INSURANCE MEN DEMAND REFORM.

National Association of Life Underwriters Resolve

That Perpetrators of Insurance Crimes Must Be Punished and Wrong Practices of Companies Exposed.

HARTFORD, Conn., Sept. 19.—Prior to the opening of the second day's session of the National Association of Life Underwriters today there was much informal discussion among the delegates over the probable action of the executive committee in regard to the resolution calling for condemnation of irregular insurance practices and the punishment of the guilty. This resolution, which was introduced by J. Raleigh of St. Louis, aroused a flutter of excitement among the delegates and it was referred to the executive committee only after various objections had been made and arguments offered. It read as follows:

"Whereas the public press, official committees, life insurance departments and executive inquiries have disclosed methods and practices in the management of some life insurance companies, which if not criminal in their nature, appear to be grossly irregular and in violation of the principles of the trust involved and that, whereas, these disclosures threatened to create, in the minds of uninformed, suspicious, regarding the integrity of management of all life insurance companies and to bring the business into general disrepute, be it,

Resolved by the National Association of Life Underwriters in convention, that we, the members of this association who have been chiefly instrumental in inspiring confidence in the minds of policy-holders and in building up the magnificent structure of life insurance, owe it to ourselves and to those who have reposed confidence in us to oppose those influences which would tear it down; to demand that, if crimes have been committed, the criminal shall be punished and that those who have violated their trust shall be deprived of their trusteeship. We urge and insist that we are not willing to support in the field, misconduct in the home office. We oppose concealment or evasion and demand such publicity as will lead to a correction of abuses wherever they may be found. The convention was late in assembling today.

BIG ATHLETIC MEET FOR FALL CARNIVAL

A meeting of the executive committee in charge of the fall carnival will be held this afternoon to further discuss the details of the scheme. It is now considered quite probable that the Fall Carnival of St. John will be held in the city, that a portion of his squad will come here in an assured fact. The railways and steamboat lines have promised all the assistance they can give and the merchants seem inclined to help in every way. There are, however, several matters that have as yet to be discussed and that have an important bearing on the matter. There is a movement on foot to hold a big athletic tournament during Merchant's Week. The intention is to bring here several New York and Boston professional athletes, and also secure the best amateurs in the province.

INJUNCTION AGAINST CUSHING LIQUIDATOR.

May Examine Books, But Can't Touch the Property—Company Given Opportunity to Appeal to Supreme Court

Before Judge Landry this morning the case of the Cushing Sulphite Co. came up upon the summons served on the liquidator to show why a stay of proceedings should not be granted.

M. G. Teed read two affidavits on the behalf of the company, Mr. Barnhill read an affidavit of Mr. Vroom's. Dr. Pugsley said that he would like to know under what authority Mr. Teed is now acting or on what grounds his honor could grant such a stay of proceedings. Every moment is precious. As Judge McLeod has called a meeting of the shareholders on Saturday, Dr. Pugsley objected to H. A. Powell being heard on behalf of Capt. Partington, as his client is not a party to the suit. Dr. Pugsley said that in his opinion the object of Capt. Partington and the others was to freeze out Mr. Cushing and the smaller shareholders. He had a right to appeal to a higher court, and it would be absurd to give them the right to appeal without staying proceedings, because otherwise the business could be all wound up before the appeal could be heard. He then asked for permission to appeal, but his honor said that he would rather he would get his authority from Judge McLeod.

Dr. Pugsley said that the Winding Up Act, section 18, only gave authority to creditors or contractors of a company to ask for a stay of proceedings. "My learned friend says there is an inherent power to ask for a stay of proceedings and quotes a case in equity in equity this power is expressly given by the statute."

ELEPHANTS DELIVER MAIL IN NEW YORK.

Freed Two Tons of It From a Trap in Time to Catch the Train—Street Car Collision.

