Before the collapse of the Conference, the public mind was absorbed in the great naval encounter which happily terminated in the destruction of the piratical Alabama. There was something in this terrible combat which stirred the blood of a maritime people, and made us think Philip Blake on the one hand and of Paul Jones on the other—not that I would give Capt, Semmes the honour of a comparison with the last bold rover of the seas. Semmes, it appears, is a Roman Catholic, and at Lis request masses were heid in his behalf in some of the churches of Cherbourg on that fatal Sunday morning when the Alabama went forth to her doom. The Confederates here were very wroth at the statement which was made in some reports, that when his ship was sinking, he struck her flag. They declared that she went down without any sign of submission -as bold and defient as she was when assailing unarmed merchantmen. But if you read his own-report to Mr. Mason (who by-the-bye, is still located in England), you will find that the hapless corsair did strike his flag. Although Mr. Lancaster indignantly protests that his yacht was not present by arrangement with Capt. Semmes, yet there is comething very suspicious in the proceeding, and it may be well doubted whether he would be equally active in rendering French Pope and prolonged protection. In the meantime, nice little squabbles are going eding his appearance in the county for re-Kearsage if, unfortunatelly he had stood in the same need of it as his unlucky an- As for the Romans themselves, I would tagonist. The imputations cast by Semmes upon Captain Winslow read very contemptibly by the side of the fact that by far the largest number of his crew were ressued by the boats of that vessel, and that 1862, perhaps the autumn would not have the galiant North Carolinian signalled to to the Deerhound to pick up as many of the drowning creatures as she could. There is more danger now to New York from an epidemic than from any other cause. It is in a very filthy state, and I should not be surprised if we get the yellow fever here. It has been long since decided that the disease is imported always into the United States. It was never in New Or leans, Charleston, or Savannah, except imported from the West India Islands. I can be imported into London and into New York. We have employed a new invention here to keep it off if possible. It is to freese Yellow Jack out. A vessel 150 feet long anchored at quarantine. She has three decks. From every vessel arriving infected with the yellow fever poison, the good

Mesers. Brooks and Dubois, Professors for Messrs. Brooks and Dubois, Professors for the Metropolitan Bishop of Cape Town, served on Tuesday a copy of the sentence of deposition on Bishop Colenso, in which the Metropolitan says:—"We do accordingly decree and sentence the said Bishop of Natal to be deposed from the said office as such bishop, and prohibited from the exercise of any divine office within any part of the Metropolitan Province of Cape Town,"
