Dear Sir:

It has been observed that in your December report you mentioned that Indian shopping baskets were sold to merchants in Halifax for 10¢ each.

This price seems very small, and if you can conveniently send one of the baskets addressed to the Welfare and Training Service (Miss Kathleen Moodie), we will have some idea as to whether we could find a better market for the Indians than there appears to be in your district.

Yours very truly,

R. A. Hoey