NEW YORK, Sept. 19.—But for the strength and courtesy of four huge elephants a two ton batch of mail, stuck in the mud at Sixth avenue and Forty-second street, would have missed its train at the Grand Central depot last night. The trouble began when a large mail wagon, loaded to the top, swung down Sixth avenue and ventured a sharp turn at the corner, where street repairs had left a strip of soft earth turned to sticky mud by recent rains. A new driver employed in place of a striker was on the wagon and was accompanied by a policeman. He urged his horses into the trap and the wheels sank to their hubs. A crowd gathered and broke three heavy ropes in their efforts to help. Then the police made a happy thought. He sent a messenger to an amusement house nearby and asked for the services of the performing elephant. Four were hurried to the scene in charge of their keepers. They were harnessed to the sides of the wagon and jerked it out of the mud with utmost ease while the crowd cheered.

Early in the evening a crowded Madison Avenue electric car crashed into a large mail wagon at Fifteenth street and Union square, overturning the vehicle. The strike breaking driver and a policeman by whom he was accompanied were thrown into the street. Both were severely injured. The motor man was arrested.

Clever Burglar Now in a German Prison.

Will Be Brought to American Jail Whence He Escaped Long Ago—Stole \$7,000 From Canadian Bank.

NEW YORK, Sept. 19.—A New York state detective will sail for Germany within a few days to bring back to this country Henry F. Hardy, who for the last thirteen years has been the inmate of German prisons.

Hardy is to be brought back to serve an unexpired term of twelve years in the Clinton prison, from which he escaped in 1890. He is declared to be one of the most clever bank thieves ever known in this country. After his escape he is alleged to have robbed two Canadian banks of \$7,000 and was next heard of in Germany living the life of an "American Millionaire" as he was called, at a fashionable hotel in Frankfurt on Main.

A Baden-Baden banker recognized him as a man who had stolen from his bank cash to the amount of \$24,000. He was at once imprisoned by the German authorities and his time is now expiring.

Since Hardy has learned that he would be brought back he has written letters to the state superintendent of prisons asking that he be allowed to remain in Germany. The authorities have refused to consider his petition.

SAVED FROM SEA IN BOAT MADE OF SAILS.

NEW YORK, Sept. 19.—How Captain John Hall and the crew of three men of the seventy ton schooner Martha saved themselves after that vessel had capsized in the Bahama Bank, building a canvas boat and sailing and paddling for two days until they landed on Man of War Cay, was first learned yesterday in this city by a ship broker, who received a letter from Nassau, N. Y. The letter told how the men had narrowly escaped from drowning in the breakers of the coral reefs.

Loaded with lumber, the Martha left Tampa for the south side of Cuba, and the weather held good until off the Bahama Bank. Then, on August 14, a tropical hurricane struck the schooner, and before sail could be shortened she was on her beam ends. As she went over the yawl boat at the davits astern was smashed by a big sea and washed away. Captain Hall and his crew clung to the upper side of the vessel for nearly twelve hours until the seas moderated.

Then out of the forest the men built a canvas boat, stiffening the sailcloth with strips of lumber. It was more than two days before the little craft was in a shape to make a venture ashore fairly safe. For two days more they battled against adverse tides and breakers until on August 19, when they made a landing on Man of War Cay.

There they received food and shelter, and when Captain Hall had recovered from the exposure he set off for Man-of-War Cay, where he procured the help of two small fishing vessels. With these, at the time of the letter, he had started out to find and save his drifting vessel.

ONE KILLED, 26 INURED IN DOUBLE COLLISION.

RENO, Nev., Sept. 19.—One man was killed and twenty-five injured in a head on collision of two freight trains on the Southern Pacific Railroad followed by the rear end collision of two passenger trains at a point nine miles west of Beowawe last night. The wreck is said to have been caused by the engineer of one of the freight trains disregarding his running orders. An effort was made to stop two incoming passenger trains. The first one was brought to a halt but a second following closely behind plunged at full speed into the first section. Physicians and nurses and also three wrecking trains were hurried to the scene.
