

PHYSICIANS' REPORT.

We have the honor to submit to the Lady Manager of the Protestant Orphans' Home the 38th Annual Report of the attending medical officer as follows :

The health of the children has been remarkably good during the past year ; in fact, few private families in the city have been as free from sickness.

There have been no cases in which the illness threatened to be of a dangerous character.

A small number have had some mild form of lung trouble. A few have had some of the more common forms of skin disease. There were some accidents of a minor character. The Home was not troubled with any contagious diseases.

The Medical Staff have the greatest pleasure in recording the uniform kindness and scrupulous attention given by Miss Wheelwright and her assistants to the children under their care, thus rendering our duties exceedingly pleasant.

JOHN McCONNELL, M.D.
