"DYNAMITE ALLEN"

"Dynamite Allen" is a tale of the mining districts, and abounds in tense dramatic situations. Many sensational scenes are introduced such as the burning of a large house, the flooding of a mine, an explosion that destroys a giant sluice, and a racing locomotive which plunges through an open bridge into the river. In addition, the picture contains a delightfully sweet romance.

JEWEL CARMEN

"The Silver Lining"

Heading one of the most notable casts of players ever assembled for a motion picture production is Jewel Carmen, the beautiful heroine in "The Silver Lining." This wholesome star is known to thousands of motion picture fans for her appearance with Douglas Fairbanks and William Farnum.

The supporting cast is composed of such Broadway favorites as Leslie Austin, Cliff Robertson, Gladden James, Arthur Donaldson, Virginia Valli, Julia Strayne Gordon and others whose names are associated with successes of both the stage and screen.

It presents in an absorbing manner an unusual story where love and the law keep the swiftly moving plot at high tension. Thrills and thrills flash all through the engrossing story as society and the polished underworld clash in a skillful battle of wits and money.

For the thousands who have only heard of the famous dances of Dorothy Dickson and Carl Hysen it gives an excellent opportunity to see these premiere artists of the dance in several of their most famous presentations.

"The Silver Lining"

Is a picture that will create keen interest and cause wondering comment that any subject will arouse which breaks away from the beaten path. To present its viewpoint in a novel way, like the flash of a brilliant lightning in a costly setting, the unexpected twists to this witching story of Cupid and the law make it a picture of unusual attractiveness.
