Northwest League Will Be Organized, Including Victoria and Vancouver-Financial Arrangement.

Professional baseball will be intro fuced here this summer. This is practically assured as W. H. Lucas, who is prominent in sporting circles all along the Pacific coast, has just completed a tour of Spokane, Helena, Butte, Bellingham, Vancouver and Victoria-the cities it is proposed shall enter teams in the new league and reports that his suggestion has everywhere been received with gratifying enthusiasm. Mr. Lucas thinks that such an organization can be made a financial success by means of an arrangement which he has submitted for the consideration of prominent business Briefly it is that the gate and grand stand receipts for each of the scheduled matches be divided equally between the contesting teams after the usual deducfund to defray incidental expenditures necessary. In this way, Mr. Lucas explains, the larger cities will help out the smaller ones, thus putting all on an equal basis as far as finances are con-

Mr. Lucas was in the city on Satur day. While here he interviewed A. T. Goward, manager of the B. C. Electric Railway Company; H. Wille, formerly manager of the Victoria baseball team; hotel, and other prominent citizens. All agreed that his proposition is the best that has been submitted in favor of the ntroduction of professional ball up to the present. As it puts Victoria on the same standing financially as other teams there are no greater risks in entering than the latter undertake, while the advantages, outside of the number of exseason, would be numerous. For these reasons Mr. Lucas received every encouragement, having secured several un-qualified promises of support.
