Fredericton Bowlers.
Fredericton will be represented in the Maine and New Brunswick bowling league tournament at St. John in March by a squad of seven bowlers, who will be entered by the Palace alleys.

THE RING.
Carpenter and Fox.
New York, Feb. 17.—Intimation that it is impossible for William Fox to obtain Georges Carpentier's services at present in a world's heavyweight championship boxing contest with Jack Dempsey, was given last night by Wm. A. Brady, who declared he represented Charles C. Cochrane, English fight promoter. Mr. Brady added that he has contracts signed by Mr. Cochrane, Carpenter and Descamps, Carpentier's manager, giving the English promoter the rights to the French champion's services until Feb. 16, 1921.

Ottawa Tournament.
Ottawa, Feb. 17.—It was announced here last night that the Ottawa Boxing Commission had been awarded the Canadian championship finals and that they would be held in April, probably at the Rideau Rink. It will be a two-night tournament and the winners will go into the Olympic finals.

FOOTBALL.
Second League.
London, Feb. 16.—Tottenham Hotspurs defeated Huddersfield 2 to 0 in a Second League football game today.

THE RING.
In Second Round.
Montreal, Feb. 16.—Eugene Brosseau, Canadian crack middleweight, knocked out Jack Lunnery of Detroit tonight, here in the second round of a ten-round bout.

BASEBALL.
Good-Bye to 25 Cent Seat.
Baseball prices took a jump at the joint session of the National and American leagues in Chicago last week. The twenty-five cent bleacher seat, which has been an institution as old as the game itself, has disappeared forever, and the prices of the other seats have soared skyward.

The new prices adopted by both leagues are fifty cents, seventy-five cents and \$1, including the war tax. The prices of reserved and box seats are to be adjusted by the various clubs to suit local conditions.

The new prices will effect box office conditions at the Polo Grounds next season, for it will mean that all the lower stand chairs will be \$1 instead of eighty-five cents. The number of fifty-cent admissions will amount to only a few hundred, while the prices of the other bleacher seats will be seventy-five cents. The prices of the seats in the upper stands at the Polo Grounds will not be decided until a meeting of the Giants and Yankee officials is held in New York.

The "two-bit" seats in baseball have been doomed for a long time. The high cost of operation and the added demands of the players for high salaries have forced the club owners to raise the ante. There have been only a few quarter seats in the New York bleachers for several years, and Brooklyn has had a minimum of the popular-priced pasteboards. In other cities, however, particularly Philadelphia, St. Louis and Cincinnati, the quarter seats are numerous.

Baseball Briefs.
Comie Mack's butterfly men will head the parade of major league players to the training camps in Dixie. They will leave Philadelphia next Friday, Feb. 20, for Lake Charles, La. The regulars will follow a week later.

Manager Gavvy Cravath of the Philadelphia Phillies will be in the game only as a pinch hitter.

Among the Cincinnati players who have not yet signed contracts for the 1920 campaign are Hod Eller, Earle Naele, Ely Wingo, Billy Kopf, Heinie Grob, Eddie Roush, Jake Daubert and Walter Ruether.

Cleveland teams have trained at New Orleans in fourteen of the last eighteen years, and the 1920 team will also do its conditioning in the Crescent City. No other team has stuck to one training camp so consistently.

Fred Fulkner is still in the game. The human string bean, as he was dubbed when he was in the majors, is now the property of the Oakland club of the Pacific Coast League.

The first squad of Washington players will leave the Capital City unless certain river improvements are made, and the new bridge is the first condition of the deal.

A special number of the Alumni Monthly, just out, is devoted entirely to the proposed stadium for the city of Chicago, of the general plan for the arena here, and of the need for such a structure.

Why Stay Fat? You Can Reduce
The answer of most fat people is that it is too hard, too troublesome and too dangerous to force the weight down. However, in the difference between the Canadian and American methods, they are absolutely harmless, entail no exercise or exertion, and have the added advantage of cheapness. A large case sold by druggists at \$1.00 per bottle, is a sure way to obtain the desired result. The price is direct to the Marmora Co., 305 Woodward Ave., Detroit, Mich. Now that you know this you have no excuse for being too fat, but can reduce two or three inches in a week without fear of bad after-effects.

MINORITY REPORT IN DISPUTE OF RAILWAY PORTERS
(Canadian Press Despatch)
Ottawa, Feb. 16.—In a minority report the difference between the Canadian Pacific Railway and its sleeping car porters, which reached the labor department, Judge Fred H. McCreedy, representative on the board of conciliation, which investigated the dispute, recommends the reinstatement of those among the seven dismissed porters desiring of returning to the service. The other members of the board, Judge Colin Snyder, chairman, and E. U. Gillen, who represented the employers, found themselves unable to make any recommendations along these lines, owing to the nature of the contract between the railway company and the porters.

With regard to the question of wages, Mr. Bancroft recommends a straight advance of \$25 per month for each porter over the prevailing salaries which, he says, are \$75 and \$85 per month, according to the class of service. This would mean a minimum wage of \$100 and a maximum of \$110 per month for all sleeping car porters.

CHINA LEADS EUROPE IN USE OF WIRELESS 'PHONE.
Rome, Feb. 17.—The newspapers publish an article by Guglielmo Marconi, inventor of the wireless telegraph, which says that the United States heads the list of all countries in wireless inventions.

