

## THE WEATHER

Toronto, April 20. — Since last night an important disturbance has developed over the Middle Western States and thunder showers have spread far in advance of it into Ontario. In Quebec and the Maritime Provinces the weather has been fair and milder, while over most of the West it has been unsettled with showers.

Forecast — Fresh westerly winds, fair and milder.

Northern New England — Partly cloudy Thursday, probably showers in Northern Vermont; Friday showers and cooler; fresh southwest and south winds.

## AROUND THE CITY

**TO MEET IN MONCTON.** — The Board of Trade has been notified of a meeting in Moncton on Friday evening, April 22, to talk over the Maritime Railway situation.

**SEIZED CASE OF LIQUOR.** — A case of whiskey addressed to a former resident of the city, who is now in Boston, was seized by the local inspectors at one of the express offices yesterday.

**BIKE STOLEN.** — A bicycle belonging to one of the Western Union messenger boys was stolen from in front of the office about one o'clock this morning. The theft was reported to the police.

**NORTH END FIRE.** — An alarm was rung in from box 124 at a little after 6 o'clock last night for a fire in a house owned by Gang Anderson on Adelaide Road. Little damage was done before the fire was brought under control.

**PAY DAY AT CITY HALL.** — The semi-monthly payment of salaries was made yesterday morning at City Hall. The following amounts were paid: Police, \$2,118.35; market, \$232.70; fire and salvage corps, \$2,710.83; sundries, \$1,518.49; ferry, \$1,460; official, \$2,222.86.

**CHILD DEAD.** — The death of Gordon L., infant son of Mr. and Mrs. George Adams, 46 Princess Street, West End, occurred yesterday morning. Besides his parents, Public Hospital. Besides his parents, he leaves one sister, Gladys. The funeral will be held on Friday afternoon from his parents' residence.

**HORSE RESCUED.** — A horse owned by E. G. Webb, 34 Adelaide Street, fell through the steamer Chumley wharf at Indian town yesterday afternoon about four o'clock. The fire department was called out from box 122 to release the animal from its precarious position. The horse was uninjured, although its harness was badly damaged.

**SLIGHT COLLISION.** — A slight accident occurred opposite the Dufferin Hotel, Charlotte Street, yesterday morning, when the fender of a Prince William Street car caught the rear wheel of a Ford, turning the latter around so that one of the front wheels was on the sidewalk. As both the car and the automobile were moving slowly there was no damage done to the automobile, and the fender of the street car was only slightly bent.

**LECTURE FOR HEALTH WEEK.** — At the summer conference of the physical instructors of the Y. M. C. A. at Lake Umbagog, Ont., last summer, all pledged themselves to co-operate in all health programmes in their community. The Y. M. C. A. proposes co-operating with the health authorities during Health Week by having Dr. Bates, an eminent lecturer of Toronto, address the Y. M. C. A. High School boys on Social Hygiene.

**TENDERS NOT AWARDED.** — Members of the New Brunswick Electric Power Commission met yesterday morning here and opened tenders for the construction of the power house at Musquash. No decision was arrived at as to the granting of the contract. Hon. Dr. E. A. Smith presided and there were also present C. O. Ross and L. A. Dugal, members, and D. Sheppard, of Toronto, consulting engineer. Dr. Smith said that the contract would likely be granted today.

**SUCCESSFUL SALES.** — The Women's League of St. David's Church held a rummage sale at 233 Union Street, yesterday. It will be continued for two more days. The proceeds will be devoted to the church building fund. Mrs. W. J. Bingham, convener, was assisted by Mrs. George Shaw, Mrs. Robert Mays, Miss McColligan, Mrs. W. Simonds, Mrs. Douglas Macdonald, Mrs. W. W. Brown, Mrs. Sidney Kerr and Mrs. Brown.

A successful rummage sale was held yesterday morning at the auspices of St. Monica's Catholic Ladies' Bazaar Society, at the corner of Brunelles and Brunswick Streets. Mrs. Richard O'Brien was general convener, with Mrs. Atkinson and Mrs. L. Comeau as sub-conveners, who were assisted by ladies of the society.

"Blanch milk with lime cream is apt to be thicker, watered milk or milk with part of the cream removed, or both. If your milk is like this, change your milk-maid, and tell him why, and inform your health authority."

N. B. Herald Week, April 24-30.

## Dr. Walker Honored By Brother Masons

Unveiling and Presentation of Portrait by Albion Lodge No. 1 F. & A. M.

At a special meeting of Albion Lodge, No. 1, F. & A. M., held at Masonic Hall, Gormley Street, last evening, there was a gathering of Masons that taxed the capacity of the hall to do honor to Rt. Worshipful Brother, Thomas Walker, M.D.

