## MISPLACED CONFIDENCE.

Without a shadow of fear Farmer Trusty  
ran his traction engine on the bridge. The  
builder proved it safe by figures, thus: four  
stringers across the ditch carry 1,500 pounds  
each, fourteen planks 500 pounds each, equal  
to 13,000 pounds. While the coroner sat on  
Trusty's remains, the builder skipped out.  
Maybe "figures won't lie," but they are some-  
times juggled by ignorant or unprincipled men.  
Remember, when figuring on fences, that the  
cross wires or pickets, like bridge planks, add  
nothing to the strength, and the "stringers"  
of the Page are doubly strong.
