

ELECTRIC SERVICE

Means comfort, convenience, economy, and safety.

The home that is completely equipped with electrical devices is a happy one.

All the drudgery of house-keeping is eliminated by electricity.

You can wash, iron, sew, sweep, cook, keep cool in summer and warm in winter, by means of electrical apparatus designed especially to relieve you of unnecessary and fatiguing labor.

At our showrooms all these devices are ready for your inspection. Competent demonstrators will operate and explain them for you.

EDITOR'S TALK

A CHRISTMAS NUMBER does not dispose of Christmas. For the next few weeks we shall have Christmas features. Our issue for next week will deal more largely in first-class photographs, many of which have been crowded out this week because of especial Christmas features. Our policy of giving our readers a mixed service of picture material in drawings, photographs and cartoons will be worked out more fully in the near future than we have yet been able to do. Never before have we attempted to give so varied a service, and certainly as yet we have merely begun to work out its possibilities.

In our next issue we expect to have a highly interesting article dealing with a phase of economics in Nova Scotia, and another with an aspect of the problem in French Canada.
