BAIN WAGON CO.'S FARM TRUCK

THIS cut represents the most convenient Wagon ever put on a farm, because it is suitable for all kinds of work, and always ready, no changes being necessary.

THIS WAGON was invented and first introduced in Michigan, U. S., and is now very extensively used by leading farmers in the United States.

AND EVERY WAGON made and sold by us in Canada is giving entire satisfaction. For further particulars and prices Address, BAIN WAGON CO., Woodstock, Ont. 288-1f

MICA ROOFING

USE Mica Roofing On all your Buildings. It is Cheaper than Shingles. Water Proof and Fire Proof.

USE Mica Paint To Repair Leaky Roofs. Shingle, Iron or Tin Roofs painted with it will last twice as long.

RAPIDLY TAKING THE PLACE OF SHINGLES.

Is put up in rolls of 108 square feet each, 36 feet long by 3 feet wide, and costs 24c. per square foot, thus affording a light, durable and inexpensive roofing suitable for buildings of every description, and can be laid by ordinary workmen. One man will lay ten square in a day, which brings the cost of Mica Roofing to about 75c. per square cheaper than shingles. Special terms to dealers who buy our Mica Roofing to sell again. Orders and correspondence answered promptly.

HAMILTON MICA ROOFING CO. Office 108 James Street North, HAMILTON, ONT. 309-OM

ADVERTISE IN THE ADVOCATE.

PROVAN'S HORSE FORK and SLING IS THE BEST MADE.

SIMPLE, STRONG, DURABLE

Many farmers who had other kinds have taken them down and bought mine after seeing it work. My Machine Handles Sheaves as well as Hay and Peas It is the Simplest and Best Stacker Manufactured.

It has been in successful competition with the best in the market during the past seven seasons. Its superiority to all others places it beyond doubt, as it is positively the only Double-Acting and Self-Reversing Machine on the Continent that has the following advantages:—A loaded fork or sling can pass the stop block. The pulleys can be instantly lowered or elevated to their position. This avoids all climbing or untying of the whiffletrees. The track as a strengthening brace, never warps, and is stronger and better adapted for unloading at the gable, as well as the centre, than any other. It is easily moved from one barn to another. The track used for this car is the best for the following reasons:—It is round; the car runs easily, and is not affected by a side pull. Any boy can change it with ease. Pulleys can be instantly raised or lowered at pleasure.

GUARANTEE.

We guarantee every Machine sold by us to do first-class work, and to unload one ton of hay in from three to five minutes, when properly handled and put up, and if it fails to do so, will be taken back and money refunded.

SENDING TO FARMERS ON TRIAL.

It has been for years a part of our business to send our machine on trial to fair-minded responsible farmers living at remote distances, such machines to be put up by them and used until their harvesting be half done, when they are required to decide whether they will keep the apparatus or return it; if the latter, we will pay return freight charges.

J. W. PROVAN, OSHAWA, - ONT..

Sole Manufacturer and Patentee. We guarantee satisfaction in every instance. Will exhibit in Implement Building at Toronto and London. 309-a-OM
