### The Sunday School

BIBLE LESSON.

Adapted from Hurlbut's Notes. Review of Third Quarter. Lesson XIII. Sept, 26th.

GOLDEN TEXT.

Let your light so shine before men, that they may see your good works, and glorify your Father which is in heaven, Matte 5:16.

HINTS TO THE TEACHER. INTE TO THE TEACHER.

1. All the PLACES prominently named in these lessons are located around the Algean Sea. If a map could be drawn upon the blackboard or on a sheet of manills paper, embracing the western peninsula of Asia Minor and the eastern half of Greece, the places might readily be indicated upon it, and the events connected with each place might be named. Eight pupils in turn might point out the places (each naming one), and might state the facts of the lessons associated with each place. I. Troas, the site of old Troy, in Asia Minor. From this place Paul and Silas started on their voyage to Evrope, taking with them Timothy and Luke (Lesson I). 2. PHILIPPI, in Macedonia (Lessons I, II). Here was planted the first church in Europe, begun with the conversion of Lydis; and here Paul and Silas sang in the prison, were freed by the earthquake, and told to their jailor the way of salvation. 3. TRESSA-LONICA, in Macedonia, was the place where Paul preached in the synagogue and won many disciples among the Gentiles, but was driven out of the city by a Jewish mob (Lesson III.) To the church in this city were written his two earliest episites, First and Second Thessalonians (Lesson VI). 4. BREAR, in Macedonia, was the home of the noble Ribbe students who heard Paul preach, searched the Scriptures diligently, and believed in Christ (Lesson III). 5. ATHENS, in Greece, was the most illustrous city of the ancient world, the home of ilterature, art and philosophy. Here Paul preached for nearly two years, working meanwhile as a tent-maker (Lesson VI). 6. CORINTH, in Greece, was the city of commerce, as Athens was of learning. Here Paul preached for nearly two years, working meanwhile as a tent-maker (Lesson VI). 7. this church two of his letters were addressed, First and Second Corinthians (Lessons VII, VIII, X). 7. FEHERSOS, in the province of Lydia, was the greatest city of Asia Minor. Here was the aplendid temple of Diana, one of the world's wonders. Here Paul labored for three years and established a church, whic

this lesson we observe that the worker is tactful in method. He approaches the wise men of Athena in works that blend compliment and rebuke, praising them for their reverence while showing them for their reverence while showing them the folly of idolatry. Lesson V. Paul's ministry in corning for the salvation of both. Lesson VI. Working and waithly for the salvation of both. Lesson VI. Working and waiting for christ, ready for his appearing, and awaits his Lord's coming, not in idleness, but in constant work. Lesson VII. Abstrained for Christ, ready for his appearing, and awaits his Lord's coming, not in idleness, but in constant work. Lesson VII. Abstrained for the salvation of christian own testing the salvation of the salvat

To Kill the Cutworms.

A good remely for killing out the cut worms in the garden is to make up a mixture consisting of a quantity of bran and cornmeal moistened with water to which is added a little Paris green and a little molasses or sugar to give a sweetish taste. It is the Paris green that kills the worms, It is the Paris green that kills the worms, and this should be very thoroughly mixed with the brain so as to have a uniform mixture. A spoonful of this mixture should be placed near the plants just before night on the day the plants are set out. The cutworms work at night, and will be killed by eating of the poisoned mixture. It is much better, however, to place the mixture about in various parts of place the mixture about in various parts of place the mixture about in various parts of a field a few days before planting, as it will then kill off the worms before any damage is done.—[The Homestead.

Koumiss.

A very good receipt for koumiss, which will be a desirable and refreshing

drink for invalids, is as follows:

Take a quart of new milk; if it is still warm from the cow, it will be all the better. Add a tablespoonful of home-made yeast and a tablespoonful of sugar, dissolved in a little hot water. Stir the koumiss thoroughly and bottle up tightly in a quart bottle. Fut it away in a warm place of about eighty degrees for five hours. Then remove to the refrigrator and leave it there for twenty four-hours. At the end of that time it will be ready for

The crisis in the grain trade in southern Russia has been enhanced by the influx of half a score of Hungarian commissioners who are purchasing wheat at any price at

ROME.

TIT. As we look through these lessons we find in each one a trait of THE CHRISTIAN WORKER. Lesson I. FIRST CONVERTS IN RURDER. The worker for Christ is obedient to the Spirit—silent where the Spirit forbids him to speak, and ready to enter new fields when the Spirit points out his way. Lesson II. PAUL AND THE PHILIPPIAN JAILOR. The worker for Christ is patient in trial—enduring persecution, uncomplaining under violence, singing songs in the night and always ready to point a soul in the way of salvation. Lesson III. PAUL AT THESSALONICA AND BEREA. He is persevering in labor—when driven out of one city working anew in another, and never remitting his diligence in the work of the gospel. Lesson IV. PAUL PREACHING IN ATHENS. In A majority of the great grain exporters are in a precarious position and a large number of smaller firms have collapsed. One large foreign export firm alone has lost 3,000,000 roubles on the fulfillment of contracts made by it in the expectation that there would be a middling drop, With the exception of barley all the cereats are as light as they are scant, while the fact that the government has made extrordinary purchases of grain for food reserve as a precaution against another famine has increased the scare.
