#### Improve hospital facilities

At the inquest into the death of Norman Reid, a 12-year old boy who died of severe brain damage after a traffic accident, it was learned that Mississauga hospital has no facilities for carrying on emergency brain surgery.

Schutz, Hart neurosurgeon, said that the boy had to be transferred to a hospital in Toronto for treatment of his head injuries, because there is no arteriographic equipment at Mississauga nospital. He ex

plained that a neurosurgeon "can't perform" without this equipment.

It should be noted that Schutz doubted that the delay required in transferring the boy was a factor in his ultimate death.

He did say, however, that in brain injuries where clotting of the blood is involved, "time is of

the essence," and that there is a need for neurosurgical facilities Artist: Gary McWatters

at Mississauga hospital While the capital expenditure for arteriorgraphic equipment would be about \$100,000, the major costs would be incurred in paying for the services of technicians and

a radiologist to operate it.
Unquestionably those costs would be high.

other On the Mississauga's expanding promation makes it incritable that, sooner or later, someone will suffer injuries in which delay of treatment will mean the difference between life and death

In a sense, then, until this situation is changed, we are all unprotected. If we accept the premise that human life is beyond value, the price of these facilities - however high - must be paid.

Congratulations are in order to the Credit Valley Conservation Authority for their 29 per cent increase in municipal levies and the boost they have given their overall budget

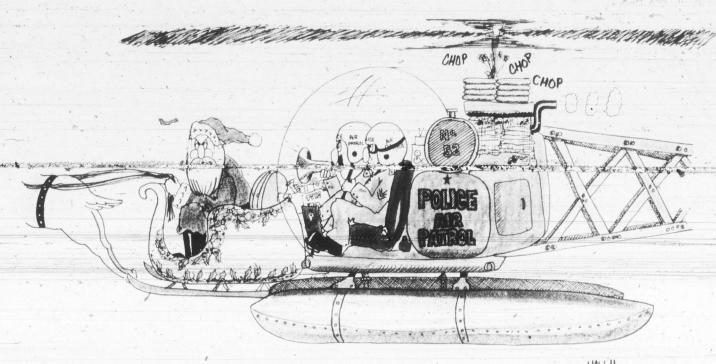

In these days of inflation, it is unusual to hear anything but grudging praise for healthy budget increases, but the CVCA's jump this year represents a catchup that should probably have taken place long ago.

Newly hired professional staff should allow more rigid enforcement of regulations on development which has been

allowed dangerously close to watercourses in Mississauga in the past.

It has been a rough year for the Conservation Authority with the continual discouragements in launching the Mississauga Waterfront Plan foremost among the problems.

The CVCA has been the subject of heavy criticism in the past year by some municipal councillors. Those councillors can make a vote confidence for the improvements they have been seeking by approving the healthy municipal levies this year.

"Okay buddy...pull over...!"

## Grey House opulent for group home'

The following letter to Mayor Martin Dobkin has been filed with The Times for publication.

I did and I do object to the use of the "Grey House" for troubled boys, but not for the reasons that might appear to

Although I see in the various newspapers that the Children's Aid have rejected the use of this house as a group home for boys, there are several thoughts I wish to share with you on the subject.

• One of the reasons for putting youth in group homes is to give them a feeling of belonging — a home and family with which they can pattern we followed in growing up, to make us into what we become. The home of the patterning, and in giving us the image we have others in the neighbourhood revive and preserve our

respects be as near as possible to the home a youth can identify with, and therefore should, in all respects, be as close to the

"norm" as possible. How can anyone expect children from all walks of life to be suddenly put into a mansion built for the family of a manufacturing company president, and feel "at home"

• The house in which a 'Group established should be as part of it. If special children bedroom homes? in the Grev were housed in the Grey house, set apart from the

homes are a method of appearance, it would be as if rehabilitating our troubled we in Mississauga were problems on public display. People would come down here sight-seeing and point the finger.

