To Be Dyspeptic Is To Be Miserable.

I, spepsia is the prevailing malady of civilized life. It is largely due to gross errors in diet, over-eating, too free indulgence in stimulants and over-taxing the stomach with indigestible food, eating too rapidly without chewing the food suffici-ently, indulging in hot biscuits, pastry, pickles, confectionery, etc.

Free Receipt For Weak Men

Gentleman Will Send It Confidentially, Free and Sealed, to Every Weak and Unable Man Who Writes for It.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription, free of charge, in a plain, ordinary sealed enyelope, to any man who will write me for it.

This prescription comes from a physician, who has made a spe-

enyelope, to any man who will write me for it.

This prescription comes from a physician, who has made a special study of men, and I ham convinced it is the surest acting combination for the cure of deficient manhood and vigor-failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence, so that any man, anywhere, who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what, I believe, is the quickest acting, restorative, upbuffding, SPOT-TOUCHING remedy ever devised, and, so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 3933 ck Bidg. Detroit, Mich., and I will send you a copy of this splendid receipt, in a plain, ordinary sealed envelope, free of charge.

Island the rudder of the launch was lost and two of the blades of the propellor were torn away.

When they were found on, the beach, it was discovered that the hands of both men had been frozen.

CHATHAM, April 30.—Warren Martin, his wife and Miss Hayton, a milliner, had a narrow escape from asphyxiation last evening. The three were sitting in the dining-room of their home in which is a tase burner lit with natural gas. The heavy wind outside caused a down draft, and fumes came out of the stove into the room. Mr. Martin was barely able to get out of the house to notify the neighbors.

The highest mental and moral development, the greatest possible success in life, either financially or otherwise, can best be attained when the organs of the body are in a normal state of health-when the ambitions and efforts are backed by rugged, manly vigor.

The man who is weak, who lacks nerve force and energy, is certainly handicapped to a greater or less degree in every undertaking where a clear brain and an abundant reserve fund of nervous energy and vitality are essential—and these qualifications are required at the

present day more than ever before. I have devoted my entire life to the minute study of the causes and effects of nervous debility and those weaknesses of men which sap the vital energy. In nearly every case the trouble can be traced to some tax on the nervous system in former years, such as overwork, hard those secrets to himself and no one those secrets to himself and no one study, dissipation, indiscretions, etc., for all these things lower the vital forces and rob the constitution, and what is still more unfortunate, they generally do so at that delicate period of life when youth is merging into manhood, when Nature should be most assisted in her work of perfect development.

DON'T USE DRUGS

It is in correcting the consequences of these unfortunate mistakes that the properly applied current of Galvanic Electricity gives the best obtainable results, because science tells us that electricity and nerve force are one and the same thing. I apply it through the famous Dr. Sanden Electric Belt, with Suspensory Attachment. It is worn about the body at night only, and gives new life and energy to every weakened organ, curing while you sleep.

My plan of selling my Appliances should meet with the approval of every fair-minded man. It is not necessary to pay in advance, or even to make a deposit. You can make arrangements to get a Belt suited to the requirements of your case, on trial, not to be paid for until you are cured, and I only charge the regular list price. If you are not satisfied with the results, you can send the Belt back to me, and that ends the transaction. Isn't that a fair offer?

If you are weak and nervous; if you lack confidence and ambition; if you are easily discouraged and depressed; if you are not the man you ought to be, you need Electricity. Your nerves are craving for it just as the growing helds crave sunshine and warmth. In the great and sublime effort nature is making to restore your strength, she needs some aid. Will you assist her? You can if you will.

This book, profusely illustrated, contains valuable advice for men, MY BOOK IS GIVEN FREE TO and outlines the proper course to pursue for the greatest possible development of the physical and mental powers. Write or call for it to-day. It is sent free, sealed, by mail.
