SOCIETY WEDDING OF MUCH INTEREST

Miss Louise Anderson Bride of Thomas Guy at Ceremony in St. Andrew's Church.

St. Andrew's church was the scene of one of the most interesting weddings of the year, last evening at 9 o'clock, when Miss Louise, daughter of Mr. and Mrs. R. H. Anderson, of Queen Square, was united in marriage with Thomas Guy, manager of the Bank of Montreal in Brookline Square. The ceremony was performed by Rev. J. S. Sutherland, of Fredericton, assisted by Rev. F. S. Dowling, and the bride was given away by her father. The bride's costume was of white satin, embellished with a shower bouquet of roses. Miss Jean Anderson, maid of honor, wore gold velvet and a black hat and carried a bouquet of crimson roses. The bridesmaids, Miss Agnes Anderson and Miss Katherine Brown, of Cham, wore attire in white silk with gold trimmings and gold lace hats and carried gilt staffs with bows of white satin, embellished with daisies. Another beautiful dress was that of the train-bearer, Miss Constance Mullin, a late Greenway costume of point d'esprit. George Roberts supported the groom. Victor Rossby, John Moore, Leslie Peters and Robert Anderson were the ushers.

The choir sang "The Voice that Breathed Our Eden," as the bridal party entered the church; Mrs. L. LeLachur sang "Because," and as they were dismissed, the organist, played Mendelssohn's Wedding March. The church was beautifully decorated with daisies, buttercups, palms and ferns and a bell of daisies and buttercups and a bell of daisies and buttercups. After a reception at the home of the bride's parents, Mr. and Mrs. Guy left for P. E. Island for the honeymoon. On their return they will reside at 24 Pitt street. A great number of beautiful and costly presents have been received, including a case of silver from the congregation and choir of St. Andrew's church and a beautiful china dish from the Ladies' Aid of the same church. Among the out-of-town guests present at the wedding were: Mr. and Mrs. R. S. Murray, Schenectady (N. Y.); Mrs. W. H. Tupper and Mrs. R. H. Hotchkiss, Brookline (Mass.); Mr. and Mrs. F. H. McNaught, Miss Katherine, Miss Joseph and Alexander Rossby, and Miss Lillian Snowball, Chatham; Miss Marjorie Forsyth, Miss Marion Hadow and Miss Elizabeth McDonald, Toronto; Miss Florence Hickson and Miss Louis Murray, Newcastle.

WATER MATTER AT CITY HALL MEETING

Discussion a Bit Spirited at Times This Morning—A Douglas Avenue Question.

A question as to whether or not the Water and Sewerage department or the Public Works department should pay for the installation of a fire hydrant in Broad street near the city's property caused quite a discussion at a committee meeting of the common council this morning. Commissioner Jones submitted a report showing that, in order to install the water main and install the hydrant an expenditure of \$2,400 would be involved. He maintained that as it was for the benefit of the Public Works department the cost should be charged to them. Commissioner Frink took objection to this and said that it was the property of every citizen and that at the present time there was only a one inch pipe to protect 88,000 worth of city property. Commissioner Jones maintained that there were two hydrants at a distance of about 400 feet and he felt that they were adequate for fire protection.

After considerable cross firing between the commissioners it was suggested by Mayor Schofield that the matter be settled by two commissioners to work out for the benefit of all. Another question, which brought out considerable discussion, was that of paying Engineer Murdoch's bill for surveying the city's timber lands at Loch Lomond. It was said that it was originally estimated that the work would cost \$800 and that the actual cost was well above \$2,000. It was said by the commissioners that work of this kind should be done by city engineers and they should pass necessary papers and secure certificates to allow them to do so. On motion of Commissioner Jones the bill was ordered paid.

Commissioner Jones submitted a blue print showing a proposed extension of an eight inch water main from Egbert street to Russell street, a distance of 500 feet for an approximate cost of \$5,000. It was said that this would prove for supplying this district. It was moved that the work be undertaken and paid for out of the water and sewerage department maintenance and this was unanimously carried. Commissioner Jones also submitted a blue print of Douglas avenue showing the number of vacant lots. He said that he had not as yet notified owners to have sewer connections made to these lots and he did not feel like going ahead with it until proper grades had been made to the street and sidewalks. Commissioner Frink said unless the owners were forced to enter the sewer that next year when the pavement was laid the street would be torn up. He strongly advocated a more progressive system and spoke of other Canadian cities where water mains, sewers, gas pipes, conduits, etc., were laid before any houses were built and the expense was charged to the property owners. He said that the act gave authority for the commissioner to force property owners to have sewer and water connections made and if they did not that the work be undertaken and charged to them. After considerable discussion it was decided to defer action until the matter could be looked into by all of the commissioners and the city engineer.

The Secret of a Successful Sleep

Emerson in his essays on the English refers to them as being adepts in the art of "raising the solid bar of sleep between day and day."

But Emerson lacked the knowledge of what the Hercules woven Steel Spring can do towards ensuring a successful sleep else he wouldn't have endorsed the English alone.

We are selling the Hercules Steel Spring and therefore are in a position to know its worth. This, coupled with what our customers say of it. Possibly we can equip your bed with a Spring and Mattress which will make sleep restful for you.
