The centenary of this society, which occurs on the 6th March next, is to be specially celebrated in a unique way thruout the British empire and in all foreign countries where its operations are carried on, by a "Universal Bible Sunday." carried on, by a "Universal Bible Sunday."

From an article in the November Canadian Magazine, it appears that there are in Canada twelve auxiliary societies with several hundred branches in all, some of them being over seventy years old, and that these auxiliaries contribute more in aid of the parent society in London than those of any other group of British colonies. It is proposed to raise a centenary thank offering in Canada of \$50,000, and no doubt this amount will be much exceeded.

"The British and Foreign Bible So clety came into existence in the year before Trafalgar, in the very gloomlest crisis of Britain's awful struggle with crisis of Britain's awful struggle with Napoleon and his continental, allies, while the poor were starving, trade was depressed and crippled by war, and the dread of French invasion weighed upon them all, from the King on his throne to the laborer in his hut. Yet the new society not only won generous support from all classes in Great Britain, but the enthusiasm of its workers became a contagion which workers became a contagion which spread into Europe, and it was the direct inspiration to the formation of a Bible society in the United States which afterwards became the American States which afterwards became the American States which states which afterwards became the American States which states are walked and main can Bible Society, organized and maintained on similar lines—that is for the publication of the Word of God and that alone 'without note or comment.'" The British and Foreign Bible So-The British and Foreign Bible Society has circulated since the year of its birth 180,000,000 copies of the Scriptures, in whole or in part, and spent over £14,000,000 in the work. Its annual output is now 6,000,000 copies. The article in The Canadian Magazine concludes: "This celebration may mean much to the British empire, according to the spirit in which it is encording to the spirit in which it is enording to the spirit in which it is entered upon. It synchronizes with the movements now taking shape for a closer union of all parts of the Anglo-Saxon world.
