Winnipeg Industrial Exhibition

In exhibits and live stock, the industrial exhibition which closed on the 18th surpassed any fair ever held in Western Canada, though a very heavy rain-fall in the middle of the week slightly upset the calculations of the directors.

There was a fine exhibit both in numbers and quality, in the dairy cattle section of the show. W. W. Ballantyne of Stratford, officiated as udge, his awards giving entire satisaction. In the Holstein classes, The Munro Pure Milk Co. of Winnipeg won most of the prizes. The honors in Ayrshires were divided between R. R. Ness of Howick, Que. and Robt. Hunter & Son of Maxville, Ont. An eastern herd of Jerseys swept almost everything in their class. A few everything in their class. A few Dutch Belted cattle were on exhibition, Wm. Van Horn, being the main Sir xhibitor

The chief competition in Ayrshires was between R. R. Ness and Robt. Hunter & Sons. For cow three years and over R. R. Ness won first with Lady Clara of Burnside; Hunter & Sons came second with their imported cons came second with their imported cow, Auchenbairn Cheerup; Ness won third with Moss Rose. In the two year old heifers, Robt. Hunter received first with a deep-bodied, well developed co w, Queen Kate; Ardyon, also belonging to

STOCKWOOD HERD OF AYRSHIRES stands for everything that is best in this Dairy Breed. Our success in the show yards proves the excellence of our herd FOR SALE-Stock of both sexes. D. M. Watt, St. Louis Station, Quebec

It is desirable to mention the name of this publication when writing to advertis

Hunter & Sons, came second, while Ness was third with Burnside Nellie Burns, a very straight-lined cow with a typical head and a well-developed chine and smooth shoulder. In the one year old heifer class, R. R. Ness was first and Hunter & Sons second and Egerton Shore, third. For the herd prize, R. R. Ness came first, Hunter & Sons got second and third.

THE BEEF CLASSES

The Shorthorn classes were one the strong features of the show. the strong features of the show. The chief exhibitors were Sir Wm. Van Horne, C. E. Clark of St. Cloud, Minn. A. D. Stewart of Westbourne, W. G. Frank, East Selkirk, T. E. M. Bant-ing, Wawanessa and others. Prof. Curtis of Ames, fowa, acted as judge. Aberdson Ameris, cattle, were wall se-Curtis of Ames, Iowa, neted as judge.
Aberdeen Angus cattle were well represented by a number of western
breeders. Herefords were exhibited
by James Bray, Portage la Prairie,

Sheep made a good exhibit, Leices-ters, Shropshires, Cotswolds, Oxfords and South Downs were represented. Swine were represented by several western herds.

HEAVY HORSES

Great interest was taken in the Cly-desdale classes. Prof. W. F. Carlyle, of Colorado, was the judge and he had a difficult task to perform. In the brood mare classes there were 14 anibrood mare classes there were 14 ann-mals appeared in the ring. Baroness of Hillcrest, sired by Baron's Gem and owned by R. H. Taber of Condie Sask. was first. The excellent underpinning and true action of this mare accounted for her position as she was somewhat out of condition. In the stallion classout of condition. In the staffion classes, the four year old horse, Prince of the East, belonging to Hogate of Brandon, came first. There were a large number of exhibitors, the chief ange name of exhibitors, de cane runong which were Hogate of Bran-don; Sir Wm. Van Horne, Mercer and O'Neill, Mackdale, Ont; Bryge of Arcola, Man.; Steele of Glenboro, Man.; John Graham, of Carberry, Man.; John Graham, of Carberry, Man.; John Hay of Hannah, N. D.; Wawanessa; Hodgson, Ro-Banting, Wawanessa; I land, Man.; and others.

The Percheron exhibit was a fairly strong one, the breeders, represented were Hogate; Geo Lane of Pelisko, Alta; Tenaille, Maple Creek, Sask.; Upper Bros., North Portal, Sask.; and others. The lighter horses—sandardbreds, roadsters and thoroughbreds, as well as the hackneys and ponies made strong exhibits in their various classes.

