CIRCULAR.

TO SHIP-MASTERS.

THE undersigned would earnestly seek to impress upon Masters of vessels trading to this Port, the absolute necessity of regular communication with their port, to enable His Excellency the Governor-General fully to carry out these measures of reform, which, in his reply to their late address he was graciously pleased to express his determination to introduce for the protection of the interests of the British West-India Colonies in this Port. Ample evidence of His Excellency's sincere desire to afford all possible protection and assistance to British Commerce, has already been given, by the establishment of a more efficient system of Police than has ever before prevailed in Quebec. And it may confidently be expected, that on a short time, under the energetic administration of His Excellency, the greater number of police and from which His Majesty's Agents and Officers of ships trading to Quebec have for a series of years past, suffered incalculable loss and inconvenience, will cease to exist. Still it must be evident to all, that active co-operation on the part of Ship Masters, is essential to the speedy attainment of the objects contemplated by His Excellency, and so necessary to the welfare of the trade to Quebec. It is, however, to be regretted, that as yet Masters of vessels are not aware of the important advantages that would result from their co-operation. And in view of the necessity that exists of a more immediate and active attention on their part to the subject, it will only be necessary to state, that out of twenty-six vessels that were arrested by the new police, on Sunday and Monday last, eight only were claimed by the Masters of the vessels from which they had deserted although there can be little doubt that the whole or nearly the whole of them were deserters. Now, if the Masters who have lost women by desertion, would without delay apply to the police, they would in most cases recover their men, and the benefits resulting from the exertions of the police would at once be sensibly felt.

ARCHIBALD CAMPBELL, S.P.
Agent to several Marine Insurance Associations in the United Kingdom.
Quebec, 21st June, 1838.
