
**Why
Quebec
Is
Going
Ahead!**

It is Canada's Natural Harbour, and the only safe deep water port at the head of the St. Lawrence River, one of the few ports in the world where the largest ships afloat can dock without assistance.

Quebec's cotton manufacturing industry is to be doubled.

Electric power for large manufacturing industries can be had at less than \$23.00 per horse-power.

Quebec's schools and colleges are equal to those in other cities.

Quebec has one of the foremost universities in America.

Quebec's manufactories show a large increase in business for last year.

The opening of the Quebec & Saguenay Railway will bring Quebec in touch with 55 miles of new Eastern territory.

The building of the new Dry Dock will bring a large ship-building plant.

The Transcontinental workshops to be built at Cap Rouge will employ over 2,000 mechanics ; this means 10,000 additional population.

Hundreds of thousands of dollars will be spent by the Battlefields Commission in embellishing Quebec with a fine boulevard and park.