The purpose of the special meeting was for the unveiling and presentation, on behalf of the members of the lodge, of a portrait of Dr. Walker, besides doing him special honor. The portrait, done in oil, is of three-quarters length of the subject, and is a beautiful, impressive piece of work by the artist hand of V. A. Long, of Vancouver. It is perfect in detail and workmanship, and so life-like one can almost imagine the subject stepping from the frame to lodge room.

Wednesday, the night of the presentation, marked the 40th anniversary of Dr. Walker's raising to the sublime degree of a master Mason.

The unveiling and presentation was done by Deputy Grand Master, Rt. Worshipful LeBaron Wilson, who was accompanied by officers of the Grand Lodge and by Past Grand Masters, J. G. Forster and H. S. Bridges. In the presentation, Deputy Grand Master, Rt. Worshipful LeBaron Wilson eloquently referred to the work done by Rt. Worshipful Brother, Dr. Walker, in his teaching and being ever true to the tenets of the order.

Dr. Walker acknowledged the presentation in a speech full of feeling, briefly reviewing the work of a free mason, the progress it had made and the power it was for good. He was followed by Past Grand Masters Forbes and Bridges and Past Grand Chaplain Canon Armstrong, who paid a tribute of respect and admiration for the brother being honored by others of the great fraternity.

Letters and telegrams of congratulations were received from Past Grand Master J. T. Whitlock, of St. Stephen; Rt. Worshipful Brothers, J. Vrooman, of St. Stephen, and Past Grand Master, J. King Kelly, of this city.

## Honored Career As Mason

Rt. Worshipful Brother, Dr. Thos. Walker received his E. A. degree in Albion Lodge, No. 1, March 3; F. C. and M. M. degrees May 6, 1871, and having passed through several offices was installed Worshipful Master of the lodge in the years 1877, 1878, and subsequently in the years 1896, 1897. He was elected and served as Grand Master of the Grand Lodge of New Brunswick in the years, 1893, 1899, 1891, 1892, 1893, 1894, 1897, 1898.

He is also a member of Canada Lodge, London, Eng., Highgate Lodge, No. 3, St. John; Ashlar Lodge, No. 36, McAdam, N. B. and Edinburgh Lodge, No. 1, Scotland. He is an active corresponding member of the Lodge of Research, LeClerc, Eng.

He represents the Grand Lodge of England, and the Grand Lodge of Minnesota, U.S.A., near the Grand Lodge of New Brunswick.

In the General Assembly, he was elected Sovereign Grand Inspector-General, 33 degree A. and A. S. Rite, Oct. 23, 1913, and since has been Deputy for the Province of New Brunswick.

He is a member of Carleton Royal Arch Chapter and a Past Eminent Commander of St. John Encampment, Knights Templars.

Following the ceremony in the hall the gathering of Masons retired to the Temple club rooms, where a social hour with musical programme was enjoyed.

## Stealing Cases In Police Court

Preliminary Hearing of Six Lads for Breaks and Theft — Roberts for Stealing.

The preliminary hearing of the six lads who were captured at Ragged Point on April 10th after stealing the horse of George McCarthy of this city, and breaking an entrance to the store of Samuel Melatzky at Musquash, was resumed yesterday afternoon before Magistrate Ritchie, on the charge of stealing the horse of George McCarthy.

## Detectives Testify.

Detectives Donahue and Biddcombe gave evidence similar to that given Monday in the breaking and entering charge. Detective Donahue stated that Sergeant Detective Powers arrested young Owens and Collins, and that he and Detective Biddcombe arrested the other four boys, Levine, Miller, Cameron and Crawford. The six were arrested without a warrant, he said, and in Charlotte County. The horse was identified outside the police station by the detectives as the horse turned over to them after being found in Oscar Hanson's barn at Little Lepreux. Daniel Malin, K. C. for Owens and Scott E. Morrell for Levine.

## Stealing Revolver.

Frederick Roberts was charged with suspicion of stealing a revolver from Geo. Gibbs, six shirts from Chas. H. MacDonald, and also of breaking and entering the apartments of Chas. H. MacDonald, on April 9, and stealing therefrom MacDonald's watch, valued at \$30. All thefts took place in the late afternoon, where, up till about two months ago, accused had been employed as porter. C. H. MacDonald, in his testimony, identified the six shirts and the watch produced in court as belonging to him. Detective Biddcombe stated that he found the six shirts in the Windsor Hotel, which is next to the LaTour, in a room occupied by the defendant. The watch was sworn in a mattress in an adjoining room. Mr. Gibbs identified the revolver as his property. The case was postponed.

Two drunks pleaded guilty and were remanded, a third forfeited his deposit through his failure to appear.

## Hive of Industry On Manawagonish Road

Canadian Lock Joint Pipe Co. Making Earth Fly on Water Extension Work.

