OPERA HOUSE NAVAL PICTURE WILL GRIP YOU
What competent critics have styled "the greatest naval motion picture ever screened," the arrival of the United States Navy in British Waters, the taking and showing of which is directly authorized by the British war office, has been secured by the Opera House management for showing here on Thursday and Friday afternoon and evening of this week, in conjunction with the regular vaudeville programme.

BOARD OF SELECTION TO COMPLETE LIST OF NAMES TODAY

M. G. Teed, K.C., of this city, and J. J. McCaffrey of Fredericton are nearing the end of their work as the members of the board of selection for New Brunswick and will complete their list today or tomorrow. There will be sixty tribunals in this province, and it is not expected that the arrangements for carrying out their work will be left to the members of the tribunals, but it is not expected that the work will demand the full time of the appointees, as it is probable that much of the work will be done in the evenings.

SACKVILLE PERSONALS

Miss Lillian Hart, who has been spending her vacation at the guest of her parents, Rev. Thomas D. and Mrs. Hart, intends leaving next Friday for Kentville, N. S., where she will resume her duties as superintendent of the Provincial Sanatorium.
Rev. H. Wigle received telegrams on Sunday announcing the serious illness in Winnipeg of his son, Garnet, who left about three weeks ago for the west with the hope that the change would do him good. His mother, Mrs. Wigle, will leave today for Winnipeg to be with her son.
Major and Mrs. George O. Fallis, senior chaplain with the 5th Canadian Division, are visiting Rev. and Mrs. Hamilton Wigle, Ladies' College. Mrs. Fallis is a graduate of Mount Allison (Miss Hawkins, of Amherst). Major Fallis commences his tour of duty for Canadian chaplains overseas from prominent denominations in Canada. His year of absence is six weeks from headquarters.

ST. JOHN PORT LED

The volume of business through the port of St. John greatly exceeded that of any other port in Canada for the last three months of the fiscal year, ending June 30. The imports were \$5,646,579 and the exports \$9,787,897, a total of \$15,434,476. Totals for other ports were: Montreal, \$29,974,244; Port William, \$57,729,227; Port Arthur, \$29,854,469; Halifax, \$21,084,681; McAdam, \$9,802,267; St. Stephen, \$542,908.

NOTICES OF BIRTHS, MARRIAGES AND DEATHS, 50c.

BIRTHS

PRINCE—On September 17, to Mr. and Mrs. William E. Prince, 83 Victoria street, a daughter.
FENNELL—On Sept. 17, to Mr. and Mrs. L. J. Fennell, 156 City road—a daughter.

MARRIAGES

MONTAGUE-DOUCETT—At Holy Trinity church on September 18, by Rev. J. J. Walsh, Alfred Joseph Doucett to Jessie Agnes Montague.
NEVES-LEWIS—On Monday, September 17, 1917, at St. John, N. B., George F. Neves, of St. John, N. B., and Mamie A. Lewis, of Port Lorne, N. S., Rev. J. Charles B. Appel officiating.
FERRIS-PATTERSON—On Monday, September 17, 1917, at St. John, N. B., Vivyan L. Ferris and Elizabeth L. Patterson, both of St. John, N. B., Rev. J. Charles B. Appel officiating.

DEATHS

FENNELL—On Sept. 17, infant daughter of Mr. and Mrs. L. J. Fennell, 156 City road.

IN MEMORIAM

MOORE—In loving memory of my dear son, Wm. Bayard D. Moore, killed in action on Oct. 29, 1916, with the 20th battalion, under command of Lieut.-Col. J. L. McEvilly. He was a member of A Company, No. 1 platoon, killed in action September 17, 1916, at the Battle of the Somme and buried at Courcellette. It is reported from Ottawa as "marginally noted non-commissioned officer."
I know, dear Lord, that thou art ever keeping
That which I have committed unto
Against that day when there will be no weeping
With suffering o'er, when death shall set us free.
MOTHER.

