A Present for Both of You

ARE YOU GOOD AT SLY HINTS? THEN BEND YOUR EAR CLOSER.

You don't like to see so many other women get ahead of you—or their husbands to get ahead of your husband—do you?

Yet you'd be surprised at the hundreds of folks who are saving hundreds of dollars in the run of time with a Moffat Electric Range. The greatest Gift you can get, the one that looks like a lot of money—but really doesn't cost money at all, when you come to count up.

First, it saves a hundred dollars a year in heat economy alone. So every husband can afford one alright. In fact he can't afford to let you go on cooking on an old idea stove—they are all so wasteful compared to Moffat Electric. Second, the low monthly installments are about covered by the difference in your fuel bill. Third, the cost of all wiring is borne by your Hydro.

Nicer, Easier Cooking

And now about yourself. Wouldn't you just love a Range that works on turning a handle—high heat, medium heat or low heat under any particular pot, the oven or the warming oven. And all agleam in a dress of Porcelain, Nickel and Enamel—even the oven lining. A Range that is always right, the liquid thermometer proving it again, holding enough heat to cook for hours after the current is turned off. My, what a Range so sure as that. Everything baked evenly all over, through and through. No cleaning up, no fumes, no chores of any kind. Instant action. Hours a day saved and a far prettier kitchen.

Just talk it over with your Husband in a general way. Let him see what he saves and what you save—and how it is as much help to one of you as the other. Then get him around to the Christmas notion. It works every time. Try it! Have him come in tonight to see the different models for the fun of it.

Dry Cleaning restores new life to fabrics and increases their durability.