• The establishment of group homes is one way of seeking an answer to what to do with kids who have gotten into trouble, can't be sent back to their former environment and commodation, but yet should not be sent to a penal institution. It could be a good solution. These kids could belong to any one of us, our inconspicuous as possible to friends or relatives. They allow the inhabitants to need a chance, but not in a blend in with the surrounding community, and as nearly as possible to become or purchase "average" three podeses because because he was a bedaser because the surrous fit if special children bedaser because

would the trees really be "Bradley House" is a good · Apart from the issue about example in Mississauga of a House" is possibly the only one of the lovely old houses

a group home or no group home, there is something I am concerned about. Were the proper procedures followed in this instance. come Councillor Killaby (from another Ward) was in the party Ward) which visited the property but the Councillor who represents this Ward was not? Why was he not kept This family was given a verbal promise of "first refusal" and I cannot see that one group of people should be treated in bad faith informed? and turned out to make room for another group ap-

• It is my understanding that Council requires a citizens' group wanting to be heard by council, to give two weeks prior notice to Council. Is it not only fair then, that issues that con-cern the people should be tabled far enough ahead so citizens have the opportunity were on the property do you to learn of them in plenty of think the public at large time to act — say three would use that park? And weeks prior to discussion and, therefore, possible decision by the council?

• I think Councillor Searle owes the people of this community a public apology for the slurs he has cast upon our characters and morals. He did not talk to any of us to get his facts straight. Many of the local residents here are, or have in the past, been very active in volunteer work of many kinds towards the betterment of Community and are sympathetic

to the cause of group homes.
At least one other community refused to have this home in their neighbourhood and were not villified in this manner. Why have we been singled out for such denunciation? The people of this neighbourhood are as fine a group of people, both collectively and individually as can be found anywhere We are an active and concerned citizenry with very strong, very vocal and sometimes very differing hot objective opinions on all matters pertaining to the

area we live in.

Could not the term
"whisper campaign" at-"whisper campaign" at-tributed to residents of the Elmwood South area, perhaps more readily be applied to the tactics of the instigators of this project? We didn't whisper, we never do. We speak right up. SHIRLEY IZZARD MISSISSAUGA

## 'Gas company ripoff'

The recent announcement by Consumers' Gas Company of a rental increase of 55 cents per month on their Gas Hot Water Heaters has got to be the biggest "ripoff" and "con job" of the decade and is representative of the game currently being played by many major Corporations and Public Utilities in gouging the consumer.

Mr. Joe McCarthy, President of Consumers' Gas Company, is somewhat naive in thinking this rental increase can be justified on the basis of increased costs
—labour, materials, etc. As far as I'm concerned this has no application to Hot Water Heaters that have been installed for several years.

For the benefit of Mr. McCarthy, let me make a quick calculation. We moved into our present home in May 1968 - 80 months ago. Therefore, 80 weeks at \$2 equals \$160 paid to date.

A tidy little profit when you consider the initial cost to Consumers was probably half this amount. Now they say increased labour and material costs necessitate the 55 cent increase. May I be so bold as to enquire of Mr. McCarthy, what increases in labour and materials? We haven't seen anyone from Consumers' Gas since 1968. The heater has been problem free and just to make sure I wasn't the exception, I polled

practically all residents fell into the same category.

I recognize and appreciate that Consumers' costs have risen, just as they have risen in every other Company, but does it not seem reasonable that Consumers should recover these increased costs directly in the areas in which they were incurred, such

as new heater installation or gas rates. This I could accept but to their attempt at conning me, I object. My alternative, of course, is to switch to Hydro. In Mississauga, for a small installation charge and \$1.75 per month (80 cents less than Consumers), I can have the equivalent heater or if I wish, I can purchase for approximately \$116. I am currently considering this

The additional 55 cents per month will not be felt by myself but I am sure there are families that will feel its effect. The point I would like to make is that I have no evidence that our elected representatives have taken any interest or any kind of stand on such matters to protect the consumer. If they fail to act on the minor 55 cents issues such as this, how can we ever expect them to act on some of the more important ones?

JOHN F. McGINNIS

## Column was cheap and

imagined that The Mississauga Times was a paper that our community could be proud of; but by publishing Mr. James Bailey's article on Royalty Nov. 20th) you have disgraced both yourself and Canadian journalism.