A hive of industry is buzzing on the Manawagonish road where the Canadian Lock Joint Pipe Co. have "set up shop" and are now beginning to make the earth fly in excavating for the extension of the water pipe line from Manchester's Corner to Spruce Lake. W. G. Chase is President of the company which has the contract for extending the water main a distance of over four miles to Spruce Lake to give Lancaster and West St. John an adequate water supply. Frederick Chase is no stranger to the water extension business. He was chief engineer in the construction of the Greater Winnipeg Water District when there was an expenditure of \$15,000,000. C. J. Bruce, a Nova Scotia man, who has been several years in the employ of the company, is the superintendent having full oversight of the Spruce Lake extension.

## Many Innovations

The Canadian Lock Joint Company, which started on their contract yesterday, are introducing many innovations in the class of work in this section of the country. Mechanical contrivances for excavating the pipe trenches and refilling after the pipe is laid are being employed. The Key-stone excavator, or digger, was in full operation yesterday on the pipe trench. The excavator is built much on the same plan as a steam shovel. The bucket, however, is worked on a reverse swing from the regular steam shovel and is pulled along from behind the tractor rather than pushed along from the front as with a steam shovel. This excavator is capable of moving 800 cubic yards of dirt daily. The trench it is excavating will be at a depth of seven feet with a base of six feet.

To fill in the trench, after the pipe has been laid, an American ditch filler will be employed. It is estimated the excavator and ditch filler will do the work that 75 men would be required to do for the completion of the job by the latter part of November.

## Busy on Concrete Pipes

At the plant now established on Manawagonish road the company has forty-five men employed.

The chief work now is the turning out from moulds the joints of concrete pipe, heavily reinforced by means of steel, for the water conduits. Each joint is twelve feet long, thirty-six inches in diameter and each weighs three tons. Skilled workmen are employed in this work and special care is exercised that no flaw or blemish occurs in these mighty conduits. Those now in the yard are the perfect results of careful, painstaking work.

The process of treating these concrete pipes is a new one in this section, steam playing an important part in putting on the finishing effect.

The feature of the pipe is its water tight expansion joint, its special value being in the lead gasket. The gasket requires about eight pounds of lead as against seventy-five pounds for the cast iron pipe of the same diameter. The gasket is placed in a groove in the bell joint ring. The pipes are then brought together, the bevelled machine face of the epiglot joint ring compresses the lead gasket, making the joint absolutely water tight.

The company expect to have their work completed and all in perfect running order by the last of November.

## Distribute Liquor At Fredericton

Commission Will Use Barracks at Capital—Informed of Quantity in St. John.

One of the wholesale liquor vendors of the city appeared before the New Brunswick Liquor Commission which met here yesterday afternoon, and supplied them with considerable information desired by them, among other things the quantity and quality of the liquors now stocked by the two wholesale vendors of the province, the National Drug and the Brayley Drug Companies, whose stocks may be taken over by the commission to meet the requirements of the retail vendors until they hook up a stock from other sources.

## Distributing Centre

The Hon. F. J. Tweeddale, chairman of the board, stated last evening that Brigadier-General Macdonnell had given the permission of the militia authorities for the use of the stone barracks at Fredericton as a liquor storehouse and distributing centre.

Mr. Tweeddale estimated that a staff of from six to eight would be required to handle the liquor.

## Going to Montreal

The board, which is composed of the Hon. Mr. Tweeddale, Martin Maguire and F. A. Bentley, are to go to Montreal next week where they will inspect the stocks of the wholesale vendors, and will select representatives of Old Country distillers, with a view to purchasing a stock of high grade liquors. It is the intention of the board to purchase nothing but the best, and as Mr. Maguire was for many years in the wholesale liquor business there is little doubt but that they will get what they desire.

Maguire has estimated that from 65,000 to 75,000 cases will be required to meet the retail vendors demands for one year.

## PERSONALS

P. G. Britney has returned to St. Stephen after spending a few days at his home in Fairville.

W. E. Stone, manager at Woodstock of the New Brunswick Telephone Company, is in the city on business.

Lieut. Governor and Mrs. Pugsley arrived in the city last evening from Fredericton.

Chief Inspector Hawthorne arrived in the city last night from a visit of inspection to the North Shore.

## Raid For Opium Proved Successful

Proprietor and Chef of King Cafe, Prince Wm. St., Arrested With Drug and Outfit

Hun Fong Tung, proprietor of the King Cafe, Prince William Street, and Hun Wong, his chef, were arrested in a raid on the restaurant last night by city and federal detectives, after some two pounds and a half of opium had been found in their possession.