HORTICULTURAL EXHIBIT

In the fruit building, the principal In the fruit building, the principal exhibits were those from British Columbia and Ontario. The exhibits were well displayed and made a very attractive exhibit. A good range of fruits from several of the principal points in British Columbia such as Nelson, Kelowna, Kaslo, Chiliwack and Victoria were much admired. The exhibit of tomatoes packed by the St. Catharines Cold Storage and Forward-Association was particularly worthy of mention. Some branches of red currants also were very fine.

An atraction of the fair that created creat interest among the farmers was this machine, the hog grinds his own feed, the grain being supplied to him just as he grinds it. Through practical demonstration this motor displayed its usefulness and apparently it is bound to gain favor with the hog raiser.

A telephone in every house would work a great revolution in our farm homes.—J. Lockie Wilson.

Talks with Farmers

Ed. The Dairyman and Farming World, — It is a pleasure to visit the home of Mr. S. Redmond, Elm Grove home of Mr. S. Redmond, Elm Grove stock farm, Otonabe township, Peter-boro County. Mr. Redmond has 32 head of cattle stabled in two of the best built and best ventilated barns in the county. One barn, built of solid brick, on stone foundation, is 86 x 40 feet. There is room for 11 horses and 5 cows. The other barn is 125 x 45 feet. It is being got ready for the cattle to be fed next fall. fall.

fall.

Mr. Redmond farms 200 acres, every part of which is under-drained. "The benefits of under-draining cannot be over-estimated," said Mr. Redmond; "I can get on the land a week or two earlier in the spring now than I could before the farm wasdrained. Besides, the land is easier to handle, as it does not cake, and to handle, as it does not cake, and see the difference in the crops on the drained and on the undrained land. Under-draining pays for itself twice over the first year the land is twice over the first year the land is worked, after the tiles are put in. I am surprised that there are not more am surprised that there are not more farmers than there are who have drained their land, when the results, both in increased yield, and the easier manner in which the land can worked, can be seen so easily.

"I have heard quite a lot lately about the general failure of the man-gel crop. In nearly all cases such crop. failures are on farms that are not drained. I got my mangels in early when we were having a lot of rain, and they have turned out first class."

RURAL FREE DELIVERY

"The idea of rural free delivery, which I have read considerable of in The Canadian Dairyman and Farn-ing World, is a good one. However, I cannot see how it is to come unless we farmers agitate for it. Whatever we farmers agitate for it. Whatever we have got in the past we have always had to get for ourselves, and I expect that this matter of free mail delivery will be about the same. It would be very nice to get the daily papers and your mail every day, but I am afraid that the farmers generally will want to be convinced that it ly will want to be convinced that it will not cost much more than the amount that they are already paying for a box in the city post office, namely, \$2 a year."

"The special edition of The Cana-dian Dairyman and Farming World, which I see is advertised for the benefit of farmers in the immediate vicinity of Peterboro, is a good one, an wish it every success. As for the gular edition, it is a fine healthy paper, and should have the hearty support of all that are interested in farming—dairy farming in particu-lar."

ROAD WORK SYSTEM CONDEMNED

"The statute labor system of road work is not what it should be," said Mr. Nathan Payne, of North Dummer. "If the value of our labor was spent on hiring qualified men to make and repair the roads, better work would be done and we would be enabled to have them. abled to have them at work during the fine weather, instead of only a few days as at present.

AN OLD LOG HOUSE

"On my farm is the first log house that was built in Dummer. It was erected by my grandfather. At the time it was built this section of the country was over-run with wolves, and the farmers often had a danger-

ous time. "A Mr. Forsyth and a Mr. Kidd brought the first No. 2 plow, with the old cast iron mold board, from Peterboro, into Dummer. They carried it all the way, a distance of
