TRACK LAYING ON G.T.P. IS PROGRESSING

Western Section Rapidly Advancing—Mixed Train Service Commenced on Branch Lines.

Winnipeg, Oct. 5.—Track laying on the main line of the G. T. P. Railway is proceeding towards Prince George at a rapid rate. Steel is now at mile 1,200 from Winnipeg. A short check was experienced at mile 1,190, where the railway for the second time crosses the Fraser River. Track laying was held up for a short time while the steel bridge across the Fraser River was completed. This obstacle has now been successfully passed and the track laying machines are steadily pushing their way forward. The Fraser River is crossed for the third time about forty miles west of the second crossing, but bridge here will not be allowed to delay track laying, temporary trestle being erected to get the steel across the river. The steel bridge will be put in place shortly after, and towards the end of November the track should reach Prince George.

Raith, a station on the G. T. P. Railway, 57 miles west of Fort William, has been made a divisional point for operating convenience, and engines and crews on the G. T. P. Railway will, from now on, be changed there.

One hundred and five miles of branch line in the Province of Saskatchewan have just been opened for traffic with the inauguration of mixed train service on a part of the Biggar-Calgary branch. This line has been completed to Loverna, on the boundary line between Saskatchewan and Alberta, 105 miles from Biggar. Mixed trains will leave Biggar on Tuesday and Friday, 6.00 a. m., arriving at Loverna 6.30 a. m. on same day. East bound train will leave Loverna at 6.00 a. m., on Wednesday and Saturday, arriving at Biggar 6.30 p. m. the same day. The territory through which this line runs is a very rich one, and heavy shipments of wheat are looked for in the next few weeks. Promising towns have shown large growth at Dodsland, Coleville, Dewar Lake and Loverna.

Track laying on the Regina-Moose Jaw and North Westerly branch of the G. T. P. Railway has just been completed to mile 91, a short distance beyond Mawer, Saskatchewan, fifty miles west of Moose Jaw, and within a few miles of the Saskatchewan River. Permission has been granted by the Board of Railway Commissioners for operation of this line, and as this is one of the greatest grain producing lines in the west, a very heavy traffic will move this season.

On the Tofield-Calgary branch of the G. T. P. Railway, ballasting has been completed into Calgary, and first-class passenger service can be established as soon as terminals at Calgary are completed. Owing to the solid construction of this line, the service between Calgary, Tofield and Edmonton will be particularly good.

AMERICAN SPORTSMEN HAVE EXCELLENT LUCK

Hunting Parties on Return from Woods Report Game Plentiful — Many Moose Shot Since Season Opened

American sportsmen hunting in New Brunswick this fall seem to be having excellent luck. After a successful hunting trip in the Bartibogue woods on the North Shore, a party of four hunters, consisting of Fred Danker and John Scales of Albany, N. Y., W. I. Pearson of Cromwell, Conn., and Romanie Irving of New York, passed through the city on their way home on Saturday. Each of the party secured a moose and they also shot a caribou and a bear. They were well pleased with their trip and plan on returning next fall.

Other successful American hunters who came out of the woods last week were Charles E. Beans and H. M. Gale of Boston. They were shooting on the Miramichi and secured two moose and one caribou. E. H. Poole of New York who was shooting on the North Shore secured a fine moose.

Another American party, R. Oenslager and W. S. Ray, of Pennsylvania, also shot two moose on the North Shore.

SOCIETY MAN HELD IN MYSTERIOUS CASE

HERMANN OELRICHS.

Miss Lucille Singleton, who was found in a wrecked automobile near Broadway, New York city, cut by glass from the broken windshield, it was supposed, stated to police detectives that she had not been cut by broken glass but that she had been stabbed.

She said that she had been riding with a man she knew as "Billy" Creighton, and the police declared that the wrecked automobile belonged to Hermann Oelrichs, well known in society.

Within a few hours after the young woman made this statement Mr. Oelrichs had been formally arrested on a charge of felonious assault. There is considerable mystery surrounding the entire case.

FUNERALS.

The funeral of Mrs. Susan McInerney took place Saturday from her late residence 119 Queen street, where burial service was read by Rev. W. Camp, to the 12.40 train for St. Martins. Interment took place there Saturday afternoon.

The funeral of Miss Nellie Esler took place Saturday afternoon at 2.30 from her parents' residence, South Bay. There was a very large attendance and the floral offerings were so numerous they quite filled a large barouche. The body was first taken to St. Rose's Church, where Rev. Charles Collins read the burial service. Interment was in the Sand Cove cemetery.

WEDDINGS.

Keenan-Quigg.

A quiet marriage was celebrated on Tuesday the 30th day of September, at St. Thomas' church, Red Bank, N. B., when James Keenan and Elizabeth Quigg, of Fairville, St. John, were united in marriage by Rev. Fr. Duffy. Witnesses were Michael Hyland and Delina Hyland.

Making Good Progress.

Good progress is being made with the work on the sugar refinery. A large part of the iron work on the main building has been put in place up to the fourth story, and the brick walls are rising rapidly. The work of refacing and practically rebuilding parts of the Ballast wharf is rapidly nearing completion. Owing to the small production of bricks at St. John the contractors for the refinery have placed an order for one and a half million bricks in Nova Scotia.

CROXONE SAVES ELDERLY PEOPLE FROM KIDNEY AND BLADDER MISERIES

Sleep Disturbing Bladder Weaknesses, Backache, Stiff Joints, Rheumatic Pains Disapear After Few Doses are Taken

While people along in years are naturally more subject to weak kidneys they can easily avoid the tortures of backache and rheumatism, and be saved the annoyance of getting up at night with disagreeable bladder disorders.

Croxone relieves these conditions by promptly reaching the cause and making the kidneys filter the blood and sift out the poisonous acids and waste matter that cause these troubles.

It soaks right in and cleans out the stopped up, inactive kidneys, dissolves and drives out the uric acid and other poisonous impurities that lodge in the joints and muscles and cause rheumatism. It neutralizes the urine so it no longer irritates the bladder, overcomes unnecessary breaking of sleep and helps the kidneys and bladder regain health and strength.

It matters not how long you have suffered, how old you are, or what else you have used. It is practically impossible to take Croxone without results. It starts to work the minute you take it—the first time you use it. An original package of Croxone costs but a trifle, and all druggists are authorized to return the purchase price if it fails in a single case.

What Cures Eczema?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D. Prescription as made in the D. D. D. Laboratories of Toronto, can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Drop into our store today and let us tell you more about D. D. D. Ask us also about D. D. D. Soap; it helps.

Valuable Discovery in Complexion Beautifier

(From The Home Maker.)

Because of its peculiar power of absorption, also because it serves every emollient purpose, ordinary mercolized wax is perhaps the most valuable complexion beautifier discovered within recent years. If one uses this she needs no toilet cream. Some use powder afterward, but this is not necessary. This rule for applying mercolized wax has been found very satisfactory:: Wash the face with warm water, drying lightly. Before thoroughly dry, but don't rub it in. The favorite way is to use before retiring, oughly dry, anoint face and neck with the wax, but don't rub it in. The allowing it to remain on all night and washing it off in the morning with warm water. All druggists have this wax in original one ounce packages.

For the removal of a wrinkled or flabby condition there's nothing better than to bathe the face in a solution made by dissolving 1 ounce powdered saxolite in 1-2 pint witch hazel. Beneficial results are quickly noticeable.