## The Raid.

The raid took place at about 8 o'clock when Sergeant Biddcombe and Powers, Detectives Biddcombe and Donahue and the federal officers located the two Celestials in the basement of the building which they use as a dormitory. At the essentials required by those who leave the rest of the world behind via the sleepy wood route, was found in the Chinamen's effects, over two pounds of the dope in a cigar box and a large tin can, opium pipe, and a lamp for cooking the "juice" also a paper full of the poppy pellets on Hun Wong, a loaded .32 revolver found in the pockets of a coat hanging on the wall was confiscated.

## Chinese Quartette

Last night's arrests add two more to the Chinese colony now housed in the county jail for having opium in their possession. The "dreaming quartette" from old Canton, line up as follows, Hun Sek, aged 52, Fong Fin, aged 35, both of the Brussels Street laundry, Hun Wong, aged 23 chef for the King Cafe, and Hun Fong Tung, proprietor pro tem in the absence of Hun Jim who is away on a visit to the land of his fathers.

The three younger men show little signs of the deadly dope, but old Hun Sek's appearance indicates that he has had many an odd whiff from the old pipe. He is very fragile looking with sunken-in cheeks, protruding eyeballs, and an infirm shuffle. Fines of \$1,000 and \$200, the maximum and minimum have already been struck against the Brussels street men.

## Plans Arranged By Scout Executive

Boy Scouts to Parade With St. George's Society — Will Visit Industrial Plants.

## PLANS ARRANGED

Plans for the observance of St. George's Day were discussed at a meeting of the Boy Scout executive held in the Boy Scout headquarters on Princess Street last evening and arrangements will be made whereby all the Scout Troops and Wolf Packs on this side of the harbor will parade with the St. George's Society to St. Paul's church for the evening service next Sunday.

## Relay Race

It is proposed to hold a relay race between St. John and Robbsey sometime early in May. Between eighty and ninety boys will take part. A dispatch will be sent out from St. John by a Scout who will run with it for an eighth of a mile and then pass it to another Scout who will be in waiting, the second Scout will repeat the performance, and the message will be relayed in this manner out to Robbsey, where an answer will be written and sent back in the same manner. The St. John Scouts propose making a record at this, one of the most popular Scout games.

## Industrial Hikes

Arrangements are being completed and the consent of the managers of several of the largest industrial plants has been secured, whereby the Scouts will be conducted by their Scout Masters on an "Industrial Hike," in which they will visit the largest factories in the city and have the manufacturing processes of each explained to them.

Those present at last night's meeting were Chairman G. L. Short, T. E. Simpson, Peter O'Brien, E. C. Timberley, C. E. Stephens and H. G. Barbour.

## Explosion Results In Death of Man

Charles Random Loses Life Yesterday Morning—Many Panes of Glass Shattered.

An explosion of dynamite at the Newmarket Brook work yesterday morning resulted in the death of Charles Random, 18 years of age, one of the men employed on the work and the breakage of a large quantity of window glass in the vicinity of the accident. The report of the explosion was heard at some distance from where it occurred and glass was broken in buildings over two hundred yards away. So far as could be learned no person, except the lad who was killed, was hurt.

## Twelve Sticks.

The dynamite, said to be twelve sticks, was in a little shack erected as a blacksmith shop. The building was just finished on Tuesday and the lad who met his death was the blacksmith on the job. About eleven o'clock he was seen by some of the other workmen to enter the building and in a few minutes the explosion was heard and the boards of the shed flew through the air. The portable forge was thrown quite a distance and the body of the unfortunate young man was picked up some twenty-five yards from where the shack stood.

## Fire Department Called.

It was soon that he was badly hurt and the ambulance was sent for. In the meantime an alarm was rung in from box 124 and the North End department responded quickly. As the ambulance was away on another call, the injured man was placed in No. 2 Salvage Corps wagon and hurried to the General Public Hospital, where he died, about half an hour after being admitted.

The windows in the houses in the immediate vicinity were badly shattered, some of them not having a whole pane of glass left, the blinds and window curtains were badly torn in many cases and in some the electric fixtures and plaster was brought down.

A George Moses, the contractor for the work going on at the brook, when asked after the accident was unable to give any reason for it as every precaution had been taken to prevent accident and the only one who could give any account of what happened was the lad who was killed.

**The Better the Paint The Better It Pays**

**MARTIN-SENOUR**  
100% PURE PAINT

by its absolute purity and correct proportions of all ingredients, its uniformity of composition, and thorough incorporation of materials by modern machinery, produces a paint that works easiest, spreads farthest, hides best, giving an even film of finest texture and highest gloss, that retains its whiteness longer and outlasts in wear any other prepared paint, or hand mixed lead and oil paint.

That is why it pays to use Martin-Senour 100% Pure Paint—The Paint for wear and weather.
