“**Electricity and Magnetism**” is Volume III. of “Nature's Miracles.” It is not a dry, technical book, but is written in a popular style, and is full of interesting facts about a subject which is receiving more attention than ever. The other two volumes of “Nature's Miracles” have been the most popular books that our Reading Circles have ever studied, and we are satisfied that Volume III. will be equally attractive.

“**The Pleasures of Life,**” by SIR JOHN LUBBOCK, is a delightful book, which has become a literary classic. It is impossible to read it without being stimulated to a larger appreciation of the blessings of life, and inspired to better things.

“**Korean Sketches,**” by JOHN S. GALE, is a particularly opportune volume, as the eyes of the world are now being turned to Korea, on account of the war now going on between Japan and Russia. It is generally acknowledged to be the best book on Korea ever published.