MATTER OF PENSIONS AND SOLDIERS' PAY TAKEN UP TODAY

This Morning's Session of Trades and Labor Congress of Canada
Ottawa, Sept. 18.—This morning's session of the annual convention of the Trades and Labor Congress of Canada was devoted principally to the adoption of a resolution on pensions, and a discussion on and discussion on resolutions. The chair was occupied by President James Waters.
P. Draper, secretary of the congress, read telegrams from outside organizations offering congratulations and sending greetings. It was announced that J. P. Williams, who last year represented the English labor men at the convention, had died. The delegates passed a vote of sympathy.
A resolution which proposed that there should be a special congress on the important questions of separation allowance, patriotic fund matters, pensions, soldiers' pay, demobilisation, etc., was taken up.

TWO NORWEGIAN VESSELS ARE SUNK; 21 LIVES ARE LOST

German Submarines Sank Down the Askeld and Rein, Latter Off Cape St. Vincent
Christiania, Norway, Sept. 18.—The Norwegian foreign office today announced that the Norwegian steamer Askeld, of 2,923 tons gross, had been sunk by a German submarine. One boat with eleven men was lost and the captain and ten men were saved.
It was also announced that the Norwegian steamer Rein, 1,175 tons gross, had been sunk by a German submarine off Cape St. Vincent. Ten men lost their lives and the captain and nine others of the crew were saved.
New York, Sept. 18.—The Askeld was under charter to the French government, and left here on Aug. 23 with cargo for a French port.

MY HAVE TO SEND UP PRICE OF FRENCH NEWSPAPERS AGAIN

Noise and Swedish Paper Makers Are Cancelling Contracts
Paris, Sept. 17.—(Delayed)—The international press committee has been advised that the Norwegian paper manufacturers have just cancelled their contracts, involving as a pretext the German refusal to supply paper. The Swedish paper makers have also cancelled their contracts on the ground that the export of paper has been forbidden by the Swedish government.
As the French newspapers draw fifty per cent. of their supply from Scandinavia, it is foreseen that they very soon will be obliged again, to reduce the size of their sheets, this notwithstanding the recent increase in price which measure effected an economy of only fifteen to eighteen per cent. in the consumption of paper.

ARGENTINA WILL HAVE NOTHING TO DO WITH LUXBURG

Buenos Aires, Sept. 18.—In private sources it was learned by the Associated Press today that the Argentine government has asked Spain to take the responsibility of obtaining from the American and British government a safe conduct for C. von Luxburg, the German minister, or here, who recently was given his passport, arguing that the count is to leave Argentina for Spain on a Spanish vessel. Accordingly, it was said the Spanish ambassador has asked the Madrid government to initiate negotiations to this end.
The count is taken by the Argentine foreign office is not in accordance with diplomatic usage, but this government, it is understood wishes to escape the necessity of extending to the expelled German minister the usual courtesies.

WILL OF NELSON A CLIFF IN PROBATE

The will of Nelson Allen Cliff, the will has been proved in common form, and letters testamentary granted to Gracilda J. Price of this city and Leader A. Cliff, M. D., of Boston. S. W. Palmer is executor.
The exact value of the estate was not known but the estimated value was placed at less than \$80,000. There are bequests of \$5,000 each to Gracilda G. Price, Beatrice Price and Margaret Cliff Price. The balance is to be divided share and share alike among his brothers, James S. Cliff of Sharon, Mass., Leader A. Cliff of Boston, his sister, Mrs. G. J. Price of St. John and the children of his deceased brothers and sisters, being six nephews and six nieces, with one grandchild.

LOCAL NEWS

NOTICE TO CHAUFFEURS.
Meeting to be held at Oddfellows' Hall, Wednesday evening, September 19, 7.30 o'clock sharp. All are requested to attend. Very important business. 9-20.

The Soldiers Wives League will meet in St. Andrew's church school room Thursday, Sept. 20, 8.30. Large attendance is requested.

CANADIAN CLUB THIS EVENING.
Dr. James L. Tyson, of Portland, Me., public lecturer on international relations, will address the Canadian Club at 415 this evening in Bond's restaurant. His address on "British American Friendship" will be illustrated by eighty lantern slides. A full attendance is requested.

Soldiers' Christmas Stocking Fair tonight in West Side Curling Rink. Door price, loaf of coal.

