NEW WATERFORD POWER HOUSES WRECKED

Twenty-five Company Policemen in Hospital or Homes Badly Beaten Up

GLACE BAY, N. S., June 12—Looting, destruction and incendiarism last evening and early this morning followed the riot at New Waterford yesterday, in which one miner was killed, others severely injured, and some 25 corporation police officers beaten almost into insensibility.

During the late hours of the night and early this morning four Dominion Coal Company's stores were looted, shop fixtures damaged, and thousands of dollars of foodstuffs and clothing taken or destroyed.

PROPERTY WRECKED. The wash house at No. 12 colliery, New Waterford, was completely destroyed by fire last evening, and this morning company officials had not yet made a survey of the damage, but according to the advice of one of their men at New Waterford, the damage might be sufficient to keep the plant practically down for several weeks.

MINES WILL FLOOD. Should this be the case, it will be impossible to keep several mines from flooding. Waterford power plant was principally used to generate electricity for the running of the pumps in the collieries of the Dominion Coal Company. Already collieries Nos. 6, 10, 22 and 24 are filling up and with pumping operations cut off completely for an indefinite period, these mines are in danger of being completely flooded.

Under the protection of the military and provincial police, the company, it is stated, intends to make immediate repairs, at New Waterford Lake, with a view to having pumping resumed with all the expediency possible.

At No. 10 colliery pickets forced the colliery officials to withdraw the fires and today the fans are stopped. The reserve store was raided about twelve o'clock and about \$3,000 worth of foodstuffs and clothing taken.

Chief of Police Dan Martin of Reserve arrested a foreigner named John Max Dommell, who is now in Glace Bay jail. Max Dommell had his hands tied by a bullet prior to his arrest. Another named John McDonald is also under arrest in connection with the Reserve break. Chief Martin was successful in dispersing the mob from the store, and placing a lock on the door.

Caillaux Informs Ministers of His Plan To Cut Budget Increases By Two-Thirds

Canadian Press Despatch. PARIS, June 12.—Finance Minister Caillaux today urged a policy of economy at a meeting of the French cabinet. The ministers promised him they would trim expenses to the utmost. M. Caillaux declared France must live within her income and must get that income by taxation alone, if she expected the world to have confidence in French finance.

M. Caillaux gave out an extract from a letter he had sent cabinet members in which he told them he could not accept their estimates of expenditures for their departments for next year. He wrote that he would reduce all their budget increases to one-third of the requested amounts and would have his own staff revise the estimates he regarded as excessive.

Announcement of the attitude of the Socialists in the forthcoming debate is awaited with keen interest. The more extreme members are reported to have declared their opposition to Caillaux, and their willingness to break with the government, while the others were not so intransigent if a way could be found of making clear that the party had no intention of abandoning its capital levy scheme, which Caillaux refuses to consider.

The radical Socialist group is said to have subordinated everything to the importance of voting the 1925 budget without further delay, reserving any new schemes for next year's budget.

Members of British Commons Carry On In Shirt Sleeves

By HERBERT BAILEY. LONDON, June 12.—The question whether members of Parliament should work in shirt sleeves, which arose in Ottawa during the recent heat wave, according to cables printed here, was answered in the mother of parliaments yesterday when, during a sweltering session in committee, members shed their coats and their chairmen doffed his hot and cumbersome wig. Of course this was only in the less formal committee sessions and no such lapse from dignity would be allowed while the speaker is in the chair.

Still it was a breakaway from precedent which is arousing a good deal of interest.

In many London offices, the clerks worked in their shirt sleeves. This piece of unconventionalism, generally considered a most desperate measure, was brought on by the temperature, which rose to 87, the highest here in nine years.

Lighted Cigarette Believed Cause of Disaster

Moonlight Sail Off Jersey Coast Comes to Fatal Conclusion

ATLANTIC CITY, N. J., June 12.—Five persons are believed to have been drowned last night, when 30 passengers, including the crew, of the pleasure cruiser, Grey, were forced to jump overboard, when the vessel became suddenly enveloped in flames while cruising eight miles off the coast. All but five were rescued by coast-guard boats.

All of the passengers were members of a social club. The flames are believed to have been started when one of them threw a lighted cigarette down a hatchway.

BODY RECOVERED. The body of an 18 year old girl, identified as Deborah McKnight, was brought ashore shortly after midnight last night by coast guards. A patrol boat is searching the seas in the vicinity of the accident for others who are still missing. They are: John Hannam, Northfield; Warren Dicks, Linwood; Joseph Wilson, Northfield, and Miss Martha Weis, Linwood.

The yacht was a total loss. Captain Curtis Lyle, of Northfield, one of those aboard the ill-fated boat told the story of the disaster as he recalled it.

"I started out for a moonlight sail on the Crystal, and were having a jolly time about six miles off shore. We were smoking and chatting. Then some one tossed the butt of a cigarette through a small hatchway into a room, where I think the gasoline tanks were. There was a terrific blast, like a crack of thunder banging right into our ears, the boat seemed to be heaved right up off the sea. It rolled from side to side, the sickening rolls that some one tossed the butt of a cigarette through a small hatchway into a room, where I think the gasoline tanks were.
