Saturday Evening National Night.

Part I.

EN! WANT TO TALK

I Want to Give my Reasons for the Popularity of my Dr. McLAUGHLIN BELT.

> This is the electrical age. We are passing through 7a period which is prolific of invention upon the lines of electricity, and it is fitting that great improvements should be made in the adaptation of electricity for the cure of disease and many weaknesses from which men suffer. No branch of electrical research has offered so great inducements, such marvellous possibilities, for the betterment of mankind, as the improvement of the methods of applying electricity to the human body for the restoration of its vitality. Experience coupled with faithful and constant study, observation of the needs of the sick and weak, combined with the ardent ambition to produce the means which would most ef-

fectively battle with the elements which create distress of mind and body, have enabled me to produce a most wonderful method of applying electricity to the human system, and I am gratified with my success, not only having perfected an appliance which overcomes all objections to the use of electricity, and which absolutely cures, but by plain and honest statements of facts, by appealing to the judgment of suffering people, I have built up the largest business of the kind in the world. I take every case that comes to me individually and arrange my Belt to suit the demands of that particular case.

You may say, as many others have said, "Doctor, your arguments sound good, but show me evidence of cures to back up your statements." That is my strongest argument. Every-man or woman who comes into my office gets a practical illustration of my method of treatment. After seeing original letters from prominent people (letters which I am permitted to exhibit), their doubts are dispelled, they are convinced that the claims I have made are true. You can see these patients and secure from them verification of my statements. Hundreds of my best testimonials can not be published, as the patients, though recommending my treatment privately, object to publicity.

Here is a letter from Victoria Harbor, Ont. Read it :--

Dr. McLaughin: Dear Sir: Over one year age I purchased one of your Belts for Sciatica and Dyspepsia. I was in such a condition that I could not take even a drink of water without turning my stomach. In one month after putting on the Belt I got that I could not take even a drink of water without turning my stomach. In one month after putting on the Belt I got that I could not take even a drink of water without turning my stomach. In one month after putting on the Belt relief. I have no symptoms of Sciatica and my stomach never troubles me. I can conscientiously recommend the Belt cured my wife of Neuralgia of the Heart. Before this I have often woke up at night and found her unconscious. I am happy to say that your Helt completely cured her. You are at liberty to refer any one to me, and wishing you every success, I am, yours, GEO. T. BURGOYNE.

Here is another from Malcolm, Ont .:--

Dr. McLaughlin. Dear Sir : It has been my intention for some time past to write to you and let you know the great benefit I have received from the use of your Dear Sir : It has been my intention for some time past to write to your Belt, and for a short while afterwards. I was troubled almost the whole Belt. I may say that for some weeks previous to beginning the use of your Belt, and for a short while afterwards. I was troubled almost the whole Belt. I may say that for some weeks previous to beginning the use of your Belt, and for a short while afterwards. I was troubled almost the whole Belt. I may say that for some weeks previous to beginning the use of your Belt, and for a short while afterwards. I was troubled almost the whole time with pains in my stomach and bowels, so that I had at all times a most uncomfortable feeling, and sleep was almost impossible. I can now state that I have not had a symptom of pain for over six months, and I can eat heartily, sleep 'like a top,'' and have gained in that time then the benefit of others, I think I should make this known. Wishing you success, I am, dear sir, yours truly, in weight. In justice to you, and for the benefit of others, I think I should make this known. Wishing you success, I am, dear sir, yours truly, D. SULLIVAN. Malcolm, Ont.

Read this letter from Mr. Isaac Hunter :---

Dr. McLaughlin. Dear Sir : I thank you very much for the friendly interest you have taken in my well-being. I am pleased to say that I am in good health. Dear Sir : I thank you very much for the friendly interest you have taken in my well-being. I am pleased to say that I am in good health. Your Belt did all for me that I expected it to do, and far more. I can knock around now without a cane, and do all my own chores. I am now 55 Your Belt did all for me that I expected it to do, and far more. I can knock around now without a cane, and do all my own chores. It has done as much good for my wife in that way as it has for me. I always recommend it. Yours very truly, ISAAO HUNTE & Rossport, Ont.

Another man made happy :--

Dr. McLaughlin. Dear Sir I take great pleasure in telling you of the immense good your Belt is doing me. I feel entirely like a new man and feel that I can enjoy the pleasures of life better every day. I have for years contended that old age was nothing but the freezing of the blood when there was no longer suffi-cient vital heat in the body to keep the blood warm and the organs active. I have said that years did not cause decay and proved it by citing cases where men have been made vigorous under my rejuvenating treatment. I have men at seventy years of age who will tell you that the manner in which I apply electricity made the warm blood bound through their veins.

Decay in old men is similar to general debility in young men. Years have nothing to do with it. In each it is the failure of the stomach to generate sufficient energy to supply the demands made by the vital organs.

Read what Mr. Wilcox says ----

Dr. McLaughlin. Dear Sir : it gives me great pleasure to inform you that I have found your Belt all that I expected, and more. I am in as good health as any man past 72 can expect to be. My rheumatism is entirely gore, and I have not had so much as a cold in my head since using it. The Belt is as man past 72 can expect to be. My rheumatism is entirely gore, and I have not had so much as a cold in my head since using it. The Belt is as good as ever. I have answered several letters of inquiry, and rocommend your Belt at every opportunity, which I will continue to do. Wishing every success to you, I remain, ever your debtor, GARDNER WILCOX, Dartmouth, M.S.

"A great many wealthy men are suffering tortures and dosing themselves with drugs without relief who never try a remedy like mine because they repose entire confidence in their family physicians, who believe that electricity is a remedy

of the future, not of to-day, and so advise their patients. "I tell you that Electricity is a remedy of to-day. It has been a grand remedy for the past ten years. I have studied this subject more carefully than any physician ever studied his text-books, and I can show results. I am curing men every day who were never able to get benefit from drugs."

Here is a case of kidney trouble. Note the action of my method in this case :--

Give me a man (or woman for that matter) who has been sick and suffering for years and taken medicine until the system is all run down and debilitated, the stomach unable to digest the food and the nerves shattered. My Electric Belt will give new life to every organ, drive out disease and restore health.

I have the grandest invention of the age for weak men; the surest and easiest cure for all nervous and chronic dis-

eases. Its wonderful power is directed to the seat of the nervous system, through which its vitalized strength penetrates into all parts of the body, carrying new life to every function which has been weakened by excess or dissipation, restoring energy to the brain and power to the vital organs.