Millinery opening Wednesday, Sept. 19. M. M. Dever, 289 Main street, 9-19

Mr. and Mrs. Fred Smith of St. Patrick street arrived home on Saturday after visiting Mr. and Mrs. Myles Dible of Montreal.

CARD OF THANKS
Arthur C. Pond of the Imperial Theatre staff wishes to thank the ladies and gentlemen who showed such kindness during the illness of his wife and after her death. In this he is joined by Mrs. Pond's relatives in England, who have written him expressing their deep feelings of gratitude.

MILITARY SERVICE ACT IN FORCE ABOUT SEPT. 24, SAYS GENERAL McLEAN

Brigadier-General H. H. McLean arrived home from Ottawa last evening. He reports that all the machinery in the working of the Military Service Act is running very smoothly and estimated that the act would be put in force about Sept. 24. Other than this, he had no information in regard to the workings of the act for this province.
In another matter, said the general, every member of the 26th will have a Highland uniform, as the balance of the uniforms are now on the water en route to Valcartier.

SHARP BREAK IN STOCKS

New York, Sept. 18.—(Wall Street, noon)—Attempts by bears to uncover weak spots and bring about a renewal of the Canadian market were frustrated by a sharp break in prices. Some shares sold at the lowest on the current downward movement. Evidence of an over-sold condition subsequently caused short coverings, which pushed up prices one to three points from the lowest. Steel rallied from 105 to 105.84. The bond market was easier.

AUTOMOBILES AND NOISE

The chief of police has wisely decided to take action against chauffeurs who persist in tooting their horns at all hours of the night and day. That practice is a plague in Montreal. In the future chauffeurs may only sound their horns in case of emergency and the burden of proof will rest on them. In Chicago where there are innumerable more autos than here the noise of a horn is scarcely ever heard and accidents, in proportion, are less numerous than in Montreal. In Paris horns are not permitted, and a chauffeur who is promptly hauled before the courts if he poisons the air by a stream of noxious smoke. OTTAWA PLACE TO GET NEWS OF SOLDIERS

Headquarters Military District No. 6, Halifax, N.S., Sept. 17, 1917.
To the Editor of the Times, St. John, N.B.
Sir,—Owing to the numerous enquiries that are being sent to the Canadian authorities in England concerning members of the Canadian Expeditionary Force, and to the delay, unnecessary correspondence, and inconvenience caused thereby, in as much as all available information is sent by the Canadian headquarters in England to militia headquarters, Ottawa, it is suggested that you be good enough to bring to the notice of the public that:
(a) All available information is despatched from London by cable and mail to the Record Office, Ottawa.
(b) Consequently the Record Office, Ottawa, is able to impart, in certain instances, the same information from two weeks to a month earlier than could be done by the authorities overseas, through the mails.
Yours very truly,
BEVERLY R. ARMSTRONG,
Lt.-Col. for A. A. G., Military District No. 6.

THE BEST QUALITY AT A REASONABLE PRICE

Backward Children Often Can't See Well
Many a child is called "stupid" and "dumb" because they can't see the blackboard or printed page clearly. Given the right glasses, the stupid child usually becomes one of the best pupils.
The child can't tell, nor can you, the condition of the eyes. But our optometrist can. It is a good thing for the child, and for you, to have an examination of the eyes made at the beginning of the school year.

Save yourself many needless steps.
Make a list and send one of the children for the groceries you need.
A child can buy in our store as cheaply as a grown person. We put HONEST PRICES ON HONEST GROCERIES, and guarantee that everything we sell is not TAINTED with any impurity.
Buy from US.

Gilbert's Grocery
Jewelers and Opticians,
21 KING ST. : ST. JOHN, N. B.

