Ever thought of endowing your home?

It's very easy to do it.

Suppose having purchased a house and effected a mortgage on it—you should die suddenly!

Wouldn't your wife and family have a hard time meeting the interest on the mortgage and discharging the principal sum when due? Not so, however, if you were insured under an Imperial Endowment policy for the amount of the mortgage. A small amount invested each year in such a policy will enable your heirs to pay the mortgage immediately after your death, even if it should occur next week. On the other hand, if you should live until the policy matures you can pay off the indebtedness yourself out of the amount of the Endowment.

Have you a mortgage on your home? Then let us show you how you can make sure of its repayment Write today-tomorrow you may be uninsurable.

FREIGHT RECEIPTS **NEARLY ABSORBED** BY FREE SERVICE

Commission Considering Advisability of Introducing Free Storage, Warehousing and Loading of Cars

RAILWAYS WOULD MEET WITH HEAVY LOSSES

WASHINGTON, March 28 .- Louis D. Brandels, counsel for the Interstate Commerce Commission, in opposition to the roposed five per cent, increase in railroad freight rates, today submitted a statement showing that free services renstatement showing that free services rendered shippers by railroads in classification territory, result in serious depletion of the revenues of the roads.

The special free services under consideration by the commission were free storage, free warehousing, free loading and unloading of cars, free lighterage, free elevation of grain and various other free terminal services.

Mr. Brandels asserted that the cost to the railroads of these free services was so great as to absorb from 25 to 59 per cent. of the freight rates receipts and, in certain instances more than the entire receipts were absorbed, resulting in a substantial cash loss to the road.

Percy E. Hagel this morning when asked by Justice Curran if he had anything to say why sentence should not be passed upon him. Hagel was then sentenced to three years imprisonment, and John Westlake to two years.

His lordship spoke feelingly and referred to the fact that strong influences for which he had the highest personal regard had been brought to bear on him in connection with leniency for Hagel. He stated, however, that those who had come to him had not in any way affected his own mind in the matter, for he had been inclined to leniency. He felt, however, that he had duty to perform to society, and thus he felt that he could not do less than sentence the accused to three and two years respectively.

ENGLISH COMPANY ABSORBS U. S. FIRM

Tanning Extract Company is Hit by New Tariff-\$6,000,000 Deal

(Special to The Sunday World.) NEW YORK, March 28.—The recording of a million dollar mortagage in Brooklyn late yesterday heralds the beginning of an invasion by the English into the time-honored American industry of manufacturing extracts used in the tanning of all kinds of leather.

The New York Tanning Extract Co. and its predecessors for many years had conducted a profitable business in Brooklyn manufacturing tanning extracts from the wood of the red Quebracho tree, which flourishes in great profusion in Argentina. From small beginnings the company expanded into a \$6.000.000 corporation, and had approximately 500,000 acres of land in the

It is estimated that at the time protective tariff of approximately 25 per cent. was removed from Quebracho extracts the company controlled from product used in America. Officers of the company protested against the removal of the tariff, fearing their strong English rivals, but their protests. one-third to one-half of the entire product used in America. Officers of English rivals, but their protests were of no avail and shortly after the new tariff law went into effect steps were taken as a matter of self-preservation amalgamation with the big English terests. Thus on Jan. 1 the New York Quebracho Extract Company was incorporated to take over the business and plant of the New York Extract Company. The new company was promoted by the Forestal Land, Timber and Railway Company, Limited, of London, Eng., a \$15.000.000 corporation controlling something like five million acres of land in the Argentine.

NEW YORK CENTRAL DISMISS 25,000 MEN

Reduction in Traffic Has Compelled Company to Reduce Its Staff

NEW YORK, March 28.-Dismissal 25.000 men by the New York Central Railread since Dec. 1, said A. T. Hardin, vice-president of that road, today, is only a baremeter of the company's "The reduction of forces was not arbitrary," he added. "I came about gradually as traffic main ly freight, declined: and while I don't want to be a pessimist, I cannot see any immediate prospect that business will pick up and these men come back to work.'

Mr. Hardin said this condition affected most of the eastern railroads. Of the 25,000 men dismissed by the New York Central, 15,000 were laid off on lines east of Buffalo and 10,000 west of Buffalo. Altho the reduction

"Compared with 1913." said Mr. Har-"the business of this year on the New York Central suffered a reduction of from eight to ten per cent. The reduction of the working force has

TWILIGHT MUSICALE.

Under the direction of Mrs. W. J. Obernier, the twilight musicale given at Newman Hall was a social as well as a musical event. The patronesses were: Mrs. Ambrose Small, Mrs. Hynes, and Mrs. M. Madden. In the program were included the Schuman Trio, Messrs. Romanelli and Robert Todd, Miss Helen Dorland (soprano), Miss Elleen Barr (elocutionist), and Mr. Gladstone Brown (tenor). Many recalls were insisted upon by the large and enthusiastic audience, and a brilliant future is predicted for Mr. Brown, whose splendid tenor voice was greatly appreciated.
