The Canadian Mink is without doubt the most popular and essentially national fur produced in Canada. It has a rival in the Northern Europe Mink, but not a serious one.

The Canadian Mink is found almost exclusively in our far northwest and in the Hudson Bay district. It is a carnivorous animal and lives almost entirely in and always near the water. It has webbed feet and is classed in the great marten family which includes muskrats and ermine.

The Mink measures only from 15 to 18 inches. The fur makes rich trimmings for garments or lends itself to fashionable Muffs, Scarfs, etc.

to corvey my reasons for resigning. "When Lieut.-Col, Merritt informed me that he had offered Col. Otter other rooms, and Col. Otter would accept no other room but mine, which we had gone to a good deal of expense in fit-ting u) and making comfortable, I came to the conclusion that Col. Otter had some prejudice against me, and when I received an order from Col. Otter, thru Lieut.-Col. Merritt, about 11.40 a.m. on Monday, May 23, to hand over my room by noon of the same day, I informed Lieut.-Col. Merritt that of course it would be impossible to obey the order in 20 minutes, and that I had my business to attend to during the day, and I at once handed in my resignation. When I arrived at the Armouries that evening about 3 o'clock for the purpose of handing over my stores to another officer, I found the Toronto Light Horse in possession of my room and stores, Col. I therefore left the Armouries. "Altho Col. Otter had, by his own action in taking possession of my room and stores, relieved me of all reer out. H. Hooper of Montreal bought during the eek 21 milch cows and springers at an verage of \$45 each. Mr. Hooper stated hat he would be back the week after room and stores, relieved me of all re-sponsibility in regard to the same, still I was unable to have my resigna-tion forwarded to headquarters for acceptance till I had again made my-self responsible for the deficiencies, if any, in my stores, altho they had been taken from me and placed in charge of another officer, in my absence and without my consent. next. Harry Murby, live stock commission buy-er and salesman, bought 130 stockers and feeders as follows: On Thurslay, one load feeders, 800 to 950 lbs, each, at \$3.50 to \$3.75: some mediums, 700 to 800 lbs. each, at \$5.25 to \$3.50; common, 700 to 800 lbs. each, at \$3.15 to \$3.55; stockers, 500 lbs. each, at \$2.40 to \$2.60. At the age of seven he came to Canada with his parents and settled on the homestead on the twn line of Medonte where he lived continuously for sixty-seven years. Four years ago he retired, and has since lived in Toronto. Two months ago he went as was his cuss tom every summer to visit his daughter and was seized with the illness which terminated in his death.