MORE TARGETS BUT FEWER HITS

If More U-Boats Why is Destruction Less?
New Type Less Efficient
Many More Have Been Sent to Bottom Than Berlin Admiralty Menace Not Overcome

London, Sept. 18.—Commenting on the more favorable submarine weekly return the Times' naval correspondent writes: "The number of large ships sunk when corrected was 11, the lowest yet recorded since the return was issued. The previous lowest in any one week was 14, while the highest, in April, was 40. But these official tables do not represent the tonnage. The actual significance of the figures, therefore, remains obscure. For the five weeks of April the percentage was 86.4, in June 80.9, and in August 81.8. Each month, therefore, about one-third escaped of those attacked. It is when a comparison is made between the number of ships which escaped and the number moving in the danger zone that a considerable diminution is noted. The April percentage of escapes to targets was 0.26, in June, 0.48, and in August 0.20. It thus appears as if the percentage of ships attacked when compared with targets has fallen one-half, so also has the percentage of escapes.
"The question arises, if the Germans are turning out submarines in greater numbers, as they say they are, why is the standard of destruction set up in the earlier months of the campaign not reached at the present time? It is not because the targets are fewer. It is not because there is any change in the weather conditions between April and August. Several explanations have been suggested among them the diminished efficiency of the new type of U-boat. While the value of the tables issued weekly is lessened by the lack of accurate data, it is scarcely worth while to speculate on this point. There are no indications at present to give anyone grounds for confident anticipation that the submarine menace is in a fair way of being dealt with effectively."

EDISON SAID TO HAVE OVERCOME U-BOAT MENACE

Report of Device by Which a Torpedo is Deflected From its Course
New York, Sept. 18.—A special despatch from Washington to the New York Tribune says:
It was said here today that Thomas A. Edison has contrived a mechanism to deflect torpedoes from their courses. According to reports, the device has been tried with success on several destroyers, and has been installed on some liners. It is believed that the extraordinary operations of a torpedo which missed a big American liner which arrived yesterday at Atlantic port were due, not as the passengers in some of the ship's offices seemed to believe to some new wrinkle developed in a German laboratory, but to the genius of Mr. Edison.

LOYDS INQUIRING INTO MATTER OF MISSING VESSELS

London, Sept. 18.—The Daily Mail is authority for a statement that Lloyd's is preparing an inquiry into the matter of missing vessels. Many of the vessels which have been posted this year as missing represented more than £250,000 each.
"The reason for the increase is not difficult to discover in view of the 'sink without trace' cipher message of the German navy which has been posted this year as missing represented more than £250,000 each."
"Regarding recent reports respecting losses from the coast guard, it is not borne out by the facts. In this area there has been no evidence of any missing vessels, but our counter measures are proving successful. In this class of warfare the light is, and must be, steadily on our side, and success is assured."

KAISER KNOWS THAT THE "STREAM IS AGAINST HIM"

London, Sept. 18.—The Chronicle, in a leading editorial under the heading "Despairing Doomed," says:
In Germany just now, evidently by preconcerted arrangement, resolutions are being passed by all sorts of organizations attacking the American president for his scathing strictures on autocratic power in Germany which planned this war, and in its prosecution has stopped at no barrier, either of law or mercy.
"This tremendous indictment of the Kaiser and his government, made a deep impression in Germany. Hence these inspired resolutions of protest; the Kaiser's message published today, and Hindenburg's contemptuous allusion to the American president. These engineered German protests against President Wilson's powerful indictment prove that the Kaiser, his junkers and the military caste know the stream is against them."

NEW VESSELS MARKED SUCCESS

Standardized Ships Built in England to Meet Submarine Menace
New York, Sept. 18.—A London cable to the Herald this morning says complete success has attended the trial of the first standardized ships built to the order of the British government. It was of a most exhaustive nature, and experts are unanimous in their praise of the vessel. With its sisters, which will now be taking to the water in quick time, it is destined to play an important part in the campaign against submarines.
The standardized ship has been designed to provide a good style of cargo carrier in the shortest possible time, with the minimum expenditure of material. The keel was laid in February last, and in less than six months the vessel was fully loaded and ready to go to sea.

