in a long white apron.

The cow, a big black and white breast beautifully clean, arrived in front of the buildings, accompanied by a long line of singing students. The cow did not seem to mind the noise a bit, but just looked at the students as much as to ask, "Well, what's it all about anyhow?"

The coverage of the property of the years to come, that our Canadian citizens in Toronto will be physically normal. Wishing the campaign every success."

AMMS TO PROTECT

PURERRED STOCK Important Campaign.

After E. H. Stonehouse, the president of the association, had explained how a cow is brushed and cleaned before being milked. Hon. Manning Doherty, in addressing the crowd said the present campaign for drinking more milk was one of the most important ever launched in Ontario.

The war had taken away the young manhood of the province and it was necessary to build up a healthy race of children. This could be done by milk drinking, as it was the best food obtainable. At present it was astimated each Toronto child only averaged one cup of milk per day—the average should be at least four cups, and this present campaign was out to establish that end. The province would not need, he declared, to spend so much public money in looking after slok children if they could be provided with more milk to drink. Mr. Doherty paid a compliment to the city health department in seeing to the purity of the milk supply. He declared the milk was the purest in the Dominion.

When Mr. Doherty had concluded his speech one spectator wanted to know "when do you put the water in finely in doing their "bit" to help on the movement and to encourage on the movement and to encourage.

Mayor's Appreciation. Mayor's Appreciation.

The following is an extract from a letter received by the president of the Child Welfare Council of Toronto from his worship the mayor, in regard to the milk campaign:

"The effort being put forward during this week in Toronto by those interested in the welfare of the community, and particularly the children, is one worthy of our edurations.

is one worthy of our edorsations. Without doubt, ignorance has been the ebiggest factor in retarding the development of our country, because this ignorance has meant that many

The great drink more milk campaign was formally opened yesterday afternoon before some 400 people at tat, when they were children they were not properly fed, and the bigning Doherty, minister of agriculture, delighted the assembly by milking a cow in front of the parliament buildings. The master hand had evidently not lost its art, for the minister did the double-handed milking in expert style. He had dressed himself for the occasion and appearating a long white apron.

The cow, a big black and white were not properly fed, and the big-gest fault in feeding is that children
