping the blood rich and red by the use of Dr. Williams' Pink Pills—a tonic medicine which enriches the blood and strengthens the nerves. If, however, the disease attacks you, the patient should at once go to bed, and call a doctor before complications set in. That is the only safe thing to do. But to recover your strength after the severity of the attack has passed, you will find Dr. Williams' Pink Pills an unsurpassed tonic. Through the use of this medicine all the evil after effects of this trouble will be banished. This has been proved in thousands of cases throughout Canada, where in previous seasons la grippe has attacked them. Among the many thus restored to full health is Miss Irene Boone, Portsmouth, Ont., who says: "I take much pleasure in recommending Dr. Williams' Pink Pills, because I have proved their worth in my own case. Last winter I had a severe attack of la grippe and it left me weak and all run down. I had severe pains in the chest and under the arms, palpitation of the heart and attacks of neuralgia which left me with the feeling that life was scarcely worth living. I was advised to try Dr. Williams' Pink Pills and began their use on the principle that I would try anything that might better my condition. I had only been using them a couple of weeks when my pains began to leave me. Gradually my strength returned, my appetite improved, and in a little while I was as well as I was before. I am now a healthy woman, and I am sincerely glad I was persuaded to try Dr. Williams' Pink Pills and I shall always have a good word to say for them."

Dr. Williams' Pink Pills not only cure the disastrous after effects of la grippe, but are also a specific for all troubles due to poor blood, such as anemia, rheumatism, indigestion, nervousness, and all the generally worn out feeling that affects so many people. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE AFTER EFFECTS OF DREADED LA GRIFFE

Worse Than the Disease Itself—
Victims Left Weak, Nervous
and Worn Out.