FLIMSY EVIDENCE ON WHICH GERMANS BASED THEIR CHARGE

Seek to Make Out That Belgian Relief Ships Acted as Decoys to Trap U-Boats
Washington, Sept. 18.—In response to Great Britain's protest against the charge that Belgian relief ships acted as decoys to trap submarines, the German foreign office says that the accusation was based on the report of a submarine commander who says the "Baron Beyeys, relief steamer, turned toward him when sighted. The German statement, forwarded to the British embassy here from London, says that the Baron Beyeys flew the flags and pennants indicating her connection with Belgian relief, and that the submarine commander had to conclude that in making use of the distinctive signs she was acting as a trap for submarines, because "the steamer, on coming in sight, turned toward the submarine, and when the submarine abstained from attacking and went off, turned back again."
The British government stated that the vessel in question had been continually in the service of Belgian relief, and had been furnished with safe conducts for all her voyages. She displays, by order, all the distinctive markings in amplification of repeated assurances that relief vessels and markings will never be used for any purpose other than that for which they are intended.

FROST SCARE SENDS UP CORN VALUES

Chicago, Sept. 18.—Predictions of frost brought about a material upturn today in corn values. The government forecast definitely indicated frost tonight in North Dakota, and there were unfavorable prophecies to which considerable attention was given. Recent declines on account of an apparently ideal crop outlook seemed to reduce the market unusually susceptible to a likelihood of adverse developments. Opening quotations, which ranged from the same as yesterday's finish to 1-4 to 3-8 cent lower, were followed by an advance of one cent or more a bushel all around.
Cooler purifiers. The perfect weather received considerable notice. Conference were in progress looking to a restoration of old figures at places where the rate had recently been advanced somewhat.

MORE THAN MILLION MEN UNDER ARMS IN UNITED STATES

Washington, Sept. 18.—Believing that the public does not understand the real strength of the American military and naval forces, Chairman Dorn of the House Military Committee submitted today a publication in The Congressional Record a statement prepared by the committee of public information from government records.
"On September 6, 1917," the statement says, "there were in the regular army, National Guard and Reserve Corps of the army 72,228 officers and 741,032 enlisted men. In the navy there were 141,867 enlisted men, 41,429 naval reserves, and 14,500 of the naval militia in the federal service. There were 5,000 men in the coast guard, and 6,500 in the hospital corps, making a total of 209,840. The enlisted strength of the marine corps was 29,971; reserves in the services, 1,070; national naval volunteers, 704; dived men on active duty, 14. There were approximately 12,000 officers in the navy, and 1,166 in the marine corps."
"In other words, on that date, the army had, including officers and enlisted men, 819,851, and the navy 224,265, making a total of 1,044,116 men, all of whom are volunteers. Prior to that time, there was not a drafted soldier in a single training camp."

JAPANESE MISSION TO UNITED STATES

Tokio, Sept. 16.—(Delayed)—Japan will send to the United States next month an official commission of financiers and business men to study war time finances and promote business and economic relations between Japan and America. Baron Tanjuro Megata will head the commission.
"To Organize For Food Control."
The members of the Housewives' League, who are so busy these days in solving household problems, will organize for the work that they have undertaken in connection with food control. This is one of the most important matters that the league has yet undertaken and it will require all its numerical strength to accomplish the task thoroughly.

TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Parmit (double strength), and add to it 1/2 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful four times a day.
This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.

CONSERVATIVE REPORT AS TO THE ELECTIONS
Perhaps December 3—Borden to Hot Springs, Then on Tour of Canada
(Ottawa cor. Halifax Herald)
The date of the election is very uncertain. There is a belief in some quarters that it will not be held until after the New Year, but a more likely report is that it will be held on Monday, December 3.
The Herald correspondent understands that after dissolution of parliament Sir Robert Borden intends taking a short rest, probably at Hot Springs, and immediately after his return will announce a reorganization of his cabinet and start on a tour that will take him from Halifax to Vancouver.
His first speech, which will be in the nature of a manifesto to the nation, will in all likelihood be made at Halifax.
Despite disappointments, delays and seemingly insuperable obstacles, The Halifax Herald is in a position to state tonight that a union government will be achieved.
Catarrh Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Cure is taken internally and acts through the blood and on the mucous surfaces of the system. Hall's Catarrh Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonic known, combined with some of the best blood purifiers. The perfect cure has received considerable notice. Conference were in progress looking to a restoration of old figures at places where the rate had recently been advanced somewhat.