"A strange phenomena is that the most progressive countries of western Europe have not yet developed wireless telephones, while China, the most backward nation, daily uses the wireless telephone for communication between cities and the rural districts," Marconi says.

"Within this year, wireless telephones will substitute the present clumsy system with great economic advantage, suppressing the cost of the telephone lines and their upkeep. They will also do away with interruptions due to atmospheric causes."

The staff of the Provincial Hospital held an enjoyable sleigh drive to Spruce Lake last week. On the return to the hospital dancing was indulged in by the happy party.

Miss Gills and Alexander Stewart singing some solos.

You Are Judged By Complexion

Stuart's Calcium Wafers Are of First Importance. Those Who Are Troubled With Facial Pimples and Other Disfigurements.

If you have wondered how you can have beautiful, complexion the kind you have dreamed of, the answer is, use Stuart's Calcium Wafers and begin doing so without delay.

These wonderful wafers are for relieving the accumulation of all those impurities that linger in the skin and cause pimples, blackheads, liver spots, blotches, and such kinds of skin eruptions. The presence of skin eruptions is proof of nutrient poverty and to purify it is the purpose of Stuart's Calcium Wafers.

This fact has been demonstrated by hosts of women and men who realized that the presence of skin eruptions, due to such disfigurements, detracted from their usefulness in business, pleasure, society and their own self-esteem. And since Stuart's Calcium Wafers will relieve the skin of such kinds of blemishes, why have such imperfections?

You will find Stuart's Calcium Wafers on sale at 50 cents a box at all drug stores. Get a box today.

has starred in Chicago semi-professional ranks, and Heinie, mauler will attempt to beat Fred Merkle for a place on the Cub infield.

Still another of the minor leagues which disbanded because of war conditions is being reorganized. It is the Appalachian League, taking in cities of eastern Tennessee and western Virginia. In the old days this organization turned out some stars who made good in the majors.

Most of the veterans of the Detroit club have returned signed contracts for the coming season, though, in fact, to enable Hugh Jennings to put a strong team on the field if the season were to open tomorrow.

Tommy Leach has been released by Shreveport to the Tampa club of the Florida State League, and will manage the club that will represent the Florida city in professional baseball.

Manager Fred Mitchell will lead only a small squad of Cubs to the training camp at Peoria.

Chicago roster now includes only twenty-nine players and some of these may be let out before the season opens.

Al Demaree has discovered that the distance he must travel from the majors to the minors on a trip. Demaree goes from Boston to Seattle.

ATHLETIC.
Plans for Big Stadium.
Columbus, Ohio, Feb. 14.—While the real drive will not be staged for some weeks, preliminary plans for the stadium to provide Ohio state with a stadium to cost \$300,000 are fast being made.

Conditional upon the amount being raised by public subscription to the stadium project, the Ohio legislature this week made the structure a possibility by providing \$25,000 for it.

Chicago's new stadium will be just above the point where the stadium will be erected. The stadium will be the largest of its kind in the world.

Pearl White in "The Black Secret" Serial Drama

Suppose! Suppose a girl had reasons to pretend she was the widow of a dear friend's husband

Suppose she fell heels-over-head in love.

Suppose again that, although she was "dying" for the man of her heart to propose, every mention of her "widowhood" compelled her to weep for the "late departed."

Suppose a dozen other terrible tangles, and then suppose you could see dainty Marguerite Clark in a corkscrew comedy-drama, as this widow who wasn't.

You'd come, wouldn't you?—You bet!

ARABS' CLAIM TO BE FIRST AVIATORS
Abbas Ben Farnas, Celebrated Arab Mechanician, Said to Be the First Known Pioneer.

Beirut, Syria, Feb. 16.—The "Asie Arabe" has some interesting sidelights on the early history of aviation, so far as it concerns the Arab races. According to this paper, it was at the end of the second century, and the beginning of the third, that the Arabs began to be influenced by the Greeks and Romans.

It was in Baghdad that the mechanical arts first began to make their appearance. With the coming of these different studies, the genius of the Arabs became enlarged. It was at this period that the great Galip Haroun al-Raschid sent his famous clock to Charlemagne, Emperor of the Franks.

Abbas, an Inventor of Note.
Amongst the various crafts from which the Arabs drew their culture was that of the mechanic, that art of aviation. At the head of this section comes the celebrated Arab-mechanic Abbas Ben Farnas, the first known pioneer of the art which Blériot, Farman, and Guyon have since made famous.

JANITOR SWEPT DEAD BABY FROM STEPS INTO STREET.
New York, Feb. 17.—Policeman Edward Pointing on his way to the West Forty-seventh street station, stumbled across an object on the sidewalk at No. 306 West Fifty-fourth street. The last pediment proved to be a month-old baby boy, frozen to death and wrapped in a bed sheet.

The child was blue-eyed and weighed about twelve pounds. There were no marks or means of identification.

The janitor of the building in front of which the body was found, remembered sweeping it from the hallway into the street, believing it rubbish. This is the only clue the police have to work on.

LAWYER MEMORIAL.
Ottawa, Feb. 16.—The "Lawyer Memorial fund" designed to provide a