Mr. Bailey's article is in such bad taste that it can only be described as cheap and vulgar. Mr. Bailey does not like Royalty. Very well. Some others just as ignorant about constitutional

monarchy as 'Mr. Bailey also do not. But to make fun of the size of a lady's nose or waist reveals much more about Mr. Bailey's bad manners than about the family he seeks to insult, and his shoddy buffoonery (exercised under the pathetic delusion that he is being smart and witty) is painful to

always watch. Mr. Bailey (who, I am absolutely certain, has never met member of Royalty and therefore speaks from ignorance) accuses the royal family of being pretentious. All I can

pretentious piece of journalism has been published in any paper

in Canada this year. Since you have seen fit to publish Mr. Bailey's article against a family which, by tradition and say is that no more constitutional prac- MISSISSAUGA

## Bare facts, not skin'

The Editor.

A few weeks ago two ladies wrote you in reference to an ad you carried depicting a scantily dressed girl. I commend them for their views. I also had my views on the subject. A financial house is one o those institutions we look to as being something substantial and regarded with respect. This week the ad appears with the picture of a young lady fully clothed. Quite an improvement. Possibly in the course of time the advertiser will get in line with other similar organizations and simply state the bare facts of the service they can render. At this time I would also

like to refer to those ten kind

hearted, generous souls who

and voted \$1,000 to buy gifts for the children of the staff. Perhaps another year these same councillors may be

moved to donate this amount

#### Letters to the Editor

The space on this page is reserved for the readers of The Mississauga Times. We invite comment on any issue and are particularly interested in any letter which takes a point of view in conflict with our own as expressed in the editorials. All letters must be signed although, if circumstances require, we will allow a pseudonym to be used.

MISSISSAUGA

The proposal to build an 18-storey apartment on the Adamson property is meeting increasing opposition. The application is due to be aired before the Ontario Municipal Board in March, 1975

In its original form the proposal was to convert the five acre Adamson property into an apartment-marina parkland. developmment. Local residents saw an opportunity to Both reimprove the parkland situation in the town and pressed from the first for the land to be acquired for public use.

The Adamson estate is one of the few remaining original wooded lands along the lakefront in the area. Buildings on the land are also of historic interest and could readily be converted for use as an art gallery and community theatre. Opposition to the Adamson Proteous development has been spearheaded by a newly formed H21 and Greenaway Residents' Association. The association has been successful

in collecting sufficient funds from interested citizens to ensure legal representation at any hearings that might be called. More than 300 people in the area signed a petition calling for a halt to the proposed development. The residents' opposition has been supported by civic action on a number of fronts. The Mississauga Council recently passed a resolution calling for the land to be developed as a past, a page which was a past of the land to be

developed as a park — a move which was supported by Regional Council. The Credit Valley Conservation Authority has also adopted a resolution along similar lines and instructed its planners to prepare recommendations on the

Appraisal of the land is now being carried out for CVCA and once this has been done the way is open to apply for an expropriation order to acquire the land for public use.

The Residents' Association is also approaching provincial and federal representatives for their support. Both the federal and provincial governments have expressed support for the plans to make lakefront property accessible to the public. The Adamson property could provide a precedentsetting example of the kind of action which will be needed over the next few years to return lake shore property to the

The rapid growth of Mississauga's population is undoubtedly going to impose a strain on the recreational

area bounded by Stavebank, Highway 10, Lakeshore Road and the CN tracks consisted of single family dwellings. Today fifteen to twenty-five storey apartments predominate Yet there has been no proportional increase in area

Both residents and government have now reached a consensus on the limits which must be imposed on growth in the area. The lakeshore represents a unique asset to the City of Mississauga. Much of it is already closed off to the public either by private housing or industries. As the city grows to the north the pressure for recreation will undoubtedly be concentrated on the lakeshore and every available foot of

shoreline will be needed.

Properties such as the Adamson land are rare and must

clearly be acquired when the opportunity arises. The H21 and Greenway Residents' Association is planning an active campaign over the next two months to provide OMB with evidence on the need for parkland along the lakeshore. Funds may be needed for professional counsel and any citizens who can contribute are asked to call MRS KATHLEEN BRIERLEY

### 'Auxiliary police a good idea

I hear there is to be a discussion on the subject of founding an Auxiliary Police Force. I certainly think it would be a step in the right direction, as any law abiding resident must be conscious of the amount of crime in our area.

The Police force have worked hard and are to be commended for their cleverness in solving some of these crimes, and it would be helpful for them to have assistance when necessary. I trust the councillors will be aware of this MISSISSAUGA.
