

CONSIDERED WM. R. HEARST THOROUGHLY GERMANOPHILE

Name of Notorious United States Publisher Figures in Evidence Given at Treason Trial of Bolo Pasha—Charles Bartelli, Defending Hearst, Says He Was Always a Friend of France—Bolo Met Yellow Journalist in New York.

Paris, Feb. 8.—At today's session of the court-martial of Bolo Pasha on the charge of treason, several witnesses testified regarding the visit of the accused to the United States in 1916. The first witness was Madame Buzenet, who told of attending a dinner in New York in company with a French captain named Verdier and Adolph Pavent, former head of the Amsinck Bank and Bolo Pasha.

At the opening of the session Col. Voyer, the presiding officer, announced that the court would be cleared if yesterday's scenes were repeated.

Hearst's Name Mentioned.

Lieut. Prevost of the French censorship department, testified that articles praising William Randolph Hearst repeatedly had been taken to Senator Humbert's paper, Le Journal, in which Bolo Pasha purchased an interest, by Charles F. Bartelli, the head of the Paris Bureau of the International News Service, who accompanied Bolo to America and introduced him to Mr. Hearst.

The lieutenant said his attention had first been called to Bolo Pasha by an eulogy of Mr. Hearst printed in Le Victoire, which also described Bolo Pasha's relations to the American press.

Censor Shuts Down.

Lieut. Prevost said he had been commissioned to translate several articles from the Hearst newspapers after which the French censor had decided not to allow any further articles laudatory of Mr. Hearst to appear, because he considered him thoroughly Germanophile.

Charles Bartelli began his testimony by making a protest at the report that President Voyer of the court-martial had said Mr. Hearst was Germanophile.

"Mr. Hearst is not and never was Germanophile," declared Bartelli. He always has been a friend of France.

WILL RUSH ALL GRAIN TO MARKET

Director General McAdoo Takes Steps to Move Corn Crop and Other Grain and Grain Products—Farmers to Be Urged to Forward Supplies.

Washington, Feb. 8.—Transportation priority for grain, flour, cornmeal and other grain products to the middle and western producing states was ordered today by Director-General McAdoo as a means of hastening to market all grain, and particularly the vast accumulated stores of soft corn.

This corn, full of moisture as a result of last year's growing conditions, composes as much as forty per cent. of the stocks in many sections, and is threatened with rotting in many sections of the last few days unless rushed to elevators and dried.

To Supply Mills.

The order is intended also to insure adequate shipments of grains to mills to fill allied orders. The situation was discussed yesterday at a conference between Director-General McAdoo and Sir Richard Crawford, commercial attaché of the British Embassy, who expressed fear that bad transportation conditions of recent weeks in the United States would seriously interfere with the allied food programme unless special efforts were made to hasten grain to seaports.

Thousands of box cars will be used for the grain movement and consequently will be withheld from industrial shipments. Unofficial preferential orders have been in effect throughout the western states for several days, and the quantity of grain hauled has been far greater than in the corresponding period of last year.

More Cars.

In addition to supplying more cars and giving preferential movement, railroads were ordered to have their station agents in rural communities, and their traffic agents, go direct to farmers and explain the necessity of prompt loading and movement of their grain stocks. For a week or perhaps more an educational campaign will be conducted by every agency of the roads to stimulate the movement of grain from farm and local storage houses. The preferential movement will be discontinued as soon as the emergency is past.

TRADITIONAL COURAGE.

"Pop, are the Crow Indians harder to fight than any other kind?" "Not that I know of. What makes you think so?" "Well, pop, a crow never shows the white feather, does it?"

MANY ALLEGED DYNAMITERS INDICTED

Fifty-Five Men Held in Connection with Plot to Blow Up Residence of California Governor—I. W. W. Members Involved.

Sacramento, Cal., Feb. 8.—Forty-six persons have been indicted in connection with a plot to blow up the Governor Stephen's residence, nine others reside in or about San Francisco.

Separate indictments charge William Hood and G. P. Voeller, named in the conspiracy indictment with illegal transportation of dynamite. These men were arrested in connection with the attempted dynamiting. Soon afterward I. W. W. headquarters were raided and before the police were through fifty-five men had been arrested.

General charges in today's indictments included alleged obstruction of the selective draft act, causing strikes and encouraging sabotage. Bail was fixed at from \$2,500 to \$5,000.

Frank H. Little, lynched at Bates, Mont., last year, was named among others as persons with whom the men indicted here had entered into conspiracy.

