About one-fifth of the resident members attend mid-week prayer meetings.

About one-fourth of the resident members attend the monthly conference.

Besides the financial record, the table of attendance at conferences and mid-week prayer meetings, and the statement of additions to the churches—each of which indicates something of the religious condition of the churches—the reports from Ministers throw considerable light on the situation. The following are brief summaries of the reports received from Ministers. They are given in the order of seniority—as the names are recorded in the Year Book:

REV. G. A. HARTLEY is in the fortieth year of his pastorate in Carleton, St. John. Sunday services “well attended, and mid-week meetings fairly so.” All branches of church work well sustained. Finances very good; \$1,722.00 for the year. Three added. His health not so good as formerly. Church gave him three months vacation. Health is now improved, and he resumes work in October.

REV. J. T. PARSONS is in his “6th year at Marysville. Baptized three. Church has raised \$903.00. Y. P. Society in good condition. W. M. Society doing good work. Outlook good. Preaches also at Peniac, fortnightly. Church there small.”

REV. T. S. VANWART has been “pastor one year at Upper Hainsville, Millville and Staples Settlement. No special interest, but churches in healthy condition. The field is too small to sustain a Pastor without H. M. aid. It is an important field, and should have care of denomination—Other denominations are in all parts of the field, and unless our people have regular care our cause will suffer loss.”

REV. T. O. DEWITT “spent six months under direction H. M. Executive—three months at Upper Gagetown and three at Rusiagornish. Revival in both places; baptized sixteen. Last three months of year was acting Pastor at Rusiagornish. Upper Gagetown and Greenfield churches must have regular care or they may be lost to us.”

REV. E. B. GRAY has been Pastor one year “at Tracy Mills and Knox-ford. No revival. Meetings good, especially the conferences at ‘the Mills.’ Not so encouraging at Knoxford.”