Frank Reilly, wanted in Chicago in connection with the I. W. W. cases, was indicted. He had been in custody here. Louis Tori, under indictment in Chicago also was indicted here.

Nest of Plotters.—Washington, Feb. 8.—The investigation was a direct result of the recent attempt to blow up the governor's residence at Sacramento. Agents discovered a nest of plotters, whose activities extended throughout the Pacific coast territory. In addition to blowing up factories, in addition to that section of the country had planned to form a strike among workmen engaged in war industries, destruction of fruit trees and crops and to a lesser extent the destruction of ships being built in yards along the coast.

She said he told her, on his arrival from America: "I'm glad to be safe in France. I was afraid the Germans would have me torpedored."

ONTARIO PLANS TO PROMOTE ECONOMY IN ITS PURCHASES

Toronto, Feb. 8.—When the legislature met for business this afternoon, Hon. T. W. McGarry introduced a bill to provide for the appointment of a general purchasing agent for Ontario. In explaining the purpose of the bill, Mr. McGarry said that the custom since confederation had been for each department and sub-department to make its own purchases. During the year the government had been investigating systems of purchase not only in the Dominion but in the United States and of such corporations as the C. P. R.

The proposed change would promote economy and to a large extent do away with patronage. It was intended to get the best men available. It might be necessary to pay a high salary and he assured the house that no appointment would be made until the right man was found.

The minister explained that all purchases would be by tender, with certain necessary exceptions. The house was only in session for fourteen minutes and adjourned till Tuesday afternoon in accordance with the previously announced voluntary compliance with the fuel saving order.

WANT IDLE MEN SENT TO FARMS

Washington, Feb. 8.—Enrollment and agricultural training of "unemployed and idle men not liable to the draft, but capable of doing farmwork" was proposed in a bill introduced today at the request of the department of agriculture by Senator Jones.

Its purpose is to replace farm work called into military service and proposed that the "unemployed and idle men," designated should be assembling in government training camps in each state, for a farm course of six weeks.

DRASTIC ACTION TO COPE WITH FOOD SHORTAGE URGED

Senator Smoot Wants Monthly Fast Day to Conserve Food Supply—People of Whole Earth on Strictest Sort of Rations and Many Are Actually Suffering from Hunger.

Washington, Feb. 8.—Drastic action to cope with the food shortage was urged today in the Senate. Senator Smoot urged a monthly fast day to conserve the food supply.

Senator Borah declared the situation not due to actual shortage, but to the transportation and labor situation. "If the draft law is executed as it was the last time," said he, "we are going to see a breakdown in farm production."

Senator Jones of Washington asked if every person in the country should not be drafted to do the work best suited to them.

"If the war keeps on that certainly will have to be done," said Senator Smoot.

Strict Rations.

"Today we find the people of most of the nations of the earth on the strictest sort of rations and many are actually suffering from hunger," said Senator Smoot. "We have in our own country a food administration asking us."

Your Five Hundred Muscles.

The five hundred muscles in the human body depend on pure rich blood for their health and contractile energy which is the ability to labor. If they are given impure blood they become enfeebled, the step loses its elasticity, the arm its efficiency, and there is incapacity to perform the usual amount of labor.

What a great blessing Hood's Sarsaparilla has been to the many thousands whose blood it has made and kept pure and rich! This medicine cleanses the blood of all humors, inherited or acquired, and strengthens and tones the whole system. It is the best food to eat to get you back to health. No substitute for it is like it.

FURTHER CHARGES OF MISTREATMENT ON SHIPBOARD

Lieut. Quinney Receives Many Letters from Returned Soldiers and An Investigation is On.

Ottawa, Feb. 8.—Bitter denunciation of the treatment, on shipboard, of invalided Canadian soldiers returning from overseas, is contained in letters pouring in upon Lieut. John Quinney, who recently took up the cudgels in behalf of the men. Official investigation of his complaint has been promised.

Lieut. Quinney, who is himself a returned soldier, twice wounded, and recently sent back to Canada as medically unfit, has a number of letters from returned men, bearing out his contentions. These letters will be presented before a board of inquiry when the investigation is undertaken.

Widespread Plot.

Washington, Feb. 8.—Industrial Workers of the World on the Pacific coast have planned wholesale destruction of industries and shipping and other interference with prosecution of the war, it was said today at the department of justice. The indictment of 55 at Sacramento by a federal grand jury is the result of recent investigations by government agents who discovered that leaders were plotting systematic sabotage.
